Published 26<sup>th</sup> January 2018

# MAIN MENU

## Publication of this Strategic Capacity Statement

Network Rail will publish this Strategic Capacity Statement (SCS) under D 2.3.2 of the Network Code at **D-45** showing the routes, quantum and characteristics of the Strategic Schedules it proposes to include in each timetable (principal and subsidiary) as set out in the Network Code.

## Applicable Strategic Capacity Statement

Network Rail will provide this Strategic Capacity Statement to all access parties applicable to each Priority Date and include the Strategic Schedules to be shown in the New Working Timetable.

## Timetabling Strategic Schedules

During the timetable development process, a train operator should indicate whether it proposes to use all or part of a Strategic Schedule for its intended purpose, or for some other purpose. The formal timetable process is described in the National Timetable Planning Rules and Part D of the Network Code.

## Principles applying to Strategic Capacity

For full details please refer to Network Rail's Code of Practice "Management of Strategic Capacity on the Network" can be found [HERE](#)

## Notes relating to this SCS

Following consultation with all Train Operating Companies and Freight Operating Companies, this document puts forward 3 Parts (Please Click to Navigate to Section)

**PART A**

**Schedules rolled forward**

**PART B**

**New Schedules**

**PART C**

**Modified Schedules**

## PART A

Schedules listed here are Strategic Capacity schedules that are being rolled forward from the previous Timetable.

Schedules identified here are subject to the Timetable offer for May 2018, including any variances to schedules that may occur.

Please note the following:

- Headcodes are subject to change once a schedule has been found
- Schedules identified here are subject to availability on the network

| Headcode | UID    | Origin                     | Dep   | Destination               | Arr   | Days | Timing Load     |
