YO1 6HZ

Dear Neighbour,

National Helpline: **03457 11 41 41**

We would like to take this opportunity to update you on the status of our Model Railway Compound at Dringhouses.

This compound is now active and will remain so until February 2025, which is in line with the work taking place for the York to Church Fenton Improvement Scheme.

It is important to mention that there will be a moderate level of disturbance from this compound, whilst the team access the railway for the improvements. We have developed a monthly work tracker to keep you and your community up to date. This includes the work schedule and key information about the timings of each piece of work taking place.

Please note that there will be no office cabins placed within this compound, however, there will be welfare facilities for the team.

We would like to apologise in advance for any disturbance which you might experience during this time. We will continuously monitor noise levels whilst the compound is active. Our priority is to ensure that the project is successfully carried out, in a way that will cause minimal disturbance.

We would like to thank you for your patience during this time and we will continue to keep you updated along the way.

Should you have any questions, please do not hesitate to get in touch via our national helpline on 03457 11 41 41 - alternatively, you can visit [www.networkrail.co.uk/contact](http://www.networkrail.co.uk/contact)

Yours faithfully,

**Catherine Herbert**  
Community Relations Executive
