Preface

- A. *The Network Code is a set of rules which is incorporated by reference into, and therefore forms part of, each bilateral access contract between Network Rail and a holder of access rights. It does not create any contractual relationship between operators of trains.*
- B. *The purpose of the Network Code is:-*
- (i) to regulate change, including change to the working timetable, change to railway vehicles specified in an access contract, change to the network, change to computer systems and change to the Network Code itself;*
 - (ii) to establish procedures relating to environmental damage;*
 - (iii) to establish a performance monitoring system; and*
 - (iv) to establish procedures in the event of operational disruption.*
- C. *This Preface does not form part of the Network Code*

THE NETWORK CODE

Part A - General Provisions

Explanatory Note

- A. *Part A sets out certain definitions, general provisions and rules of interpretation which apply generally to this code. Definitions which are specific to individual parts of this code are contained in the relevant part.*
- B. *This Explanatory Note does not form part of the Network Code.*

CONDITION AI - GENERAL

1.1 *General interpretation*

The paramount objective in the railway industry is to operate a safe and secure railway on which the elements of risk to safety and security are reduced to a level as low as reasonably practicable. Nothing in this code shall be interpreted or construed as compromising that objective.

In this code, unless the context otherwise requires:

- (a) *This code*

References to this code means this code as modified from time to time. References to The Railtrack Track Access Conditions shall be treated as references to this code.

- (b) *Parts, Conditions and paragraphs*

References to Parts, Conditions and paragraphs are to Parts, Conditions and paragraphs of this code.

- (c) *Definitions in the Act*

Terms and expressions defined in the Act shall, unless the contrary intention appears, have the same meaning in this code.

(d) *Statutory provisions*

References to statutory provisions shall be construed as references to those provisions as amended or re-enacted or as their application is modified by other statutory provisions from time to time and shall include references to any statutory provisions of which they are re-enactments (whether with or without modification).

(e) *Interpretation Act*

Words and expressions defined in the Interpretation Act 1978 shall have the same meaning in this code and the rules of interpretation contained in that Act shall apply to the interpretation of this code.

(f) *Include*

The words “include” and “including” are to be construed without limitation.

(g) *Other documents etc.*

Any agreement, instrument, licence, standard, timetable, code or other document referred to in this code or entered into, approved, authorised, accepted or issued by a person pursuant to this code shall be construed, at the particular time, as a reference to that agreement, instrument, licence, standard, timetable, code or other document, as it may then have been amended, varied, supplemented or novated.

(h) *Conflict*

In the event of any conflict of interpretation between this code and an Access Agreement (not including this code) the following order of precedence shall apply:

- (1) this code; and
- (2) the Access Agreement.

(i) *Time limits*

Where in this code any obligation of an Access Party is required to be performed within a specified time limit that obligation shall continue after that time limit if the Access Party fails to comply with that obligation within the time limit.

(j) *Headings*

The headings and references to headings shall be disregarded in construing this code.

(k) *Ruling language*

All notices served under this code shall be in the English language.

4.3 Reasons for decisions

An express provision of this code which requires or contemplates that the Office of Rail Regulation should give reasons for its decision in any case does not affect the right of any person to be given reasons for any other decision of the Office of Rail Regulation in any other case.

CONDITION A5 - LIMITATION ON LIABILITY

5.1 General

If an Access Party fails to perform an obligation under this code, the provisions of its Access Agreement limiting the liability of such Access Party under that contract shall have effect in relation to such failure unless and to the extent that:

- (a) an express provision states otherwise in any Part of this code; or

(b) an express provision states otherwise in the relevant Access Agreement.

5.2 Saving

Condition A5.1 does not apply to an obligation to pay compensation under Condition F3, G2 or G4.

CONDITION A6 - CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999

6.2 Application to Network Code

Where in this code a right is given to any person who is not an Access Party, that person shall be entitled to enforce directly any such right under the Contracts (Rights of Third Parties) Act 1999 but only by way of injunction or other performance order of a court or competent tribunal and not by way of damages or other compensatory award.

CONDITION A7 - CONSULTATION

7.1 Consultation by a meeting

Where in this code a person is required to consult with other persons on any matter, such consultation may take place at a meeting to which such persons are invited.

Part B - Performance Monitoring

Explanatory Note

- A. *Part B provides for the establishment by Network Rail of a Performance Monitoring System, designed to record whether trains pass specified monitoring points, the times at which they do so and the difference between those times and the corresponding scheduled times. The system is also designed to enable Network Rail to determine and record the cause of any delay or cancellation. Provision is made for Network Rail to notify and seek agreement from affected Train Operators as to the cause of any such delay or cancellation, and there are procedures specified for resolving cases where Network Rail and a Train Operator disagree as to cause.*
- B. *Train Operators are given the right to notify Network Rail if the Performance Monitoring System is not fit for purpose and require Network Rail to investigate the grounds for such notification and report on its findings.*
- C. *Both Network Rail and Train Operators are given the right to audit and inspect the records and monitoring equipment of the relevant Performance Monitoring System and to require tests of the Performance Monitoring System to be carried out in the presence of an independent expert.*
- D. *Condition B5.3 also makes it clear that the Access Parties can, however, agree a more onerous Performance Monitoring System than that contemplated by Part B. The model set out in Part B is therefore a minimum standard.*
- E. *Part B also incorporates the Performance Data Accuracy Code which encompasses defined standards of accuracy of performance data.*
- F. *Provision is made for the setting up of a Delay Attribution Board whose purpose, constitution and procedures are set out in Conditions B6 and B7.*
- G. *This Explanatory Note does not form part of the Network Code.*

None of the Chairman, the Deputy Chairman or the Board Secretary shall be liable to any Industry Party for any act or omission (including negligence) in connection with any Board proceedings under this Part B unless the act or omission is established to have been in bad faith.

Part C - Modifications to the Network Code

Explanatory Note

- A. *Part C provides for a democratic process by which the Network Code and the Access Dispute Resolution Rules may be changed. Class protection is provided for each of four interest groups (or Classes), namely Network Rail, franchised passenger Train Operators, non-franchised passenger Train Operators and non-passenger Train Operators (collectively referred to as “Train Operators”). The second and last of these groups are subdivided into Bands reflecting the relative size and nature of those groups and their respective members.*
- B. *A Train Operator can only be a member of one class, which is determined by the type of railway services in respect of which it pays the greatest part of its Track Charges.*
- C. *Each of the Classes (and, where appropriate, Bands) is given the right, annually, to elect Class Representatives to a Class Representative Committee. The Committee is charged with responsibility for considering and, if it thinks fit, approving proposals for changing the Network Code.*
- D. *The Class Representative Committee is to establish rules of procedure which are to be followed for all Committee Meetings. Objections to any of the rules of procedure may be made by the Office of Rail Regulation and, in specific circumstances, by any Class Member, an Access Option Holder or any person who proposes in good faith to enter into an Access Agreement or become the holder of an access option.*
- E. *Any Class Member, Access Option Holder, any person who proposes in good faith to enter into an Access Agreement or become the holder of an access option or the Office of Rail Regulation is entitled to make a Proposal for Change for consideration by the Class Representative Committee. Proposals must be made in writing to Network Rail.*
- F. *There are eight members of the Committee. Each of these may, as part of the democratic process, vote on proposals for changing the Network Code. Normally six must vote in favour for a Proposal for Change to the Network Code to be carried.*
- G. *On the satisfaction of certain criteria, Network Rail and any two of the Class Representatives of the Franchised Passenger Class have an ability to veto a proposal to change the Access Conditions. This right of veto is subject to an additional appeal procedure.*

- H. *Any Class Member, Access Option Holder, any person who proposes in good faith to enter into an Access Agreement or become the holder of an access option, the Office of Rail Regulation, the HSE, the SRA or any Class Representative is entitled to propose a modification to any Proposal for Change for consideration by the Class Representative Committee. The number of votes required for any such modification to be incorporated into the relevant Proposal for Change depends on whether or not the modification is a material modification.*
- I. *Network Rail is to provide the secretariat function for the convening and holding of Class Meetings, election of Class Representatives, the convening and holding of Committee Meetings and the consideration of proposals to change the Network Code. As part of this function, Network Rail will maintain and update, as appropriate, a website containing various information relating to Committee Meetings and Proposals for Change.*
- J. *The Office of Rail Regulation is given certain rights to determine complaints made regarding a failure to comply with any part of the procedure relating to a Proposal for Change.*
- K. *In addition to the democratic process described above, the Office of Rail Regulation is given certain rights to require changes to the Network Code. Any such changes are to be made only after due consultation with all affected parties and with other relevant statutory bodies such as the Strategic Rail Authority.*
- L. *The Access Dispute Resolution Rules may be changed in accordance with the same procedures.*

- (a) 6 or more Class Representatives present, and entitled to vote, at a Committee Meeting shall have voted in favour of that proposal or that proposal shall have been approved in accordance with Condition C3.2.9, provided that the failure of a Class Representative timeously to cast its vote or intimate its abstention shall be treated as a vote in favour of the proposal; and

- (b) where the implementation of the Proposal for Change is likely to have a material and adverse effect on the interests of Network Rail or the members of the Franchised Passenger Class or a significant proportion of them, no relevant group shall have notified the Class Representative Committee of its objection to the proposal within 30 days after the vote referred to in paragraph (a) of this Condition C6.1. In this Condition C6, “relevant group” has the meaning ascribed to it in Condition C6.5.8.

6.5.1 If a relevant group shall have exercised its veto, any Class Representative shall be entitled to give a notice of appeal against it.

6.5.2 A notice of appeal shall:

- (a) be given to the Office of Rail Regulation, the relevant group and every other Class Representative not later than 35 days after the exercise of the veto;
- (b) contain the reasons why the Class Representative in question considers that the veto should not have effect; and
- (c) request the Office of Rail Regulation to determine the matter.

- (b) the entitlement of the relevant group to exercise its veto shall have been established pursuant to the Access Dispute Resolution Rules,

and evidence satisfactory to the Office of Rail Regulation shall have been provided to it to that effect.

6.5.4 Without prejudice to Condition C6.5.5, the relevant group and the other Class Representatives shall use their respective reasonable endeavours to procure that the Office of Rail Regulation is furnished with sufficient information to dispose of the appeal as soon as reasonably practicable after the date of the notice of appeal.

6.5.5 In relation to any such appeal, the Office of Rail Regulation shall, in determining it, have the power:

- (a) to give directions as to the procedure to be followed in the appeal, including in relation to the making of any written and oral submissions and the extent to which any evidence or other submissions made by one party to the appeal shall be disclosed to the other;
- (b) to make any interim order as to the conduct or the positions of the parties pending final determination of the appeal;
- (c) to determine whether the veto shall have effect; and
- (d) to make such orders as it shall think fit in relation to the proportions of the costs of the appeal which shall be borne by any of the parties.

6.5.6 Where any party shall have given a notice of appeal, the Office of Rail Regulation shall:

- (a) be entitled to decline to determine the appeal if, having consulted the parties concerned, it shall determine that the appeal should not proceed, including on the grounds that:
 - (i) the matter in question is not of sufficient importance to the industry;
 - (ii) the reference to it is frivolous or vexatious; or
 - (iii) the conduct of the party making the reference ought properly to preclude its being proceeded with; and

- (b) not be liable in damages or otherwise for any act or omission to act on its part (including negligence) in relation to the appeal.

6.5.7 The determination of the Office of Rail Regulation shall be final and binding on all parties to Access Agreements.

- 7.3.3 A change in respect of which a complaint has been made under Condition C7.3.1 shall not become effective unless and until the Office of Rail Regulation makes a determination under Condition C7.3.2(a).

- 7.3.4 If a complaint is made to the Office of Rail Regulation concerning a failure to comply with any part of the procedure relating to a Proposal for Change after the effective date or dates of any change, such change will remain in full force and effect as though no complaint had been made.

 - (b) materially to increase any protected obligation of the Train Operator or Access Option Holder

provided that no person shall be entitled to challenge or otherwise call into question the effectiveness of any such modification unless he shall have given notice to the Office of Rail Regulation not more than 45 days after the date of the

modification notice stating that the modification in question would, if made, have on him any such effect and such notice shall be accompanied by such relevant information in support of such statement as it shall be reasonable to expect him to be able to provide.

8.3.2 Any challenge or other procedure of the kind referred to in Condition C8.3.1 shall, unless the affected operator and the Office of Rail Regulation shall otherwise agree, be determined by an arbitrator in accordance with the Dispute Resolution Rules within 180 days of the date upon which the affected operator shall have given notice to the Office of Rail Regulation as provided for in that Condition.

Part D - Timetable Change

[applicable to the Summer 2003 Timetable and the Winter 2003 Timetable]

[For procedures applicable to the Summer 2004 Timetable and subsequent timetables refer to the Part D printed on pink paper.]

Explanatory Note

- A. *This Part D printed on white paper sets out the procedures by which the Working Timetable, Rules of the Route and Rules of the Plan may be changed in respect of the timetables that will operate until 23.59 on 22 May 2004. Although changes may be made to the Working Timetable at any time, significant changes in the Passenger Timetable may be made only three times a year, namely at the dates when the summer and the two winter Passenger Timetables come into effect.*
- B. *The development of a robust timetable demands dialogue between Network Rail and Bidders (i.e. Train Operators and others entitled to take part in the process), between the Bidders themselves, and also between Bidders and their customers or customers' representative bodies.*
- C. *Significant timetable change may require initial discussion between Bidders and Network Rail at least two years in advance; provision is therefore made for this in Condition D2.2 headed 'Major Changes to the Timetable'.*
- D. *Network Rail has the role of managing the Working Timetable. It is responsible for accommodating within the timetable the contractual service specification of each Train Operator. Such specification will normally allow a degree of flexibility to both Network Rail and the Train Operator, both in terms of the timing and other characteristics of the services. A passenger Train Operator's Train Slots are fully protected insofar as they are based on Firm Contractual Rights which are not inconsistent with the applicable Rules of the Route and/or applicable Rules of the Plan, provided that the Firm Contractual Rights have been declared no later than the Priority Date. Any such flexibility will operate within the confines of the applicable Rules of the Route and applicable Rules of the Plan which, like the service specification, will constrain Network Rail's ability to flex the timetable.*
- E. *Each year, at the start of the process for development of the summer timetable, Network Rail is obliged to review the applicable Rules of the Route and applicable Rules of the Plan and decide if any amendments should be made in respect of the period of the summer timetable and the ensuing two winter timetables. In addition each year, at the start of the process for development of each winter timetable, Network Rail is obliged to undertake a more limited review of the applicable Rules of the Route and the applicable Rules of the Plan. Bidders are consulted on each review, and there is a right to refer disputes to the Timetabling Committee in accordance with the procedure described in paragraph N below.*

- F. Each year at or before the start of the detailed process for development of the summer timetable there will be preliminary dialogue between Network Rail and Bidders regarding the train services which the Bidder aspires to run in that summer timetable or ensuing two winter timetables. Each Bidder will make a formal declaration of those Contractual Rights (as set out in the Bidder's Access Agreement with Network Rail) that the Bidder will wish to exercise in support of these services and give an indication of the Train Slots which will be sought. This may be expressed in the form of variation to the services currently running. The declaration must be made on or before the Priority Date.
- G. To facilitate the proper processes of dialogue and consultation Network Rail will convene an annual Timetabling Conference just before the Priority Date and invite all Bidders to attend to discuss openly the services which they seek to run in the following summer and ensuing two winter timetables, and to discuss any concerns they may have regarding the preliminary Rules of the Route/Plan (as described in paragraph E above). Following the Timetabling Conference, which will include bi-lateral and multi-lateral dialogue between Industry Parties, Network Rail will lead a joint industry process with Bidders to prepare and issue a Draft Timetable, taking account of the consultation held before, during and after the Timetabling Conference. Network Rail will also issue its final proposals for the Rules of the Route/Plan. All Network Rail's decisions must take account of the Decision Criteria in Access Condition D4.
- H. On receipt of the Draft Timetable, Bidders will prepare their formal Bids for Train Slots; these may confirm, amend, or delete the slots shown in the Draft Timetable. It is not intended that the formal Bidding stage should be used to effect significant service changes; however, to ensure appropriate discipline, it should be noted that rights which have not been declared by the Priority Date are protected only in respect of service quantum. Network Rail in considering the relative claims of conflicting Bids will give precedence to those Bids supported by rights which have been declared by no later than the Priority Date, followed by Bids supported by other rights where the existing quantum of services is not exceeded, and thereafter will consider any other Bids.
- I. In respect of each Timetable Development Period, where Network Rail is required to undertake major engineering work on the Network, Network Rail is required to notify Bidders and Qualified Persons of the dates by which Network Rail will require Train Operators to submit revised bids to enable Network Rail to carry out relevant possessions for the work. Train Operators can thereby consider the options for amendments which become necessary to their services. A process for revising Bids is prescribed to enable a revised train plan to be prepared and published.
- J. Spot Bids may be made during the period of operation of a Working Timetable or during the preceding Supplemental Period. As a general rule, Spot Bids are given priority on a first in time basis; however, Network Rail may exercise its Flexing Right to resolve conflicts between Spot Bids.

- K. *If a Spot Bid is received by Network Rail in relation to a sporting or other public event which, if accepted, would conflict with any Train Slot in the Working Timetable, Network Rail must consult with the Train Operator entitled to the Train Slot with a view to obtaining its consent to Network Rail exercising its Flexing Right to accommodate the Spot Bid. A Train Operator may not unreasonably withhold or delay its consent to a request from Network Rail in such circumstances if the Spot Bid relates to a Train Slot for the carriage of passengers in numbers which are materially greater than are usually carried on trains on the route and on the days and times of day in question. If as a result of accommodating a Spot Bid Network Rail is obliged to make payment to a Train Operator whose Train Slot is flexed by Network Rail, the Train Operator whose Spot Bid was accommodated must reimburse Network Rail the amount of such payment.*
- L. *In its capacity as manager of the Working Timetable, Network Rail is required to make a number of decisions, including whether to accept Bids for new or different timetable slots, how to reconcile competing or conflicting Bids and how to exercise any right it may have to flex a particular Train Operator's Bids (to the extent that the Train Operator's service specification allows it). Network Rail must have due regard to specified Decision Criteria when making decisions regarding proposed changes to the Working Timetable and to any applicable Rules of the Route and applicable Rules of the Plan. These criteria are to be weighed and balanced by Network Rail in the light of the particular circumstances surrounding each decision. A new criterion will enable Network Rail to preserve paths for subsequent Spot Bids where there is reasonable expectation that these will be required and utilised.*
- M. *In the event of a major engineering, maintenance or renewal project requiring a possession or series of possessions of one or more sections of track extending over a period of more than one year or a period containing a Summer Change Date and a Winter One Change Date, Network Rail is obliged to give notice to Train Operators affected by the major project and to consult, and if possible agree, with the relevant Train Operator the method for its implementation. Network Rail is obliged to have due regard to the Decision Criteria in deciding its proposed method of implementation and its decision is subject to appeal in accordance with the procedure referred to in paragraph N below.*
- N. *It is expected that the normal means of resolving timetable disputes between Network Rail and each Train Operator will be by negotiation and agreement. However, to deal with those cases where agreement cannot be reached, provision is made for Train Operators to appeal against any relevant Network Rail decision. An appeal is, in the first instance, made to the Timetabling Sub-Committee of the Access Dispute Resolution Committee (established under the Access Dispute Resolution Rules). If either Network Rail or the Train Operator is dissatisfied with the decision of that Committee, it may appeal to the Office of Rail Regulation. Both appeals are heard on the merits of the matter in dispute and the relevant appeal body may make such orders as it thinks fit in relation to the proportions of the costs of the appeal to be borne by either or both of the parties.*
- O. *This Explanatory Note does not form part of the Network Code.*

I.5.1 Network Rail shall draw up a timetable showing, so far as reasonably practicable, every train movement on the Network, including:

- (a) every service for the carriage of passengers by railway, every service for the carriage of goods by railway, every Ancillary Movement and every other Service;
- (b) the times of arrival and departure of trains at origin and destination, at every intermediate stopping point and at appropriate passing points; and
- (c) all relevant timing allowances,

as they shall have been amended pursuant to Part H and including goods train planning publications and documents detailing platforming arrangements.

- 1.5.2 Movements of trains operated by a Train Operator which are not made in the exercise of access rights shall not be entered in the Working Timetable. In this Condition D1.5.2, "access rights" means permission, under an Access Agreement, to use track for the purpose of or in connection with the operation of railway assets by a Train Operator.
- 1.5.3 Network Rail shall, as soon as possible after the expiry of the Last Appeal Period, give notice to each Bidder of the version of the Working Timetable which is to apply from the relevant Passenger Change Date.
- 1.5.4 Network Rail shall not be obliged to publish details of any Spot Bid which it accepts in any Passenger Timetable.

CONDITION D2 - PRE-BIDDING CONSULTATION PROCESS TO ESTABLISH THE DRAFT TIMETABLE

2.1 *Process for preparation of the Draft Timetable*

2.1.1 *Consultation*

- 2.1.1.0 Bidders should hold appropriate consultation with Passenger Transport Executives, User Representatives and other parties with rights of representation regarding proposals for development of services.
- 2.1.1.1 Network Rail shall consult with Bidders before the Priority Date to establish their aspirations for development of their services in the relevant Timetable Development Period.
- 2.1.1.2 Network Rail shall facilitate and co-ordinate dialogue with all Bidders in order to identify opportunities to develop strategic initiatives and to promote network benefits such as connections and complementary service patterns.
- 2.1.1.3 Network Rail shall use its reasonable endeavours to answer any enquiries made by any Bidder in relation to development of its services.

2.1.2 *Declaration of rights to be exercised*

Bidders shall, on or before the Priority Date, notify Network Rail in respect of the Timetable Development Periods ending on the next following Summer Change Date and the next two following Winter Change Dates:

- (a) those Firm Contractual Rights that they intend to exercise;
- (b) those Firm Contractual Rights that they do not intend to exercise;

- (c) any other rights which they intend to exercise or wish to negotiate; and
- (i) in the case of paragraphs (a) and (c) above, shall give an indication of the Train Slots that will be bid for in exercising those rights; and
- (ii) in the case of paragraph (c) above, shall distinguish between
 - (A) Train Slots for which they would be seeking priority in the Draft Timetable in accordance with Condition D2.1.4(b); and
 - (B) other Train Slots.

2.1.3 *Draft Timetable*

Network Rail after consultation with Bidders will compile a Draft Timetable which is in accordance with Condition D2.1.4 and which:

- (a) in Network Rail's opinion is capable of being brought into operation; and
- (b) takes account of the need to achieve optimal balance between the declared aspirations of each Bidder and the aspirations of Network Rail as expressed in the applicable Rules of the Route and the applicable Rules of the Plan.

2.1.4 *Priorities in compiling the Draft Timetable*

Without prejudice to the operation of Condition D3.4 or D3.6, Network Rail shall, in determining the order of priority for inclusion of Train Slots in the Draft Timetable, accord priority:

- (a) first, to the satisfaction of any Firm Contractual Rights which
 - (i) are declared by the Bidder on or prior to the Priority Date in accordance with Condition D2.1.2(a) and which constitute Firm Contractual Rights on the intended dates of the operation of those Train Slots; or
 - (ii) Network Rail may have taking into account any changes to either or both of the applicable Rules of the Route and the applicable Rules of the Plan under Condition D2.4;
 each of paragraphs (i) and (ii) above having equal priority;
- (b) second, to the satisfaction of any rights or expectations of rights which:
 - (i) are declared by a Bidder on or prior to the Priority Date in accordance with Condition D2.1.2(c); and
 - (ii) correspond to Firm Contractual Rights held by that Bidder at the Priority Date under an Access Agreement in force on that

date but which at the Priority Date are prevented from constituting Firm Contractual Rights only because any or all of the intended dates of operation of those Train Slots fall after the expiry of the Access Agreement, or fall after the expiry of the Firm Contractual Rights from which those Train Slots are derived, and provided that Network Rail reasonably expects that an Access Agreement containing corresponding Firm Contractual Rights will be in force on the intended dates of operation of those Train Slots; and

- (c) thereafter, having due regard to the Decision Criteria, to the satisfaction of any other rights or expectations of rights which:
 - (i) a Bidder:
 - (A) may have under an Access Agreement which is in force at the Priority Date; or
 - (B) may seek pursuant to Condition D1.2 but which are not, at the Priority Date, under an Access Agreement which is in force on that date; or
 - (ii) Network Rail may have under either or both of the applicable Rules of the Route and the applicable Rules of the Plan and which do not fall within Condition D2.1.4(a)(ii);

each of paragraphs (i) and (ii) above having equal priority.

2.2 Major changes to the timetable

- (a) In order to facilitate effective development of the Draft Timetable where Network Rail considers that major timetable changes may be required, for example to accommodate growth in demand for railway services or to deal with Major Projects, Network Rail may decide to invoke a pre-bidding consultation process at an earlier stage than would otherwise be the case with a view to increasing the period for consultation and ensuring that the timetable changes are implemented in a co-ordinated fashion.
- (b) In such circumstances, Network Rail shall notify each Bidder in writing of all relevant information about any such major changes and of the Timetable Development Periods likely to be affected by such changes, and shall give notice to all Bidders of the date it proposes to commence the pre-bidding consultation process in respect of the affected Timetable Development Periods.
- (c) Any Train Operator wishing to propose significant alterations to its services or any Bidder wishing to introduce significant new services shall consult with Network Rail at the earliest opportunity to assist Network Rail in deciding

whether or not to invoke an early start to a pre-bidding consultation process and, if so, in deciding when that process should begin.

2.3 Major Projects

2.3.1 Notice of proposed Major Project

Network Rail shall, if it wishes to implement a Major Project, give notice of its proposal to each Bidder that may be affected by the project together with such particulars of the proposed method of implementation of the project as are reasonably necessary to enable each such Bidder to evaluate the effect of the proposed project on its Services or the operation of its trains. In this Condition D2.3 the expression "method of implementation" means a statement containing a programme of possessions or other restrictions on the use of the track which would be required in order to carry out the proposed project in question.

2.3.2 Consultation on proposed method of implementation

Network Rail shall invite the submission of comments from each Bidder to which it has given notice under Condition D2.3.1 within such period as is reasonable in the circumstances having due regard to the likely effect of the proposed project on those Bidders and shall consult with them concerning the method of implementation for the proposed project.

2.3.3 Notice of proposed method of implementation

Subject to having complied with the foregoing provisions of this Condition D2.3, Network Rail may notify each Bidder to which it gave notice under Condition D2.3.1 of its proposed method of implementation for the proposed project, provided that:

- (a) in deciding such proposed method of implementation, Network Rail shall have had due regard to the Decision Criteria; and
- (b) it shall have taken into account any comments submitted to it pursuant to Condition D2.3.2.

2.3.4 Right of appeal

If any Bidder is dissatisfied as to:

- (a) any matter concerning the operation of the procedure in this Condition D2.3; or
- (b) the method of implementation of the proposed Major Project as notified by Network Rail pursuant to Condition D2.3.3 and, in particular, the application by Network Rail of the Decision Criteria

it may, at any time prior to the date 30 days after the date on which it was notified pursuant to Condition D2.3.3 of the proposed method of implementation, refer the matter to the Industry Committee for determination.

2.3.5 *Applicability of appeal procedure*

Any matter referred to the Industry Committee for determination under Condition D2.3.4 shall be treated as a matter referred to that Committee under Condition G6.1 and the provisions of Conditions G6.2 to G6.7 (inclusive) shall apply to it *mutatis mutandis* save that:

- (a) the reference in Condition G6.5.3(a)(ii) to "Network Change" shall be treated as a reference to "Major Project"; and
- (b) the provisions of Condition G6.5.3(b) shall be treated as a reference to the Office of Rail Regulation having power to specify any matter which Network Rail should have decided in proposing a method of implementation for the relevant Major Project pursuant to Condition D2.3.3.

2.3.6 *Relationship with Part G and Condition D2.4*

The provisions of this Condition D2.3 shall be without prejudice to:

- (a) the provisions of Part G, if the proposed Major Project, once completed, would constitute a Network Change within the meaning of that Part; and
- (b) the requirement to comply with Condition D2.4, to the extent that the implementation of the proposed Major Project in accordance with the method of implementation would require an amendment to the applicable Rules of the Route and/or the applicable Rules of the Plan.

2.4 ***Review of the Rules of Route/Rules of Plan***

2.4.1 *Review by Network Rail*

Network Rail shall, before the Development Commencement Date:

- (a) in respect of any Timetable Development Period ending on a Summer Change Date, review the applicable Rules of the Route and the applicable Rules of the Plan for that Timetable Development Period and the next two following Timetable Development Periods and decide whether any amendment is required to either or both sets of Rules including any amendment for the purposes of the implementation of any Network Change in accordance with Part G of this Network Code or Vehicle Change in accordance with Part F of this Network Code; and
- (b) in respect of any Timetable Development Period ending on a Winter Change Date, review the applicable Rules of the Route and the applicable Rules of the Plan and decide as to whether any Winter Rules Revisions should be made to either or both of them.

In conducting its review in accordance with this Condition D2.4.1 Network Rail shall consult with each Bidder which is likely to be affected by the applicable Rules of the Route or the applicable Rules of the Plan.

2.4.2 *Preliminary Rules of the Route/Plan Proposal*

Network Rail shall, on or before each Development Commencement Date, serve a notice ("Preliminary Rules of the Route/Plan Proposal") on each Bidder including:

- (a) in the case of a Development Commencement Date relating to a Summer Change Date a notice of the changes (if any) to the applicable Rules of the Route and applicable Rules of the Plan for the Timetable Development Period ending on that Summer Change Date and the next two following Timetable Development Periods which, having due regard to the Decision Criteria, it proposes to include in the Rules of the Route/Plan Proposal and, if no changes are proposed, that fact;
- (b) in the case of a Development Commencement Date relating to a Winter Change Date a notice of the changes (if any) to the applicable Rules of the Route and applicable Rules of the Plan for that Timetable Development Period which shall be deemed to be a Winter Rules Revision and which, having due regard to the Decision Criteria, it proposes to include in the Rules of the Route/Plan Proposal and, if no changes are proposed, that fact;

and, in either case, its reasons.

Without prejudice to the operation of any procedure agreed in accordance with Condition D2.4.8, in the case of a Development Commencement Date relating to a Winter Two Change Date, Network Rail shall not propose changes to the applicable Rules of the Route or applicable Rules of the Plan for that Timetable Development Period which would apply on any day other than a Saturday or Sunday.

2.4.3 *Consultation with Bidders*

Each Bidder shall:

- (a) consider the notice served on it by Network Rail in accordance with Condition D2.4.2 and discuss any concerns it may have in respect of the Preliminary Rules of the Route/Plan Proposal with Network Rail;
- (b) on or before the Priority Date give notice to Network Rail of any representations or objections it wishes to make in relation to the Preliminary Rules of the Route/Plan Proposal and any alternative proposals it may have for the applicable Rules of the Route or the applicable Rules of the Plan; and

- (c) in respect of any Winter Rules Revision give notice to Network Rail within 4 weeks after the Development Commencement Date relating to the relevant Winter Change Date of any representations or objections it wishes to make, and any alternative proposals it may have.

2.4.4 *Rules of the Route/Plan Proposal*

- (a) Network Rail shall, following consideration of any representations, objections and alternative proposals made by affected Bidders in accordance with Condition D2.4.3, review the Preliminary Rules of the Route/Plan Proposal and, having due regard to the Decision Criteria, decide which amendments if any should be made to the applicable Rules of the Route and the applicable Rules of the Plan.
- (b) Network Rail shall, no later than eight weeks after the Development Commencement Date, notify each Bidder which is likely to be affected by the applicable Rules of the Route or the applicable Rules of the Plan of the amendments it has decided to make pursuant to Condition D2.4.4(a) or, where no amendments are proposed, that fact.

2.4.5 *Optimisation of the Draft Timetable*

Notwithstanding the provisions of D2.4.3 and D2.4.4 Network Rail shall have the right having consulted with affected Bidders to make further modifications to the applicable Rules of the Route and the applicable Rules of the Plan subject to the application of the Decision Criteria to facilitate optimisation of the Draft Timetable; and Network Rail shall promptly notify the Bidders thus affected.

2.4.6 *Referral to Timetabling Committee*

Following notification of Network Rail's decisions in accordance with Condition D2.4.4(b) or D2.4.5 a Bidder may refer any aspect of those decisions (including any decision of Network Rail not to make an amendment or any decision by Network Rail as to whether or not a revision is a Winter Rules Revision) for determination by the Timetabling Committee under Condition D5, provided that such referral is made within the period specified in Condition D5.1. No such reference shall be made in respect of any aspect of a Major Project which is within and consistent with its method of implementation established pursuant to Condition D2.3 and which has:

- (a) not been referred to the Industry Committee for determination prior to the date referred to in Condition D2.3.4;
- (b) been finally determined by either the Industry Committee or the Office of Rail Regulation pursuant to that Condition; or

- (c) been determined by the Industry Committee and is not the subject of an appeal to the Office of Rail Regulation pursuant to that Condition.

2.4.7 *Implementation pending outcome of determination*

Notwithstanding the provisions of Condition D2.4.6, Network Rail shall be entitled to implement (in particular for the purposes of developing the Working Timetable to be implemented on the next succeeding Passenger Change Date) any aspect of the applicable Rules of the Route or the applicable Rules of the Plan which has been referred for determination pursuant to that Condition, pending the outcome of that determination.

2.4.8 *Development of Rules of the Plan/Rules of the Route amendment procedure and accepted Bid revision procedure*

Network Rail shall consult with each Bidder:

- (a) which is likely to be affected by an amendment to the applicable Rules of the Plan or the applicable Rules of the Route with a view to agreeing a procedure whereby those rules may be amended other than with effect from a Passenger Change Date, as provided for in the foregoing provisions of this Condition D2.4; or
- (b) with a view to agreeing with all affected Bidders a procedure (to the extent necessary in the light of the provisions of Condition D3.8) whereby, and criteria in accordance with which, accepted Bids may be revised to permit Network Rail to take possessions for the purpose of carrying out work included in the applicable Rules of the Route.

If, after a reasonable period of consultation, either of such procedures shall not have been agreed, Network Rail shall decide upon the form of the relevant procedure and send a copy of it to each such Bidder.

2.4.9 *Contents of amendment procedure*

Each of the procedures proposed by Network Rail pursuant to Condition D2.4.8:

- (a) shall provide that no amendment shall be made to the applicable Rules of the Plan or the applicable Rules of the Route or that no revision shall be made to an accepted Bid (as the case may be) unless:
 - (i) Network Rail shall have consulted, to the extent reasonably practicable, with each Bidder likely to be affected by the amendment or revision (as the case may be); and
 - (ii) due regard shall have been had to the Decision Criteria; and

- (b) shall be deemed to have been accepted by each such Bidder unless any such Bidder shall, within 7 days of the relevant procedure being sent to it, have referred any aspect of it to the Timetabling Committee for determination in accordance with Condition D5.

CONDITION D3 - THE BID AND OFFER PROCESS

3.1.1 Network Rail shall include in the Bidding Information relating to a Passenger Change Date:

 - (ii) in respect of a Winter One Change Date,
 - A) those Weekday Train Slots which Network Rail expects to include in the Working Timetable commencing on that Winter One Change Date and those Weekday Train Slots which Network Rail expects to include in the Working Timetable commencing on the next following Winter Two Change Date; and

the applicable Rules of the Route or the applicable Rules of the Plan.

- 3.1.2 Network Rail shall, prior to the Bidding Period, provide the Bidding Information to:
- (a) each Bidder; and
 - (b) each Qualified Person who has (or on whose behalf another person has) first agreed to pay the reasonable costs of Network Rail in providing that information.

3.2 Making of Bids

- 3.2.1 Every Bidder shall have the right to make a Bid in accordance with this Part D to confirm, change, delete or add to the Train Slots shown, in accordance with Condition D3.1.1, in the version of the Draft Timetable comprised within the Bidding Information.
- 3.2.2 A Bid other than a Spot Bid may be made at any time during a Bidding Period and a Spot Bid may be made at any time thereafter during the period of operation of the Working Timetable to which that Bid relates or during the Supplemental Period immediately prior to that period.
- 3.2.3 Subject to the provisions of Condition D3.1.1(b)(ii), all Bids made during a Bidding Period shall relate to the Working Timetable applicable as from the Passenger Change Date occurring at the end of the Timetable Development Period in which that Bidding Period is comprised.
- 3.2.4 Network Rail shall use its reasonable endeavours to answer any enquiries made by any Bidder in relation to a proposed Bid by that Bidder.
- 3.2.5 A Bidder may withdraw a Bid made by it during a Bidding Period at any time during that period.
- 3.2.6 A Bidder shall, whenever it makes a Non-Compliant Bid and at the same time that it makes that Bid, notify Network Rail that it is making a Non-Compliant Bid and give to Network Rail its reasons for doing so.

3.3 Contents of a Bid

A Bidder shall, in making a Bid, indicate, in respect of the Train Slots for which the Bid has been made, the extent of its requirements (if any) as to:

- (a) dates on which the Train Slots are intended to be used;

3.4 Priorities in Considering Bids

Without prejudice to the operation of Condition D3.6, Network Rail shall, in determining the order of priority for accepting Bids, apply the following procedure:

3.4.1 in relation to all Bids other than Spot Bids, by according priority:

- (a) first, to the satisfaction of any Firm Contractual Rights which:
 - (i) a Bidder may have, provided that
 - (A) the rights have been notified to Network Rail on or prior to the Priority Date in accordance with Condition D2.1.2(a); or
 - (B) the rights were exercised in the corresponding summer or winter timetable prior to the timetable that is being prepared but have not been notified to Network Rail on or prior to the Priority Date in accordance with Condition D2.1.2(a). In such case only those rights which relate to quantum shall have force; or
 - (ii) Network Rail may have taking into account any changes to either or both of the applicable Rules of the Route and the applicable Rules of the Plan under Condition D2.4;

each of paragraphs (i) and (ii) above having equal priority;
- (b) second, to the satisfaction of any rights or expectations of rights which fall within the description set out in Condition D2.1.4(b), and which have been notified to Network Rail on or prior to the Priority Date in accordance with Condition D2.1.2(c);
- (c) third, having due regard to the Decision Criteria, to the satisfaction of any other rights or expectations of rights which:
 - (i) a Bidder:

- (A) may have under an Access Agreement which is in force at the time the Bid is received by Network Rail; or
- (B) may seek pursuant to Condition D1.2 but which are not, at the time the Bid is received by Network Rail, under an Access Agreement which is in force at that time;

and in either case have been notified to Network Rail on or prior to the Priority Date in accordance with Condition D2.1.2(c); or

- (ii) Network Rail may have under either or both of the applicable Rules of the Route and the applicable Rules of the Plan and which do not fall within Condition D3.4.1(a)(ii)

each of paragraphs (i) and (ii) above having equal priority; and

- (d) thereafter, having due regard to the Decision Criteria, to the satisfaction of any other rights or expectations of rights which a Bidder:

- (i) may have under an Access Agreement which is in force at the time the Bid is received by Network Rail; or
- (ii) may seek pursuant to Condition D1.2 but which are not, at the time the Bid is received by Network Rail, under an Access Agreement which is in force at that time

but which, in either case, have not been notified to Network Rail on or prior to the Priority Date in accordance with Condition D2.1.2(c).

A Bid which is made in respect of rights, or expectation of rights, falling within Condition D3.4.1(b), D3.4.1(c) or D3.4.1(d) above shall not, solely by reason of such rights or expectations of rights not falling within an Access Agreement at the relevant time, constitute a Non-Compliant Bid.

- 3.4.2 in relation to Spot Bids, by according priority, to the extent that the Spot Bid in question falls to be considered under Condition D3.8, as provided for in that Condition and, in all other cases, in the order in which they are received by Network Rail.

3.5 Timing of acceptance, modification or rejection of Bids

- 3.5.1 Without prejudice to Conditions D2.4 and D3.6, Network Rail shall in relation to any Bid:

- (a) if it is a Bid other than a Spot Bid, give notice to the Bidder of its acceptance, modification or rejection of that Bid by no later than the end of the Decision Period; or

- (b) if it is a Spot Bid, give notice (subject to Conditions D3.5.3, D3.5.4 and D3.8) to the Bidder of its acceptance, modification or rejection of it
 - (i) no later than 3 weeks after receipt of that Spot Bid, or
 - (ii) by 10.00 hours on day A in respect of that part of any Spot Bid received by 10.00 hours on the day preceding day A which, if accepted, would be planned to operate on day C, or
 - (iii) by 15.00 hours on day A in respect of that part of any Spot Bid received by 10.00 hours on day A which, if accepted, would be planned to operate on day C,

whichever of paragraphs (i), (ii) or (iii) is the earliest to occur, where day A, day B and day C are three consecutive days (excluding, in the case of day A, Saturdays and Sundays and, in the case of day B, Sundays) and

- (iv) in respect of a Short Notice Spot Bid, as soon as practicable, provided that, in determining whether to accept, modify or reject a Spot Bid, Network Rail shall:

- (A) not accept such Bid if to do so would give rise to any conflict with any Train Slot in the Working Timetable to which the Bid relates or with the applicable Rules of the Route or applicable Rules of the Plan (as amended, if relevant, in accordance with Condition D2.4); and
- (B) otherwise have due regard to the Decision Criteria and, subject thereto and to the extent that the Spot Bid does not fall to be considered under Condition D3.8, give priority to that Spot Bid which is received first in time;

and any notice of rejection of a Bid shall include a concise explanation therefor.

3.5.2 Network Rail shall, where it fails to notify the Bidder in accordance with Condition D3.5.1 (b), be deemed to have accepted the Bidder's Spot Bid.

3.5.3 If a Spot Bid for a Train Slot which is to be used for the carriage of passengers in connection with a sporting or other public event would, if accepted, conflict with any Train Slot in the Working Timetable, Network Rail shall:

- (a) consult with the Train Operator who is entitled to that Train Slot with a view to obtaining its consent to the exercise by Network Rail of its Flexing Right to accommodate the relevant Spot Bid; and
- (b) if that operator gives its consent, exercise such Flexing Right.

- 3.5.4 A Train Operator which is consulted by Network Rail pursuant to Condition D3.5.3 shall not unreasonably withhold or delay its consent to the exercise by Network Rail of its Flexing Right if the relevant Spot Bid is for a Train Slot to be used for the carriage of passengers in numbers which are materially greater than are usually carried on trains on the Route and on the days and times of day in question.
- 3.5.5 If, as a result of exercising its Flexing Right pursuant to Condition D3.5.3, Network Rail is required to make any payment to a Train Operator under that Train Operator's Access Agreement, the Train Operator whose Spot Bid was accommodated by the exercise of that Flexing Right shall reimburse to Network Rail the amount of that payment.
- 3.5.6 Network Rail shall accept and give effect to a Non-Compliant Bid only in accordance with directions issued or an approval given by the Office of Rail Regulation in the exercise of its powers under section 17, 18 or 22 of the Act.

3.6 Flexing rights

3.6.1 Network Rail may:

- (a) in relation to any Bid, other than a Spot Bid, exercise a Flexing Right at any time prior to the end of the Decision Period immediately following the end of the Bidding Period;
- (b) in relation to any Spot Bid exercise a Flexing Right at any time prior to the acceptance of that Spot Bid;

provided that

- (i) such right may be exercised in relation to the Passenger Timetable only during a Timetable Development Period except by agreement with the Bidder affected or as otherwise permitted by the applicable Rules of the Route or applicable Rules of the Plan;
- (ii) Network Rail shall have first consulted with each person materially affected by the exercise of such Flexing Right;
- (iii) Network Rail shall, in exercising that Flexing Right, have had due regard to the Decision Criteria; and
- (iv) Network Rail shall notify the Bidder of the exercise of its Flexing Right as soon as practicable thereafter.

3.6.2 Network Rail shall exercise a Flexing Right at any time:

- (a) in the circumstances referred to in Condition D3.5.3 or Condition D3.8.6; or

- (b) in order to give effect to a decision of the Timetabling Committee or the Office of Rail Regulation as provided for in Condition D5; or
- (c) if it is necessary to do so in order to comply with any directions issued or approval given by the Office of Rail Regulation in the exercise of its powers under section 17, 18, 22 or 22A of the Act.

3.7 Treatment of decision by Bidder

3.7.1 A Bidder shall:

- (a) in respect of any Bid other than a Spot Bid, within 14 days following the date of receipt by it of notice of:
 - (i) the rejection of that Bid; or
 - (ii) the exercise of a Flexing Right by Network Rail
 notify Network Rail whether it accepts or disputes that decision of Network Rail;
- (b) in respect of any Spot Bid, following notice given by Network Rail of the rejection of that Spot Bid, or the exercise of a Flexing Right by Network Rail notify Network Rail whether it accepts or disputes that decision of Network Rail:
 - (i) no later than 7 days after receipt by the Bidder of that notice, or
 - (ii) by 15.00 hours on day A in respect of any notice received by the Bidder by 10.00 hours on day A regarding a Spot Bid which, if accepted, would be planned to operate on day C, or
 - (iii) by 17.00 hours on day A in respect of any notice received by the Bidder by 15.00 hours on day A regarding a Spot Bid which, if accepted, would be planned to operate on day C
 whichever of paragraph (i), (ii) or (iii) is the earliest to occur, where day A, day B and day C are three consecutive days (excluding, in the case of day A, Saturdays and Sundays and, in the case of day B, Sundays) and
 - (iv) in respect of a Short Notice Spot Bid, as soon as practicable after receipt by the Bidder of that notice.

3.7.2 A Bidder shall, where it fails to notify Network Rail in accordance with Condition D3.7.1, be deemed to have accepted the decision of Network Rail and shall not, in respect of that decision, be entitled to make a reference to the Timetabling Committee or the Office of Rail Regulation pursuant to Condition D5.1 or D5.2.

3.7.3 Once a Bidder has accepted, or is deemed to have accepted, a decision of Network Rail under Condition D3.7.1 or D3.7.2 or Network Rail has

accepted a Bidder's Bid in accordance with Condition D3.5, both the Bidder and Network Rail shall, subject to Condition D3.6.2 and Condition D3.7.5, be bound by that decision.

- 3.7.4 Upon acceptance or deemed acceptance of a Bid pursuant to Condition D3.7.3 or a final determination pursuant to Condition D5, Network Rail shall enter the Train Slots in question in the Working Timetable.
- 3.7.5 An accepted Bid may be varied by Network Rail:
- (a) in accordance with the procedures provided for in Condition D2.4.8(b), D3.1.1(b)(iii) and D3.8;
 - (b) by agreement between Network Rail and the Bidder (provided that every other affected party has also agreed in writing); or
 - (c) in order to give effect to a decision of the Timetabling Committee or the Office of Rail Regulation as provided for in Condition D5.

3.8 Supplemental Timetable Revision Process

- 3.8.1 Network Rail shall, in respect of any Timetable Development Period and at least 26 weeks prior to the Passenger Change Date to which this period relates (and having previously consulted with each affected Bidder), provide to all those persons referred to in Condition D3.1.2, its specific proposals as to the Revision Notification Dates and Revision Bid Dates applicable to the period of operation of the Working Timetable commencing on that Passenger Change Date.
- 3.8.2 Network Rail shall, where it wishes to amend any Timetable Week Slot that is the subject of an accepted Bid in order to enable it to take possessions for the purpose of carrying out work included in the Rules of the Route applicable to that Timetable Week Slot, notify, prior to the relevant Revision Notification Date, the relevant Bidder of the requirement to amend the Timetable Week Slot in question.
- 3.8.3 The Train Operator shall, following receipt of notification from Network Rail under Condition D3.8.2 in respect of a particular Timetable Week Slot, submit:
- (a) a Revised Bid in respect of that Timetable Week Slot; and
 - (b) a Revised Bid in respect of any other Timetable Week Slot, if any, which is materially affected by the revision of the Timetable Week Slot to which the notification under Condition D3.8.2 relates;
- in each case following the applicable Revision Notification Date and prior to the applicable Revision Bid Date.
- 3.8.4 Network Rail shall, in respect of any Revised Bid submitted to it by the Train Operator under Condition D3.8.3 or in respect of any other Spot Bid submitted to it by the Train Operator, in each case, in respect of a relevant

Timetable Week which has been submitted to Network Rail prior to the Revised Bid Date, give notice to the Train Operator of its acceptance, modification or rejection of that Revised Bid or other Spot Bid (as the case may be) by no later than the Revision Offer Date.

3.8.5 Network Rail shall, where it is in receipt of a Revised Bid submitted to it in accordance with the provisions of this Condition D3.8, in determining whether to accept, modify or reject a Revised Bid which it considers to have been properly submitted to it in accordance with Condition D3.8.3:

- (a) not accept such Revised Bid if to do so would give rise to any conflict with any Train Slot in the Working Timetable to which the Revised Bid relates or with the applicable Rules of the Route or applicable Rules of the Plan (as amended, if relevant, in accordance with Condition D2.4); and
- (b) otherwise have due regard to the Decision Criteria

and any notice of modification or rejection of a Revised Bid shall include a concise explanation therefor.

3.8.6 Network Rail shall be entitled to exercise its Flexing Right to amend any Timetable Week Slot in relation to which no Revised Bid has been submitted to Network Rail by the Train Operator in accordance with the provisions of this Condition D3.8 in order to enable Network Rail to take possessions for the purpose of carrying out work included in the Rules of the Route applicable to that Timetable Week Slot and the Train Operator shall not, in respect of that decision, be entitled to make a reference to the Timetabling Committee or the Office of Rail Regulation pursuant to Condition D5.1 or D5.2.

3.8.7 The Train Operator shall, following the date of receipt by it of notice of the modification or rejection by Network Rail of any Revised Bid made by it, notify Network Rail whether it accepts or disputes that decision of Network Rail, in each case prior to the relevant Revision Response Date, and the provisions of Conditions D3.7.2 to D3.7.4 (inclusive) shall apply, *mutatis mutandis*.

3.8.8 Where, in respect of any Timetable Week or any day therein, Network Rail receives any Spot Bid at least 8 weeks prior to the commencement of the relevant Timetable Week, Network Rail shall not be obliged to notify to the Train Operator its decision as to whether that Spot Bid is accepted, modified or rejected until the date falling 5 weeks prior to the commencement of the relevant Timetable Week.

3.8.9 The Train Operator shall, following the date of receipt by it of notice of the modification or rejection of any Spot Bid referred to in Condition D3.8.8, notify Network Rail whether it accepts or disputes that decision of Network

Rail no later than 7 days following the date of that decision and the provisions of Conditions D3.7.2 to D3.7.4 (inclusive) shall apply, *mutatis mutandis*.

3.8.10 Network Rail shall provide details of the revisions to the Working Timetable that will be operative in the relevant Timetable Week to all persons referred to in Condition D3.1.2 at least 3 weeks prior to the commencement of that Timetable Week.

CONDITION D4 - DECISION CRITERIA

The Decision Criteria consist of the necessity or desirability of the following (none of which necessarily has priority over any other):

- (a) sharing the capacity, and securing the development, of the Network for the carriage of passengers and goods in the most efficient and economical manner in the interests of all users of railway services having regard, in particular, to safety, the effect on the environment of the provision of railway services and the proper maintenance, improvement and enlargement of the Network;
- (b) enabling a Bidder to comply with any contract to which it is party (including any contracts with their customers and, in the case of a Bidder who is a franchisee or franchise operator, including the franchise agreement to which it is a party), in each case to the extent that Network Rail is aware or has been informed of such contracts;
- (c) maintaining and improving the levels of service reliability;
- (d) maintaining, renewing and carrying out other necessary work on or in relation to the Network;
- (e) maintaining and improving connections between railway passenger services;
- (f) avoiding material deterioration of the service patterns of operators of trains (namely the train departure and arrival frequencies, stopping patterns, intervals between departures and journey times) which those operators possess at the time of the application of these criteria;
- (g) ensuring that, where the demand of passengers to travel between two points is evenly spread over a given period, the overall pattern of rail services should be similarly spread over that period;
- (h) ensuring that where practicable appropriate provision is made for reservation of capacity to meet the needs of Bidders whose businesses require short term flexibility where there is a reasonable likelihood that this capacity will be utilised during the currency of the timetable in question, or where Train Slots may require amendment following a European Timetable Change Date;
- (i) enabling operators of trains to utilise their railway assets efficiently and avoiding having to increase the numbers of railway assets which the operators require to maintain their service patterns;

- (j) facilitating new commercial opportunities, including promoting competition in final markets and ensuring reasonable access to the Network by new operators of trains;
- (k) avoiding wherever practicable frequent timetable changes, in particular for railway passenger services; and
- (l) taking into account the commercial interests of Network Rail and existing and potential operators of trains in a manner compatible with the foregoing.

In its consideration of paragraph (d) of this Condition D4, Network Rail shall not be entitled to determine that its possessions of any part of the Network shall be as contemplated by any relevant maintenance contract by reason only of the terms and conditions of that contract. In this paragraph, "relevant maintenance contract" is a contract which Network Rail shall have entered into, or shall intend to enter into, with any person for the maintenance, renewal or the carrying out of any other work on or in relation to the Network.

CONDITION D5 -TIMETABLE APPEAL PROCEDURE

5.1 *Right of appeal to the Timetabling Committee or Industry Committee*

5.1.1 *Grounds for making an appeal*

5.1.2 *Timescales for making an appeal*

- (a) A reference to the Timetabling Committee under Condition D5.1.1 shall, save as shown in paragraphs (b) and (c) below, be made within 7 days of receipt of the relevant decision from Network Rail. If Christmas Day occurs within such period of 7 days then the period shall be lengthened to 14 days.
- (b) A reference to the Timetabling Committee in respect of a decision by Network Rail in response to a Bid, other than a Spot Bid, submitted during the Bidding Period shall be made within 14 days of receipt of the relevant decision.

- (c) A reference to the Industry Committee in accordance with Condition D2.3.4 shall be made within the timescale prescribed in Condition D2.3.4.

5.2 *Right of appeal to the Office of Rail Regulation*

If Network Rail or any Bidder is dissatisfied with any decision of the Timetabling Committee in relation to any matter referred to it under Condition D5.1, that person may, within 7 days of receipt of the Timetabling Committee's decision and reasons (pursuant to paragraph A5.11.6 of the Access Dispute Resolution Rules), refer the matter to the Office of Rail Regulation for determination.

If Christmas Day occurs within such period of 7 days then the period shall be lengthened to 14 days.

5.3 *Information to be sent in relation to the appeal*

Without prejudice to Condition D5.5, where Network Rail or a Bidder refers a matter to the Timetabling Committee or the Office of Rail Regulation pursuant to Condition D5.1 or D5.2, the person making the reference shall:

- 5.3.1 include with it a statement in reasonable detail as to the matter in dispute and his reasons for making the reference; and
- 5.3.2 at the same time, send a copy of the reference and the statement referred to in Condition D5.3.1 to the other party or parties to the dispute.

5.4 *Obligation to provide evidence*

Without prejudice to Condition D5.5, the Access Parties shall:

- (a) in the case of a reference to the Timetabling Committee pursuant to Condition D5.1 as soon as reasonably practicable after the relevant date of reference, and in any event no later than the last day of the Last Appeal Period, use their respective reasonable endeavours to procure that the Timetabling Committee is furnished with sufficient evidence so as properly to consider any matters referred to it under Condition D5.1; and
- (b) in the case of a reference to the Office of Rail Regulation pursuant to Condition D5.2 as soon as reasonably practicable after the relevant date of reference use their respective reasonable endeavours to procure that the Office of Rail Regulation is furnished with sufficient evidence so as properly to consider any matters referred to it under Condition D5.2.

5.5 Power of appeal bodies

In relation to a reference to it made pursuant to Condition D5.1 or D5.2, the Timetabling Committee or the Office of Rail Regulation (as the case may be) (each an “appeal body”) shall, in determining the matter in question, have the power:

- 5.5.1 to give directions as to the procedure to be followed in the appeal, including in relation to the making of any written and oral submissions and the extent to which any evidence or other submissions made by one party to the appeal shall be disclosed to the other; except to the extent specified in sub-paragraphs (a) and (b) of paragraph A5.3.5 of the Access Dispute Resolution Rules, directions given by the Timetabling Committee pursuant to this Condition D5.5.1 shall not be inconsistent with paragraphs A3.6.2, A5.1, A5.2 or A5.4 to A5.11 inclusive of those Rules;
- 5.5.2 in the case of the Office of Rail Regulation, to make any interim order as to the conduct or the positions of the parties pending final determination of the matter by the Office of Rail Regulation;
- 5.5.3 in determining the matter in question:
 - (a) in the case of either appeal body:
 - (i) to direct Network Rail to comply with directions which specify the result to be achieved but not the means by which it shall be achieved (“general directions”); or
 - (ii) to direct the parties to accept any submissions made by Network Rail as to any Train Slots; and
 - (b) in the case of the Office of Rail Regulation, to specify the Train Slots and other matters which Network Rail should have determined in its decision made pursuant to Condition D3,

any such directions under paragraph (a) or (b) being, in the case of the Timetabling Committee, only by final determination, but in the case of the Office of Rail Regulation, either by interim order or final determination;
- 5.5.4 having given general directions, on the application of Network Rail within 7 days (or 14 days if Christmas Day falls within such period of 7 days) of the determination of the matter in question (or such longer period as the appeal body shall allow), to make such further orders as it shall consider appropriate in order to provide the parties with guidance as to the interpretation and application of such general directions; and
- 5.5.5 to make such orders as it shall think fit in relation to the proportions of the costs of the proceedings in question (assessed in such manner as the relevant appeal body shall determine) which shall be borne by either or both of the parties.

5.6 *Obligation to comply with determination of appeal*

The Access Parties shall, subject to and pending any reference to the Office of Rail Regulation, comply with any determination of the Timetabling Committee in relation to any dispute referred to it under this Condition D5, and shall comply with any interim order or final determination of the Office of Rail Regulation in relation to any such dispute referred to it.

5.7 *Effective date of Office of Rail Regulation's decision*

If, in relation to any particular dispute, any interim order or final determination of the Office of Rail Regulation is made during any period of operation of the Working Timetable to which the dispute relates, the Office of Rail Regulation may, if it is of the opinion that in the circumstances of the case the balance of material convenience to all affected persons (taking into account any material prejudice that may thereby result) favours such a course, stipulate that such order or determination shall take effect at a specified time during such period of operation.

5.8 *Additional powers and immunities of the Office of Rail Regulation*

Where any Access Party shall have made a reference to the Office of Rail Regulation under Condition D5.2, the Office of Rail Regulation shall:

- 5.8.1 be entitled to decline to act on the reference if, having consulted the parties concerned and considered the determination of the Timetabling Committee, it shall determine that the reference should not proceed, including on the grounds that:
 - (a) the matter in question is not of sufficient importance to the industry;
 - (b) the reference to it is frivolous or vexatious; or
 - (c) the conduct of the party making the reference ought properly to preclude its being proceeded with; and
- 5.8.2 not be liable in damages or otherwise for any act or omission to act on its part (including negligence) in relation to the reference.

5.9 *Liability of Network Rail*

Network Rail shall not be liable for the consequences of any decision made by it which is implemented in a Working Timetable where, as a result of a reference under this Condition D5 in respect of that decision, that decision is subsequently overturned unless that decision is unreasonable or has been made in bad faith, in which case the making of that decision shall be deemed to have been a breach of Network Rail's obligations under this Part D.

Part D - Timetable Change

[applicable to preparation of the timetable commencing on 23 May 2004 and of subsequent timetables]

Explanatory Note

- A. *Part D sets out the procedures by which the Working Timetable, Rules of the Route and Rules of the Plan may be changed. Although changes may be made to the Working Timetable at any time, significant changes in the Passenger Timetable may be made only twice a year, namely at the dates referred to as the Principal Change Date (in December) and the Subsidiary Change Date (in June).*
- B. *The development of a robust timetable demands dialogue between Network Rail and Bidders (i.e. Train Operators and others entitled to take part in the process), between the Bidders themselves, and also between Bidders and their customers or customers' representative bodies.*
- C. *Significant timetable change may require initial discussion between Bidders and Network Rail at least two years in advance; provision is therefore made for this in Condition D1.5 headed 'Major Changes to the Timetable'.*
- D. *Network Rail has the role of managing the Working Timetable. It is responsible for accommodating within the timetable the contractual service specification of each Train Operator. Such specification will normally allow a degree of flexibility to both Network Rail and the Train Operator, both in terms of the timing and other characteristics of the services. A Train Operator's Train Slots are protected insofar as they are based on Firm Rights which are not inconsistent with the applicable Rules of the Route and/or applicable Rules of the Plan, provided that the Firm Rights have been asserted no later than the Priority Date. Any such flexibility will operate within the confines of the applicable Rules of the Route and applicable Rules of the Plan which, like the service specification, will constrain Network Rail's ability to flex the timetable.*
- E. *Each year, at the start of the timetable development process, Network Rail is obliged to review the applicable Rules of the Route and applicable Rules of the Plan and decide if any amendments should be made in respect of the period of the annual timetable commencing on the next Principal Change Date. In addition each year, at the start of the process for development of the timetable changes applying from the Subsidiary Change Date, Network Rail is obliged to undertake a more limited review of the applicable Rules of the Route and the applicable Rules of the Plan. Bidders are consulted on each review, and there is a right to refer disputes to the Timetabling Committee in accordance with the procedure described in paragraph N below.*

- F. Each year at or before the start of the timetable development process there will be preliminary dialogue between Network Rail and Bidders regarding the train services which the Bidder aspires to run in that timetable year. Each Bidder will notify Network Rail of those contractual rights (as set out in the Bidder's Access Agreement with Network Rail) that the Bidder will wish to exercise in support of these services and give an indication of the Train Slots which will be sought. This may be expressed in the form of variation to the services currently running. The notification must be made on or before the Priority Date.
- G. To facilitate the proper processes of dialogue and consultation Network Rail will convene an annual Timetabling Conference just before the Priority Date and invite all Bidders to attend to discuss openly the services which they seek to run in the following timetable year. Following the Timetabling Conference, which will include bi-lateral and multi-lateral dialogue between Industry Parties, Network Rail will lead a joint industry process with Bidders to prepare and issue a Draft Timetable, taking account of the consultation held before, during and after the Timetabling Conference. Network Rail's decisions must take account of the Decision Criteria, where applicable, in Access Condition D6.
- H. Following issue of the Draft Timetable, Network Rail will continue to work with Bidders to further refine the timetable plan to correct any errors and omissions. It is not intended that significant service changes should be introduced at this stage but changes may be introduced to the extent that it is reasonably practicable to do so in the available time. Network Rail will make a formal offer of its proposed First Working Timetable and Bidders will have a right of appeal against Network Rail's decisions reflected in that Timetable.
- I. In respect of each Timetable Development Period, where Network Rail is required to undertake major engineering work on the Network, Network Rail is required to notify Bidders and Qualified Persons of the dates by which Network Rail will require Train Operators to submit Revised Bids to enable Network Rail to carry out relevant possessions for the work. Train Operators can thereby consider the options for amendments which become necessary to their services.
- J. Spot Bids may be made during the period of operation of a Working Timetable or during the preceding Supplemental Period. As a general rule, Spot Bids are given priority on a first in time basis; however, Network Rail may exercise its Flexing Right to resolve conflicts between Spot Bids.
- K. If a Spot Bid is received by Network Rail in relation to a sporting or other public event which, if accepted, would conflict with any Train Slot in the Working Timetable, Network Rail must consult with the Train Operator entitled to the Train Slot with a view to obtaining its consent to Network Rail exercising its Flexing Right to accommodate the Spot Bid. A Train Operator may not unreasonably withhold or delay its consent to a request from Network Rail in such circumstances if the Spot Bid relates to a Train Slot for the carriage of passengers in numbers which are materially greater than are usually carried on trains on the route and on the days and times of day in question. If as a result of accommodating a Spot Bid Network Rail is obliged to make payment to a Train Operator

whose Train Slot is flexed by Network Rail, the Train Operator whose Spot Bid was accommodated must reimburse Network Rail the amount of such payment.

- L. In its capacity as manager of the Working Timetable, Network Rail is required to make a number of decisions, including whether to accept Bids for new or different timetable slots, how to reconcile competing or conflicting Bids and how to exercise any right it may have to flex a particular Train Operator's Bids (to the extent that the Train Operator's service specification allows it). Network Rail must have due regard to specified Decision Criteria when making decisions regarding proposed changes to the Working Timetable and to any applicable Rules of the Route and applicable Rules of the Plan. These criteria are to be weighed and balanced by Network Rail in the light of the particular circumstances surrounding each decision. There is a criterion that will enable Network Rail to preserve paths for subsequent Spot Bids where there is reasonable expectation that these will be required and utilised.*
- M. In the event of a major engineering, maintenance or renewal project requiring a possession or series of possessions of one or more sections of track extending over a period of more than one year or a period containing a Principal Change Date and a Subsidiary Change Date, Network Rail is obliged to give notice to Train Operators affected by the major project and to consult, and if possible agree, with the relevant Train Operator the method for its implementation. Network Rail is obliged to have due regard to the Decision Criteria in deciding its proposed method of implementation and its decision is subject to appeal in accordance with the procedure referred to in paragraph N below.*
- N. It is expected that the normal means of resolving timetable disputes between Network Rail and each Bidder will be by negotiation and agreement. However, to deal with those cases where agreement cannot be reached, provision is made for Bidders to appeal against any relevant Network Rail decision. An appeal is, in the first instance, made to the Timetabling Sub-Committee of the Access Dispute Resolution Committee (established under the Access Dispute Resolution Rules). If either Network Rail or the Bidder is dissatisfied with the decision of that Committee, it may appeal to the Office of Rail Regulation. Both appeals are heard on the merits of the matter in dispute and the relevant appeal body may make such orders as it thinks fit in relation to the proportions of the costs of the appeal to be borne by either or both of the parties.*
- O. This Explanatory Note does not form part of the Network Code.*

- 4.5.2 Network Rail shall, where it fails to notify the Bidder in accordance with Condition D4.5.1, be deemed to have accepted the Bidder's Spot Bid.
- 4.5.3 If a Spot Bid for a Train Slot which is to be used for the carriage of passengers in connection with a sporting or other public event would, if accepted, conflict with any Train Slot already scheduled in the Working Timetable, Network Rail shall:
- (a) consult with the Train Operator who is entitled to that Train Slot with a view to obtaining its consent to the exercise by Network Rail of its Flexing Right to accommodate the relevant Spot Bid; and
 - (b) if that operator gives its consent, exercise such Flexing Right.
- 4.5.4 A Train Operator which is consulted by Network Rail pursuant to Condition D4.5.3 shall not unreasonably withhold or delay its consent to the exercise by Network Rail of its Flexing Right if the relevant Spot Bid is for a Train Slot to be used for the carriage of passengers in numbers which are materially greater than are usually carried on trains on the relevant part of the Network and on the days and times of day in question.
- 4.5.5 If, as a result of exercising its Flexing Right pursuant to Condition D4.5.3, Network Rail is required to make any payment to a Train Operator under that Train Operator's Access Agreement, the Train Operator whose Spot Bid was accommodated by the exercise of that Flexing Right shall reimburse to Network Rail the amount of that payment.

4.6 Decisions in relation to Spot Bids

- 4.6.1 A Bidder shall, in respect of any Spot Bid, following notice given by Network Rail of the rejection of that Spot Bid, or the exercise of a Flexing Right by Network Rail, notify Network Rail if it disputes that decision of Network Rail:
- (a) no later than 7 days after receipt by the Bidder of that notice; or
 - (b) by 15.00 hours on day A in respect of any notice received by the Bidder by 10.00 hours on day A regarding a Spot Bid which, if accepted, would be planned to operate on day C; or
 - (c) by 17.00 hours on day A in respect of any notice received by the Bidder by 15.00 hours on day A regarding a Spot Bid which, if accepted, would be planned to operate on day C,
- whichever of paragraph (a), (b) or (c) is the earliest to occur, where day A, day B and day C are three consecutive days (excluding, in the case of day A, Saturdays and Sundays and, in the case of day B, Sundays), and
- (d) in respect of a Short Notice Spot Bid, as soon as practicable after receipt by the Bidder of that notice.

- 4.6.2 A Bidder shall, where it fails to notify Network Rail in accordance with Condition D4.6.1, be deemed to have accepted the decision of Network Rail and shall not, in respect of that decision, be entitled to make a reference to the Timetabling Committee or the Office of Rail Regulation pursuant to Condition D5.
- 4.6.3 Upon acceptance or deemed acceptance of a Spot Bid or upon a final determination pursuant to Condition D5, Network Rail shall enter the Train Slots in question in the Working Timetable.

4.7 Variation of scheduled Train Slot

- 4.7.1 Once a Bidder is deemed to have accepted a decision of Network Rail under Condition D3.2.8 or D4.6.2 or Network Rail has accepted a Bidder's Bid in accordance with Condition D3.2.7 or D4.5, both the Bidder and Network Rail shall, subject to Conditions D3.4.2, D4.4.2 and D4.7.2, be bound by that decision and to Part J of this Code.
- 4.7.2 A Train Slot scheduled in the Working Timetable may be varied by Network Rail:
- (a) in accordance with the procedures provided for in Condition D2.1.8, D4.5.3 or D4.8; or
 - (b) by agreement between Network Rail and the Bidder (provided that every other affected party has also agreed in writing); or
 - (c) in order to give effect to a decision of the Timetabling Committee or the Office of Rail Regulation as provided for in Condition D5.

4.8 Supplemental Timetable Revision Process

- 4.8.1 Network Rail shall, at least 26 weeks prior to any Passenger Change Date (and having previously consulted with each affected Bidder), provide to all those persons referred to in Condition D3.2.7, its specific proposals as to the Revision Notification Dates, Revision Bid Dates and Revision Offer Dates applicable to the Timetable Period commencing on that Passenger Change Date.
- 4.8.2 Network Rail shall, where it wishes to amend any Timetable Week Slot scheduled in the relevant Working Timetable in order to enable it to take possessions for the purpose of carrying out work included in the Rules of the Route applicable to that Timetable Week Slot, notify, prior to the relevant Revision Notification Date, the relevant Bidder of the requirement to amend the Timetable Week Slot in question.

4.8.3 The Train Operator shall, following receipt of notification from Network Rail under Condition D4.8.2 in respect of a particular Timetable Week Slot, submit:

- (a) a Revised Bid in respect of that Timetable Week Slot; and
- (b) a Revised Bid in respect of any other Timetable Week Slot, if any, which is materially affected by the revision of the Timetable Week Slot to which that notification relates;

in each case following the applicable Revision Notification Date and prior to the applicable Revision Bid Date.

4.8.4 Network Rail shall, in respect of any Revised Bid or in respect of any other Spot Bid which has been submitted to it prior to the Revision Bid Date in respect of a relevant Timetable Week, give notice to the Train Operator of its acceptance, modification or rejection of that Revised Bid or Spot Bid (as the case may be) by no later than the Revision Offer Date.

4.8.5 Network Rail shall, where it is in receipt of a Revised Bid which it considers to have been properly submitted to it in accordance with the provisions of this Condition D4.8, in determining whether to accept, modify or reject that Revised Bid:

- (a) not accept such Revised Bid if to do so would give rise to any conflict with any Train Slot already scheduled in the Working Timetable or with the applicable Rules of the Route or applicable Rules of the Plan; and
- (b) otherwise have due regard to the Decision Criteria,

and any notice of modification or rejection of a Revised Bid shall include a concise explanation therefor.

4.8.6 Network Rail shall be entitled to exercise its Flexing Right to amend any Timetable Week Slot in relation to which no Revised Bid has been submitted to Network Rail by a Train Operator in accordance with the provisions of this Condition D4.8 in order to enable Network Rail to take possessions for the purpose of carrying out work included in the Rules of the Route applicable to that Timetable Week Slot and that Train Operator shall not, in respect of that decision, be entitled to make a reference to the Timetabling Committee or the Office of Rail Regulation pursuant to Condition D5.

4.8.7 The Train Operator shall, following the date of receipt by it of notice of the modification or rejection by Network Rail of any Revised Bid made by it, notify Network Rail whether it accepts or disputes that decision of Network Rail, in each case prior to the relevant Revision Response Date, and the provisions of Conditions D4.6.2, D4.6.3 and D4.7.1 shall apply, *mutatis mutandis*.

CONDITION D5 -TIMETABLE APPEAL PROCEDURE

5.1 Right of appeal to relevant ADRC tribunal

5.1.1 Grounds for making an appeal

Without prejudice to Conditions D4.6.2, D4.7.1 and D4.8.6, if any Bidder is dissatisfied with any decision of Network Rail made under this Part D, other than in the circumstances prescribed in Condition D2.2.4, including:

- (a) the application by Network Rail of the Decision Criteria;
- (b) the acceptance or rejection by Network Rail of any Bid;
- (c) the exercise by Network Rail of a Flexing Right; and
- (d) any decision of Network Rail which may be referred to the relevant ADRC tribunal under Condition D2.1.6 or D2.1.9,

it may refer the matter to the relevant ADRC tribunal for determination.

5.1.2 Timescales for making an appeal to the relevant ADRC tribunal

- (a) A reference to the relevant ADRC tribunal under Condition D5.1.1 shall, save as shown in paragraph (b) below, be made within 7 working days of receipt of the relevant decision from Network Rail.
- (b) A reference to the relevant ADRC tribunal in respect of a decision by Network Rail regarding Train Slots notified to Train Operators in accordance with Condition D3.2.7 shall be made within 14 days of receipt of the relevant decision.

5.2 Right of appeal to the Office of Rail Regulation

If Network Rail or any Bidder is dissatisfied with any decision of the relevant ADRC tribunal in relation to any matter referred to it under Condition D5.1, that person may, within 7 working days of receipt of the relevant ADRC tribunal's written reasoned determination, refer the matter to the Office of Rail Regulation for determination under Part M.

5.3 Power of dispute bodies

In relation to a reference to it made pursuant to Condition D5.1 or D5.2, any dispute panel or the Office of Rail Regulation (as the case may be) (each a “dispute body”) shall, in determining the matter in question, have the power:

5.3.1 in determining the matter in question:

- (a) to direct Network Rail to comply with directions which specify the result to be achieved but not the means by which it shall be achieved (“general directions”);
- (b) to direct the parties to accept any submissions made by Network Rail as to any Train Slots; and/or
- (c) to specify the Train Slots and other matters which Network Rail should have determined in its decision made pursuant to this Part D,

provided that a dispute panel shall only take any action under paragraph (c) above in exceptional circumstances;

5.3.2 having given general directions, on the application of Network Rail within 7 days (or 14 days if Christmas Day falls within such period of 7 days) of the determination of the matter in question (or such longer period as the dispute body shall allow), to make such further orders as it shall consider appropriate in order to provide the parties with guidance as to the interpretation and application of such general directions.

CONDITION D6 - DECISION CRITERIA

The Decision Criteria consist of the necessity or desirability of the following (none of which necessarily has priority over any other):

- (a) sharing the capacity, and securing the development, of the Network for the carriage of passengers and goods in the most efficient and economical manner in the interests of all users of railway services having regard, in particular, to safety, the effect on the environment of the provision of railway services and the proper maintenance, improvement and enlargement of the Network;
- (b) enabling a Bidder to comply with any contract to which it is party (including any contracts with their customers and, in the case of a Bidder who is a franchisee or franchise operator, including the franchise agreement to which it is a party), in each case to the extent that Network Rail is aware or has been informed of such contracts;
- (c) maintaining and improving the levels of service reliability;
- (d) maintaining, renewing and carrying out other necessary work on or in relation to the Network;
- (e) maintaining and improving connections between railway passenger services;

- (f) avoiding material deterioration of the service patterns of operators of trains (namely the train departure and arrival frequencies, stopping patterns, intervals between departures and journey times) which those operators possess at the time of the application of these criteria;
- (g) ensuring that, where the demand of passengers to travel between two points is evenly spread over a given period, the overall pattern of rail services should be similarly spread over that period;
- (h) ensuring that where practicable appropriate provision is made for reservation of capacity to meet the needs of Bidders whose businesses require short term flexibility where there is a reasonable likelihood that this capacity will be utilised during the currency of the timetable in question;
- (i) enabling operators of trains to utilise their railway assets efficiently and avoiding having to increase the numbers of railway assets which the operators require to maintain their service patterns;
- (j) facilitating new commercial opportunities, including promoting competition in final markets and ensuring reasonable access to the Network by new operators of trains;
- (k) avoiding wherever practicable frequent timetable changes, in particular for railway passenger services;
- (l) encouraging the efficient use of capacity by considering a Bidder's previous level of utilisation of Train Slots;
- (m) avoiding, unless absolutely necessary, changes to provisional International Paths following issue of the applicable Rules of the Plan; and
- (n) taking into account the commercial interests of Network Rail and existing and potential operators of trains in a manner compatible with the foregoing.

In its consideration of paragraph (d) of this Condition D6, Network Rail shall not be entitled to determine that its possessions of any part of the Network shall be as contemplated by any relevant maintenance contract by reason only of the terms and conditions of that contract. In this paragraph, "relevant maintenance contract" is a contract which Network Rail shall have entered into, or shall intend to enter into, with any person for the maintenance, renewal or the carrying out of any other work on or in relation to the Network.

Part E - Environmental Protection

Explanatory Note

- A. *Part E is concerned with environmental protection. Train Operators are required to notify Network Rail of any materials they propose to transport which would, by virtue of their nature or the quantity transported, be likely to give rise to Environmental Damage if they were to escape, and are required to provide Network Rail with a copy of any relevant authority for their carriage (such as a licence or certificate of registration).*
- B. *Network Rail and Train Operators must promptly notify each other of any circumstances which are reasonably foreseeable as likely to give rise to Environmental Damage.*
- C. *Where Network Rail becomes aware or is given a direction by a competent authority that as a direct or indirect result of the activities of a Train Operator, Environmental Damage has occurred or is likely to occur and action is required to prevent, mitigate or remedy that damage, it must make an assessment on the best information available to it at that time as to which of Network Rail and the Train Operators using that part of the Network is or are the most appropriate persons to take such action.*
- D. *In making its assessment, Network Rail is obliged to have due regard to certain specified criteria. Network Rail is further obliged to give notice to affected Train Operators within specified time limits of its decision and the reasons therefor. If an affected Train Operator disagrees with Network Rail's assessment, it may appeal to the Industry Committee and then refer the matter to arbitration.*
- E. *If a Train Operator fails to take any action required of it to prevent, remedy or mitigate Environmental Damage within a reasonable time or to the reasonable satisfaction of Network Rail or otherwise in cases of urgency, provisions exist for Network Rail to take the necessary action.*
- F. *Subject to Network Rail having complied with conditions F4 and G5 (respectively Vehicle and Network Change imposed by competent authorities) and to having given to all affected Train Operators as much notice as shall be reasonably practicable, Network Rail has the right to restrict track access on a temporary basis where necessary to deal with Environmental Damage but must use its reasonable endeavours to minimise those restrictions.*
- G. *This Explanatory Note does not form part of the Network Code.*

In this Part E, unless the context otherwise requires:

"Environmental Condition"	<p>means:</p> <ul style="list-style-type: none">(a) any Environmental Damage; or(b) any event, circumstance, condition, operation or activity which it is reasonably foreseeable is likely to result in Environmental Damage <p>which (in either case) in Network Rail's reasonable opinion could result in Network Rail incurring any material liability or being subject to the Direction of any Competent Authority;</p>
"Environmental Damage"	<p>means any material injury or damage to persons, living organisms or property (including offence to man's senses) or any pollution or impairment of the environment resulting from the discharge, emission, escape or migration of any substance, energy, noise or vibration;</p>

"relevant steps"	<p>in relation to a Train Operator, means the steps of the kind referred to in Condition E2.1.3(e)(i).</p>

CONDITION E1 - ENVIRONMENTAL INFORMATION REQUIREMENTS

1.1 *Train Operator's licence compliance*

Each Train Operator shall provide Network Rail with a copy of its written environmental protection policy and operational objectives and management arrangements giving effect to that policy, as submitted to the Office of Rail Regulation pursuant to its licence authorising it to be the operator of trains.

1.2 *Network Rail's licence compliance*

Network Rail shall provide each Train Operator with a copy of its written environmental protection policy and operational objectives and management arrangements giving effect to that policy, as submitted to the Office of Rail Regulation pursuant to its network licence.

1.3 *Information as to materials to be transported*

Each Train Operator shall from time to time, and within a reasonable time of being requested to do so by Network Rail, provide Network Rail with:

- (a) information as to any materials it proposes to transport on the Network which would by virtue of their nature or the quantity transported be likely to give rise to Environmental Damage if those materials were to be discharged or emitted or to escape or migrate;
- (b) in relation to such materials as are referred to in sub-paragraph (a) above, a copy of any licence, authorisation, consent or certificate of registration required for their carriage.

1.4 *General information - Train Operator*

Each Train Operator shall promptly notify Network Rail (and where such notification is given orally shall promptly confirm such notification in writing) of any circumstances of which the Train Operator is aware and which it is reasonably foreseeable are likely to give rise to Environmental Damage as a result of or affecting the activities of the Train Operator. Each Train Operator shall at all times exercise due diligence to inform itself of any circumstances which would require such notification.

1.5 *General information - Network Rail*

Network Rail shall promptly notify a Train Operator (and where such notification is given orally shall promptly confirm such notification in writing) of any circumstances of which Network Rail is aware and which it is reasonably foreseeable are likely to give rise to Environmental Damage which may affect the Train Operator. Network Rail shall at all times exercise due diligence to inform itself of any circumstances which would require such notification.

CONDITION E2 - REMEDIAL ACTION

2.1 *Assessment as to appropriate persons to take relevant steps*

2.1.1 *Network Rail's assessment*

Where:

- (a) Network Rail becomes aware that, as a direct or indirect result of the activities of a Train Operator, an Environmental Condition exists or has occurred and Network Rail reasonably considers that action is required to prevent, mitigate or remedy that Environmental Condition; or
- (b) Network Rail is given a Direction by a Competent Authority that some action is required to prevent, mitigate or remedy an Environmental Condition resulting directly or indirectly from the activities of a Train Operator

Network Rail shall make an assessment, on the best information available to it at the relevant time, as to which of Network Rail and the Train Operators with permission to use the relevant part of the Network is or are the persons who would be the most appropriate to take any relevant steps, and, if more than one is appropriate, in what proportions.

2.1.2 *Relevant criteria*

In making an assessment under Condition E2.1.1, Network Rail shall have due regard:

- (a) to the likelihood that the person in question may be liable (other than pursuant to this Part E) to make any payment or to take or omit to take any action in relation to the Environmental Condition or Direction in question, whether under any Access Agreement to which it is a party or otherwise;
- (b) in relation to the steps to be taken and the objectives of those steps, to the efficiency and economy with which the steps may be taken, and the effectiveness of those steps, if that person takes those steps, irrespective of the matters referred to in paragraph (a) above; and
- (c) all other relevant circumstances of the case.

2.1.3 *Notice of Network Rail's assessment*

Within 60 days of making its assessment, Network Rail shall give notice to each affected Train Operator of:

- (a) the Environmental Condition or Direction of Competent Authority in question;
- (b) the assessment;
- (c) its reasons for reaching the assessment;
- (d) the availability for inspection by the Train Operator of such information as Network Rail shall have used in making the assessment; and
- (e) the steps which Network Rail reasonably considers:
 - (i) will be necessary to prevent, mitigate or remedy the Environmental Condition or the events or circumstances giving rise to the Direction of the Competent Authority in question, or to comply with the Direction in question; and
 - (ii) which should be taken by the Train Operator in question.

2.1.4 *Compliance with Train Operator's request for information*

Network Rail shall comply with any reasonable request of an affected Train Operator for additional information in relation to the relevant liability or Network Rail's assessment, within a reasonable time of the request.

2.1.5 *Disagreement with Network Rail's assessment*

If an affected Train Operator shall be dissatisfied with Network Rail's assessment or with any other statement or information provided by Network Rail pursuant to Condition E2.1.3, it shall be entitled to refer the matter for resolution to the Industry Committee and thereafter to arbitration pursuant to the Access Dispute Resolution Rules. It shall lose that entitlement if it fails to make the reference within 120 days of the later of:

- (a) the date of its receipt of Network Rail's assessment; and
- (b) the date upon which it receives any further information to which it is entitled pursuant to this Condition E2.1.

2.2 Requirement to take relevant steps

2.2.1 Obligation

Subject to Conditions E2.1.5, E2.7 and E2.8, the Train Operator shall:

- (a) take the steps of which Network Rail gives it notice pursuant to Condition E2.1.3(e), provided Network Rail shall have given it a reasonable opportunity to do so; and
- (b) bear the costs of taking those steps.

2.2.2 Network Rail assistance and supervision

In cases where the Train Operator reasonably requires access to any part of the Network in order to take any relevant steps, Network Rail shall provide the Train Operator with such assistance and co-operation as shall be reasonable in that respect.

2.3 Network Rail's right to take relevant steps

If:

- (a) the Train Operator fails to take any relevant step within a reasonable time or to the reasonable satisfaction of Network Rail; or
- (b) in Network Rail's reasonable opinion, either:
 - (i) it is necessary to take any relevant step urgently; or
 - (ii) it is not reasonably practicable in the circumstances for the Train Operator to take any relevant step,

Network Rail shall be entitled to take the step in question and to be reimbursed by the Train Operator for a fair proportion of the reasonable costs of doing so.

Network Rail shall give notice to the Train Operator in question of any step taken pursuant to this Condition E2.3.

2.4 Liability of Network Rail

Where Network Rail takes any steps in accordance with Condition E2.3, it shall not be liable to the Train Operator for any direct physical damage which is caused as a result of the taking of such steps except to the extent that Network Rail, or any person acting on behalf of or on the instructions of Network Rail, has been negligent or has failed to perform any obligation.

2.5 Access to land

Each Train Operator shall use all reasonable endeavours to procure that Network Rail shall be given such right of access to any land upon which plant, equipment, rolling stock or machinery of the Train Operator is located as may be reasonably necessary to enable Network Rail to take any relevant steps.

2.6 General right to restrict access to Network

- 2.6.1 Subject to having complied with Conditions F4 and G5 and to having given to all affected Train Operators as much notice as shall be reasonably practicable, Network Rail shall have the right to restrict permission to use the Network to the extent and for such period as is reasonably necessary to prevent, mitigate or remedy an Environmental Condition or to comply with a relevant Direction of a Competent Authority in respect of an Environmental Condition.
- 2.6.2 Where permission to use the Network is restricted pursuant to Condition E2.6.1, Network Rail shall use all reasonable endeavours to keep the extent and duration of such a restriction to a minimum and shall keep all affected Train Operators reasonably and regularly informed of the steps being taken by Network Rail to remove the restriction.

2.7 Payments to be made on without prejudice basis

Payments by a Train Operator under this Condition E2 shall be made without prejudice to the right of the Train Operator's right to recover the whole or any part of the amounts in question from Network Rail or any other person, whether under an Access Agreement or in any other way.

2.8 Action taken will not prejudice later claim

No action taken by a Train Operator in compliance with its obligations under this Condition E2 shall prejudice the right of the Train Operator at a later date to claim that any other person has the relevant liability.

Part F - Vehicle Change

Explanatory Note

- A. *Part F provides a procedure by which changes may be made to railway vehicles, the use of which is permitted in the access contract, from the specifications in the access contract (“Vehicle Change”). Vehicle Change includes any alteration to the physical characteristics of the vehicles, any increase in the length of any trains beyond that specified in the relevant access contract and any introduction of different vehicles on to the relevant routes which, in any case, is likely materially to affect the maintenance of the Network or the operation of trains on the Network.*
- B. *The general principle is that before any Vehicle Change can be implemented:*
- (i) it must be formally proposed under Part F; and*
 - (ii) it must be accepted by Network Rail and those Train Operators whom it will affect; or*
 - (iii) to the extent that there is any dispute as to whether the change should be implemented, or the terms on which it should be implemented, such dispute must be resolved (whether by agreement or in accordance with the Access Dispute Resolution Rules) in favour of the change being implemented.*
- C. *Condition F1 imposes a general obligation on Network Rail to facilitate Vehicle Change, which includes a number of specific obligations to provide information to Train Operators and to publish documents generated under Part F on its website. Network Rail is also obliged to publish model terms and conditions which it is prepared to use in connection with the implementation of Vehicle Change proposals.*
- D. *Where a Train Operator wishes to make a Vehicle Change proposal, the procedure is as follows:*
- (i) The Train Operator (the “Sponsor”) gives a notice of proposal to Network Rail. Condition F2.2 prescribes the contents of such a notice: for example, proposals as to how Network Rail or other affected Train Operators should be compensated for the costs, losses and expenses which they may incur as a result of the implementation of the proposed change. Network Rail must then evaluate the proposal and be permitted to consult with Train Operators and other relevant persons about the effects of the proposal.*
 - (ii) Within 30 days, Network Rail gives a notice setting out the Sponsor’s proposal and adding further information on its own account (in particular, where it disagrees with elements of the Sponsor’s proposal). The notice includes a deadline for Network Rail to respond to the Sponsor’s notice of proposal, which may be adjusted in the light of consultation.*

- (iii) *If the deadline for responses is 90 or more days after the date of the notice of proposal, the Sponsor may require Network Rail to submit preliminary responses or estimates of the costs, losses and expenses which it may incur as a result of the implementation of the proposed change.*
- (iv) *Network Rail is entitled to be reimbursed 75% of its reasonable costs of assessing a Vehicle Change proposal by the Sponsor. The Sponsor may require Network Rail to provide it with estimates of such assessment costs, or to cease incurring such costs.*
- (v) *In responding formally to a Vehicle Change proposal, Network Rail must state whether it, or another Train Operator, objects to the proposal in principle or on the grounds that it contains insufficient information, or whether it, or another operator of railway assets, objects on compensation grounds. The benefits of the change to Network Rail or the Train Operator and its chances of recouping its costs or losses from third parties (including passengers) are to be taken into account when determining the amount of any compensation.*
- (vi) *The Sponsor must then either reach agreement with Network Rail and other Train Operators to the extent that they raise objections to the proposal, refer the matters in dispute to the relevant ADRC tribunal or abandon the proposal. Implementation will then depend on whether the ADRC proceedings and any subsequent appeal to the Office of Rail Regulation result in a determination that the change should be implemented on terms which are acceptable to the Sponsor. If there are no objections to the proposal the Sponsor is entitled to implement it.*
- (vii) *After a Vehicle Change has become established, the arrangements for its implementation may be varied according to the terms of any contractual variation procedure which forms part of the terms and conditions specified in the notice of proposal and/or is subsequently agreed as a result of the consultation and response process.*

E. *This Explanatory Note does not form part of the Network Code.*

DEFINITIONS

In this Part F, unless the context otherwise requires:

- “authorised variation” means a variation to an established Vehicle Change, where:
- (a) the terms and conditions on which the Vehicle Change in question was established contain a variation procedure;
 - (b) that variation procedure has been followed in accordance with its terms; and
 - (c) the result of the operation of that variation procedure is that the established Vehicle Change has been varied;

- (a) the size and complexity of the change; and
 - (b) the likely impact of the change on the operation of the Network and Train Operators,
- and which shall not be:
- (A) less than 60 days; or
 - (B) unless Network Rail and the Sponsor agree otherwise in writing, more than 90 days,

“variation procedure” means, in relation to an established Vehicle Change, a procedure which:

- (a) forms part of the terms and conditions on which the Vehicle Change is established; and
- (b) provides for the established Vehicle Change itself to be varied after it has been first established; and

“Vehicle Change” means, in respect of a Train Operator, any change to the Specified Equipment including by way of:

- (a) alteration to the physical characteristics of Specified Equipment;
- (b) any increase in the length of any trains beyond that specified in the Access Agreement to which it is party;
or
- (c) the inclusion in Specified Equipment of any railway vehicle which is not so included

which, in any case, is likely materially to affect the maintenance or operation of the Network or operation of trains on the Network.

CONDITION F1 - FACILITATION OF VEHICLE CHANGE

1.1 *Obligation to facilitate Vehicle Change*

Network Rail shall take all reasonable steps to facilitate the development, establishment and implementation of any proposal for Vehicle Change.

1.2 *Limit of obligation*

Condition F1.1 does not oblige Network Rail to do anything which it is not required to do under its network licence.

1.3 *Facilitation*

The obligation of Network Rail under Condition F1.1 includes:

- (a) the provision to a Train Operator of such information concerning the condition, capacity and/or capability of the Network as:
 - (i) Network Rail is required at any time to hold or have appropriate access to under its network licence; and
 - (ii) that Train Operator may reasonably request in connection with the development of a proposal for Vehicle Change (whether the proposal is made by that Train Operator or another person);

- (iv) every authorised variation;
- (v) standard forms, produced after consultation with every other Access Party and approved by the Office of Rail Regulation, for the notification under this Part F of proposals for Vehicle Change, and of responses to such proposals, which:
 - (A) may include different forms for different types of Vehicle Change having regard to the size, complexity and value of the change in question; and
 - (B) shall be used by any person notifying or responding to a proposal for Vehicle Change under this Part F, unless it is not reasonably practicable for it to do so; and
- (vi) model terms, produced after consultation with every other Access Party and approved by the Office of Rail Regulation, by way of supplement to the terms of this Part F and on which Network Rail is prepared to contract for or in connection with the implementation of a Vehicle Change which:
 - (A) shall provide appropriate and proportionate forms of contract for different types of Vehicle Change having regard to the size, complexity and value of the change;
 - (B) may include variation procedures; and
 - (C) shall, so far as reasonably practicable, form the basis of any terms and conditions relating to the implementation of a Vehicle Change which are proposed by a Train Operator or Network Rail under Condition F2;
- (c) the provision of a preliminary response to a Train Operator's proposal for Vehicle Change under Condition F2.4;
- (d) such consultation before a notice of a proposal for a Vehicle Change is submitted by a Train Operator as may reasonably be expected to enable that operator to assess the feasibility and affordability of the proposed change; and
- (e) such consultation with the persons specified in Condition F2.1(b) before a notice of a proposal for a Vehicle Change is submitted by a Train Operator as:

- (i) Network Rail considers reasonably necessary; and
- (ii) any such person may reasonably request,

to enable the proposal to be developed in an efficient and economical manner.

1.4 Compliance with Railway Group Standards

The obligations to comply with the requirements of this Part F are without prejudice to the obligations of the Access Parties to comply with Railway Group Standards.

CONDITION F2 - INITIATION OF VEHICLE CHANGE PROCEDURE BY A TRAIN OPERATOR

2.1 Submission of proposal

If a Train Operator wishes to make a Vehicle Change, it shall:

- (a) submit to Network Rail a proposal for such change;
 - (b) notify:
 - (i) each Train Operator that may be affected by the implementation of the proposed Vehicle Change;
 - (ii) the Strategic Rail Authority;
 - (iii) the HSE;
 - (iv) the Office of Rail Regulation; and
 - (v) each Passenger Transport Executive that may be affected, Transport for London if it may be affected, and the Scottish Executive if it may be affected, by the implementation of the proposed Vehicle Change,
- that it has submitted a proposal for Vehicle Change to Network Rail; and
- (c) permit Network Rail to consult with the persons specified in Condition F2.1(b) to the extent provided for under Condition F2.3 subject to such requirements as to confidentiality as are reasonable.

2.2 Content of notice of proposal by a Train Operator

A notice of proposal for Vehicle Change given by a Train Operator under Condition F2.1 shall:

- (a) state:
 - (i) the reasons why it is proposed to make the change;
 - (ii) the nature of the change, including:
 - (A) any material change which the Sponsor proposes to make to the physical characteristics of any vehicle which is already included within the Specified Equipment; and
 - (B) a description of any vehicle which is not already included within the Specified Equipment, but which the Sponsor proposes to include within the Specified Equipment;
 - (iii) in the case of any vehicle of the kind referred to in Condition F 2.2(a)(ii)(A):
 - (A) whether it is proposed to operate it on any part of the Network on which it does not already operate; and
 - (B) whether it is proposed to operate it at higher speeds or tonnages than it has previously been operated over any part of the Network on which such a vehicle already operates;
 - (iv) in the case of any vehicle of the kind referred to in Condition F2.2(a)(ii)(B), over what parts of the Network, and at what speeds, it proposes to operate such vehicle;
 - (v) the proposed timetable for implementing the change;
 - (vi) the Sponsor's proposals (if any) for the division of the costs of carrying out the change, including any proposals in relation to the calculation or payment of compensation to Train Operators or Network Rail in respect of the change; and

- (vii) any additional terms and conditions which the Sponsor proposes should apply to the change, including any proposed variation procedure; and
- (b) be prepared to a standard, and in such detail, as is reasonably necessary, having due regard to the level of knowledge and expertise reasonably to be expected of the persons specified in Condition F2.1(b), to enable:
 - (i) Network Rail; and
 - (ii) any person specified in Condition F2.1(b),

to assess the likely effect of the proposed change on its business and its performance of any obligations or the exercise of any discretions which it has in relation to railway services.

2.3 Evaluation of proposal and consultation

2.3.1 If Network Rail receives a proposal for Vehicle Change under Condition F2.1, it shall:

- (a) evaluate and discuss that proposal with the Sponsor for such period as is reasonable having due regard to the likely impact of the proposed Vehicle Change on either or both of Network Rail and other operators of trains;
- (b) consult with each person specified in Condition F2.1(b) likely to be materially affected by the proposed change to the extent reasonably necessary so as properly to inform them of the change and to enable them to assess the consequences for them of the change; and
- (c) for the purpose of the consultation under Condition F2.3.1(b), within 30 days of the date on which the Sponsor's notice under Condition F2.1 was given, give a notice to the persons specified in Condition F2.1(b), with a copy to the Sponsor, inviting them to submit comments by a specified date, which shall not be earlier than 10, or later than 7 days before the relevant response date, stating:
 - (i) the relevant response date and the obligations of Train Operators and Network Rail under Conditions F2 and F3;
 - (ii) the reasons given by the Sponsor under Condition F2.2(a)(i) for proposing to make the change;

- (iii) the matters required to be stated by the Sponsor in its notice under Condition F2.2(a)(ii), (iii) and (iv);
- (iv) Network Rail's estimate of the likely impact of the change on the operation and performance of the Network; and
- (v) Network Rail's own proposals as to:
 - (A) the arrangements for, and any proposed terms applicable to, the implementation of the change;
 - (B) the arrangements for determining and paying any compensation in respect of the change;
 - (C) the timetable for implementation of the change;
 - (D) the division of the costs of carrying out the change; and
 - (E) the additional terms and conditions (if any) which should apply to the change, including any variation procedure.

2.3.2 In preparing a notice under Condition F2.3.1, Network Rail:

- (a) shall comply with the standard specified in Condition F2.2(b); and
- (b) in respect of each of the matters specified in Condition F2.3.1(c)(v):
 - (i) shall have regard to any relevant statements and proposals contained in the Sponsor's notice under Condition F2.1;
 - (ii) shall give reasons for any differences between those statements and proposals and its own proposals under Condition F2.3.1(c)(v); and
 - (iii) may annex to its notice any proposal contained in the Sponsor's notice under Condition F2.1 with which it agrees, stating its agreement, and, where appropriate, that it has no proposals of its own on the matter concerned.

2.4 Preliminary response and estimate

2.4.1 Except in the circumstances and to the extent specified in Condition F2.4.2, Network Rail shall, when consulted by the Sponsor, take all reasonable steps to comply with any request of the Sponsor to provide the Sponsor, within a reasonable period of time, and at no cost to the Sponsor, with:

- (a) a preliminary estimate of those costs, losses and expenses referred to in Condition F3.2 which may be incurred by Network Rail; or
- (b) a preliminary written response in respect of a proposed Vehicle Change, which shall:
 - (i) be binding on Network Rail, unless Network Rail indicates otherwise; and
 - (ii) if it is negative, include reasons.

2.4.2 Network Rail shall not be obliged to comply with a request from the Sponsor under Condition F2.4.1:

- (a) unless:
 - (i) the relevant response date is 90 or more days after the date on which Network Rail's notice under Condition F2.3.1(c) was given; and
 - (ii) the request is made within 7 days of the Sponsor receiving Network Rail's notice under Condition F2.3.1(c); or
- (b) to the extent that Network Rail is unable to comply with such a request, having regard to the information reasonably available to it.

2.4.3 After consultation with the Sponsor and under Condition F2.3.1(b) Network Rail may notify a later relevant response date to the Sponsor and the persons to whom it gave its notice under Condition F2.3.1(c).

2.5 Reimbursement of costs

Subject to Conditions F2.4 and F3, Network Rail shall be entitled to reimbursement by a Train Operator of 75% of all costs incurred by Network Rail in assessing any Vehicle Change proposed by that operator. Those costs shall be the minimum reasonably necessary for Network Rail to carry out that assessment.

2.6 *Provision of estimate of costs by Network Rail*

Network Rail shall, upon request from a Train Operator from time to time, provide the Train Operator with written estimates of the costs of assessing a proposal for Vehicle Change submitted by that operator (as referred to in Condition F2.5) including estimated costings of the work to be carried out and shall:

- (a) be entitled to require reasonable assurances of payment in respect of any material work to be carried out for the purposes of that evaluation before commencing such work; and
- (b) upon request from the Sponsor from time to time, provide the Sponsor or its agents with such information as may be reasonably necessary to enable the Sponsor to assess the reasonableness of any estimate.

2.7 *Accuracy of estimates*

Network Rail shall ensure that any estimates given by it are, so far as reasonably practicable, accurate on the basis of the information reasonably available to it.

2.8 *Obligation to incur no further costs*

Network Rail shall, if requested by a Train Operator at any time, incur no further costs (except any costs that cannot reasonably be avoided) in respect of any proposal for Vehicle Change made by that Train Operator.

2.9 *Relationship with Network Change*

If the implementation of a proposed Vehicle Change also requires the implementation of a Network Change, the Sponsor shall follow the procedures and satisfy the requirements of both this Part F and Part G and the requirement for a Network Change shall not preclude the right of the Sponsor to follow the procedure in this Part F for a Vehicle Change or vice versa.

CONDITION F3 - RESPONSE BY NETWORK RAIL TO VEHICLE CHANGE PROPOSAL

3.1 *Obligation to give notice of response*

Network Rail shall give notice to the Sponsor if:

- (a) it considers that one or more of the following conditions has been satisfied:
 - (i) the implementation of the change would necessarily result in Network Rail breaching any access contract (other than an access contract to which the Train Operator which has made the relevant proposal is a party);
 - (ii) the Sponsor has failed in a material respect to comply with its obligations under Condition F2.2 provided that Network Rail shall first have given the Sponsor a reasonable opportunity to remedy that failure; or
 - (iii) the implementation of that change would result in a material adverse effect on the maintenance or operation of the Network or operation of trains on the Network, which in any such case cannot adequately be compensated under this Condition F3;
- (b) any Train Operator shall have given notice to Network Rail that it considers that any of the conditions specified in paragraph (a) above has been satisfied;
- (c) it considers that it should be entitled to compensation from the Sponsor for the consequences of the implementation of the change; or
- (d) any other operator of railway assets shall have given notice to Network Rail that it considers that it should be entitled to compensation from the Sponsor for the consequences of the implementation of the change.

Any notice of the kind referred to in paragraphs (a) or (b) above shall include the reasons for the opinion in question. Any notice of the kind mentioned in paragraphs (c) or (d) above shall include a statement of the amount of compensation required and the means by which the compensation should be paid, including any security or other assurances of payment which the Sponsor should provide. Any such statement shall contain such detail as is reasonable to enable the Sponsor to assess the merits of the statement.

3.2 Amount of compensation

Subject to Condition F3.3, the amount of the compensation referred to in Condition F3.1 shall be an amount equal to the amount of the costs, direct losses and expenses (including loss of revenue) which can reasonably be expected to be incurred by Network Rail or the operator in question as a consequence of the implementation of the proposed change other than any such costs, losses or expenses which are attributable to the Sponsor improving its ability to compete with other operators of railway assets.

3.3 Benefits to be taken into account

There shall be taken into account in determining the amount of compensation referred to in Condition F3.1:

- (a) the benefit (if any) to be obtained or likely in the future to be obtained by Network Rail or any other operator of trains as a result of the proposed Vehicle Change; and
- (b) the ability or likely future ability of Network Rail or any other operator of trains to recoup any costs, losses and expenses from third parties including passengers and customers.

3.4 Rights in relation to implementation of Vehicle Change

If:

- (a) Network Rail shall have given notice to the Sponsor pursuant to Condition F3.1(a) or (b) and the Sponsor shall have failed to refer the matter for determination pursuant to the Access Dispute Resolution Rules; or
- (b) Network Rail shall have given notice to the Sponsor pursuant to Condition F3.1(c) or (d) and the Sponsor shall have failed either:
 - (i) to comply with the terms upon which the compensation in question shall be payable, having been given a reasonable opportunity to remedy that failure; or
 - (ii) to refer the matter for determination pursuant to the Access Dispute Resolution Rules within 14 days of the date of the notice in question,

the proposed Vehicle Change shall not be implemented. In any other case and subject to the other provisions of the Network Code, the Sponsor shall be entitled to implement it.

CONDITION F4 - CHANGES IMPOSED BY COMPETENT AUTHORITIES

Where a Train Operator is required (other than at the request or instigation of the Train Operator) to implement a Vehicle Change as a result of any Change of Law or any Direction of any Competent Authority other than the Office of Rail Regulation:

- (a) each Access Party shall, except to the extent that the relevant Change of Law or Direction otherwise requires, comply with Conditions F2.1, F2.2 and F2.3 (other than Conditions F2.2(a)(vi) and F2.3.1(c)(v)(B) and (D)) in respect of that Vehicle Change;
- (b) Network Rail shall make such alterations (if any) to the Network as are reasonably necessary to accommodate that Vehicle Change and each Access Party shall, except to the extent that the relevant Change of Law or Direction otherwise requires, comply with Conditions G1.1 and G1.2 (other than Condition G1.2(c)(iv)); and
- (c) each Access Party shall bear its own costs and losses arising out of the implementation of the Vehicle Change or the consequences thereof.

CONDITION F5 - APPEAL PROCEDURE

5.1 *Right of appeal to relevant ADRC tribunal*

If any Access Party is dissatisfied as to:

- (a) any matter concerning the operation of the procedure set out in this Part F;
- (b) the contents of any notice given by Network Rail under Condition F3.1 (and, in particular, the amount of any compensation referred to in that Condition);
or
- (c) any estimate referred to in Condition F2.6,

it may refer the matter to the relevant ADRC tribunal for determination under Part A of the Access Dispute Resolution Rules.

5.2 *Right of appeal to the Office of Rail Regulation or the Court*

If any Access Party is dissatisfied with any decision of the relevant ADRC tribunal in relation to any matter referred to it under Condition F5.1, that Access Party may refer the matter to the Office of Rail Regulation for determination under Part M.

5.3 *Implementation of Vehicle Change*

5.3.1 The referral of any matter under Condition F5.1 or F5.2 concerning:

- (a) the amount of costs to be reimbursed under Condition F2.5, but not
- (b) the method by which such costs are to be calculated,

shall not entitle a person other than the Sponsor to delay the implementation of the Vehicle Change pending the determination of the matter without the consent of the Sponsor.

5.3.2 The Sponsor may implement a Vehicle Change which, but for this Condition F5.3.2, would not be an established Vehicle Change if:

- (a) the amount of any compensation referred to in Condition F3.2 has not been agreed;
- (b) the method by which such compensation is to be calculated has been agreed or resolved under this Condition F5;
- (c) each Access Party which was given a notice of the proposal for Vehicle Change, having been given a reasonable opportunity to object to such implementation, has not objected to it; and
- (d) there is no other dispute (whether under this Condition F5 or otherwise) as regards the proposed change between the Sponsor and any other Access Party.

Part G - Network Change

Explanatory Note

- A. *Part G is concerned with the procedures which Network Rail and Train Operators must go through when certain types of change to the Network (defined as “Network Change”) occur or are proposed.*
- B. *The definition of “Network Change” is broad, and much of it is expressed in non-exhaustive terms (i.e. after some general words of definition, Network Change is said to “include” certain specific things by way of illustration or example, but that does not necessarily mean that other things are excluded). The definition should always be considered carefully and in its entirety before any decision is made as to whether a particular change falls within the scope of Part G (see generally the Rail Regulator’s judgment in Network Rail Infrastructure Limited v Great North Eastern Railway Limited [2003] RR 2). The following specific points should also be noted:*
- (i) only changes which are likely to have a material effect on the operation of the Network or of trains operated on the Network are Network Changes;*
 - (ii) Network Changes can either be physical (e.g. changes to the condition or layout of track) or operational (e.g. the introduction of a speed restriction on a section of track, or a change to the way Network Rail maintains track), but operational changes are only Network Changes if they last, or are likely to last, for more than six months;*
 - (iii) the definition of Network Change includes changes which will generally be seen in a positive light (e.g. enlargement of capacity on a stretch of track) as well as changes which are more likely to be characterised as having a negative impact (e.g. reduction of capacity or deterioration in condition);*
 - (iv) closures of lines which are covered by the statutory procedures under sections 39 and 40 of the Act (i.e. lines which are, or have in the preceding five years been, used for passenger services) and changes to the Systems Code are not Network Changes; and*
 - (v) closures of lines which are not covered by the statutory procedures under sections 39 and 40 of the Act (i.e. lines which are, or have in the preceding five years, been used only for freight services) are Network Changes.*
- C. *From a procedural point of view, Part G divides Network Changes into two categories: those proposed by Network Rail and those proposed by a Train Operator. All Network Changes, whether proposed by Network Rail or by a Train Operator, are implemented by Network Rail.*
- D. *The general principle is that before any Network Change can be implemented:*
- (i) it must be formally proposed under Part G; and*

- (ii) *it must be accepted by those Train Operators whom it will affect (and, where the change is proposed by a Train Operator, by Network Rail); or*
 - (iii) *to the extent that there is any dispute as to whether the change should be implemented, or the terms on which it should be implemented, such dispute must be resolved (whether by agreement or in accordance with the Access Dispute Resolution Rules) in favour of the change being implemented.*
- E. *However, it is recognised that:*
 - (i) *safety considerations will sometimes dictate that Network Rail must make a Network Change very quickly, without recourse to all the procedures under Part G. In such cases, Network Rail's obligations under Part G may be subordinated to the interests of safety to a greater or lesser extent, depending on the circumstances (see further Condition G1.10); and*
 - (ii) *where a Network Change is required to be made as a result of a Change of Law or a Direction of a Competent Authority, most of the normal obligations of Network Rail and Train Operators under Part G do not apply (see further Condition G5).*
- F. *Condition GA imposes a general obligation on Network Rail to facilitate Network Change, which includes a number of specific obligations to provide information to Train Operators and to publish documents generated under Part G on its website. Network Rail is also obliged to publish model terms and conditions which it is prepared to use in connection with the implementation of Network Change proposals.*
- G. *Conditions G1 and G2 are concerned with proposals made by Network Rail. Conditions G3 and G4 are concerned with proposals made by Train Operators. Condition G5 is concerned with mandatory changes (resulting from a Change of Law or a Direction of a Competent Authority). Condition G6 is concerned with dispute resolution in connection with Network Change proposals.*
- H. *Where Network Rail wishes to make a Network Change proposal, the procedure is as follows:*
 - (i) *Network Rail gives a notice of proposal and sets a deadline for Train Operators to respond to it. Conditions G1.1 and G1.2 specify the persons to whom the notice must be given and what it must contain. In particular, the notice is to contain proposals both as to how the implementation of the change should be funded (whether by Network Rail or by Train Operators) and as to how affected Train Operators should be compensated for the costs, losses and expenses which they may incur as a result of the implementation of the proposed change.*
 - (ii) *Network Rail consults with operators of railway assets likely to be affected by the proposed change and may adjust the deadline for responses in the light of consultation.*

- (iii) *If the deadline for responses is 60 or more days after the date of Network Rail's notice, Network Rail may require Train Operators to submit preliminary responses or estimates of the costs, losses and expenses which they may incur as a result of the implementation of the proposed change.*
 - (iv) *Train Operators are entitled to be reimbursed 75% of their reasonable costs of assessing a Network Change proposal by Network Rail. Network Rail may require Train Operators to provide it with estimates of such assessment costs, or to cease incurring such costs.*
 - (v) *In responding formally to a Network Change proposal, Train Operators must either accept the proposal in its entirety or object to it on one or more of the grounds specified in Condition G2.1(a) or (b). These fall into three categories: objections to the proposed change in principle; objections to the change proposal on the grounds that it does not contain sufficient information to allow the Train Operator to make an informed response; and objections to the terms on which Network Rail proposes to compensate the Train Operator for costs, losses and expenses which it may incur as a result of the implementation of the proposed change. The benefits of the change to the Train Operator and its chances of recouping its costs or losses from third parties (including passengers) are to be taken into account when determining the amount of such compensation.*
 - (vi) *Network Rail must then either reach agreement with any objecting Train Operators, refer the matters in dispute to the relevant ADRC tribunal or abandon the proposal. Implementation will then depend on whether the ADRC proceedings and any subsequent appeal to the Office of Rail Regulation result in a determination that the change should be implemented on terms which are acceptable to Network Rail. If no Train Operator objects to a Network Change proposal, Network Rail is entitled to implement it.*
- I. *Where a Train Operator wishes to make a Network Change proposal, the procedure is as follows:*
- (i) *The Train Operator ("Sponsor") gives a notice of proposal to Network Rail. Condition G3.2 prescribes the contents of such a notice. In particular, the notice is to contain proposals both as to how the implementation of the change should be funded (whether by Network Rail or by Train Operators) and as to how Network Rail and affected Train Operators should be compensated for the costs, losses and expenses which they may incur as a result of the implementation of the proposed change. Network Rail must then evaluate the proposal and be permitted to consult with Train Operators and other relevant persons about the effects of the proposal.*
 - (ii) *Within 30 days of receiving the Sponsor's notice, Network Rail gives a notice setting out the Sponsor's proposal and adding further information on its own account (in particular, where it disagrees with elements of the Sponsor's proposal). The notice includes a deadline for Network Rail to respond to the Sponsor's notice of proposal, which may be adjusted in the light of consultation.*

- (iii) *If the deadline for responses is 90 or more days after the date of Network Rail's notice, the Sponsor may require Network Rail to submit preliminary responses or estimates of the costs, losses and expenses which it may incur as a result of the implementation of the proposed change.*
- (iv) *Network Rail is entitled to be reimbursed 75% of its reasonable costs of assessing a Network Change proposal by the Sponsor. The Sponsor may require Network Rail to provide it with estimates of such assessment costs, or to cease incurring such costs.*
- (v) *In responding formally to a Network Change proposal, Network Rail must state whether it, or another Train Operator, objects to the proposal in principle or on the grounds that it contains insufficient information; or whether it or any other operator of railway assets objects on compensation grounds. The benefits of the change to Network Rail or any other Train Operator and their chances of recouping their costs or losses from third parties (including passengers) are to be taken into account when determining the amount of any compensation.*
- (vi) *The Sponsor must then either reach agreement with Network Rail and other Train Operators to the extent that they raise objections to the proposal, refer the matters in dispute to the relevant ADRC tribunal or abandon the proposal. Implementation will then depend on whether the ADRC proceedings and any subsequent appeal to the Office of Rail Regulation (see further Condition G6) result in a determination that the change should be implemented on terms which are acceptable to Network Rail. If there are no objections to the proposal the Sponsor is entitled to require Network Rail to implement it.*
- (vii) *Where a proposal for Network Change proposed by a Train Operator requires the implementation of a Vehicle Change, that Train Operator must follow the required procedures under Part F as well as those under Part G.*

J. *This Explanatory Note does not form part of the Network Code.*

CONDITION GA - FACILITATION OF NETWORK CHANGE

A1 *Obligation to facilitate Network Change*

Network Rail shall take all reasonable steps to facilitate the development, establishment and implementation of any proposal for Network Change.

A2 *Limit of obligation*

Condition GA1 does not oblige Network Rail to do anything which it is not required to do under its network licence.

A3 *Facilitation*

The obligation of Network Rail under Condition GA1 includes:

- (a) the provision to a Train Operator of such information concerning the condition, capacity and/or capability of the Network as:

- (i) Network Rail is required at any time to hold or have appropriate access to under its network licence; and
 - (ii) that Train Operator may reasonably request in connection with the development of a proposal for Network Change (whether the proposal is made by that Train Operator or another person);
- (b) the publication on its website of:
 - (i) every proposal for Network Change made by Network Rail under Condition G1.1 or by a Train Operator under Condition G3.1;
 - (ii) every response to a proposal for Network Change made by a Train Operator under Condition G2.1 or by Network Rail under Condition G4.1;
 - (iii) every determination of matters which have been referred to the relevant ADRC tribunal or the Office of Rail Regulation under Condition G6.1 or G6.2;
 - (iv) every authorised variation;
 - (v) standard forms, produced after consultation with every other Access Party and approved by the Office of Rail Regulation, for the notification under this Part G of proposals for Network Change, and of responses to such proposals, which:
 - (A) may include different forms for different types of Network Change having regard to the size, complexity and value of the change in question; and
 - (B) shall be used by any person notifying or responding to a proposal for Network Change under this Part G, unless it is not reasonably practicable for it to do so; and
 - (vi) model terms and conditions, produced after consultation with every other Access Party and approved by the Office of Rail Regulation, by way of supplement to the terms of this Part G and on which Network Rail is prepared to contract for or in connection with the implementation of a Network Change which:
 - (A) shall provide appropriate and proportionate forms of contract for

different types of Network Change having regard to the size, complexity and value of the change in question;

- (B) may include variation procedures; and
 - (C) shall, so far as reasonably practicable, form the basis of any terms and conditions relating to the implementation of a Network Change which are proposed by Network Rail under Condition G1 or by a Train Operator under Condition G3;
- (c) the provision of a preliminary response to a proposal for Network Change by a Train Operator under Condition G3.4;
- (d) such consultation before a notice of a proposal for a Network Change is submitted by a Train Operator as may reasonably be expected to enable that operator to assess the feasibility and affordability of the proposed change; and
- (e) such consultation with the persons specified in Condition G1.1(a) and G3.1(b) before a notice of a proposal for a Network Change is given by Network Rail or submitted by a Train Operator as:
- (i) Network Rail considers reasonably necessary; and
 - (ii) any person specified in Condition G1.1(a) and G3.1(b) may reasonably request,
- to enable the proposal to be developed in an efficient and economical manner.

A4 Compliance with Railway Group Standards

The obligations to comply with the requirements of this Part G are without prejudice to the obligations of the Access Parties to comply with Railway Group Standards.

CONDITION G1 - NETWORK CHANGE PROPOSAL BY NETWORK RAIL

1.1 Notice of proposal

Subject to Conditions G1.9 and G1.10, if Network Rail wishes to make a Network Change, it shall:

- (a) give notice of its proposal for Network Change to:
 - (i) each Train Operator that may be affected by the implementation of the proposed Network Change;

- (ii) the Strategic Rail Authority;
 - (iii) the HSE;

- (b) without delay publish on its website the notice of its proposal for Network Change.

1.2 Content of notice of proposed Network Change

A notice of a proposed Network Change given by Network Rail under Condition G1.1 shall:

- (a) state the relevant response date and the obligations of Train Operators and Network Rail under Conditions G1 and G2;
- (b) invite the persons specified in Condition G1.1(a)(ii)-(v) to submit comments by the relevant response date;
- (c) contain:
 - (i) the reasons why it is proposed to make the change, including the effects it is intended or may reasonably be expected to have on the operation of the Network or on trains operated on the Network;
 - (ii) a specification of the works to be done (including a plan showing where the work is to be done and the parts of the Network and associated railway assets likely to be affected);
 - (iii) the proposed times within which the works are to be done and when they are intended or may reasonably be expected to be begun and completed;
 - (iv) Network Rail's proposals (if any) for the division of the costs of carrying out the change, including any proposals in relation to the calculation or payment of compensation to Train Operators in respect of the change; and

- (v) any additional terms and conditions which Network Rail proposes should apply to the change, including any proposed variation procedure; and
- (d) be prepared to a standard, and in such detail, as is reasonably necessary, having due regard to the level of knowledge and expertise reasonably to be expected of the persons specified in Condition G1.1(a), to enable any such person to assess the likely effect of the proposed change on its business and its performance of any obligations or the exercise of any discretions which it has in relation to railway services.

1.3 Consultation

- 1.3.1 Network Rail shall, after giving notice of any proposal for Network Change under Condition G1.1, consult with each operator of railway assets likely to be materially affected by the proposed change to the extent reasonably necessary so as properly to inform that operator of the change and to enable that operator to assess the consequences for it of the proposed change.
- 1.3.2 After consultation under this Condition G1.3, Network Rail may notify a later relevant response date to the persons to whom the notice of proposal for Network Change was given.

1.4 Obligations on Train Operators to facilitate Network Change

- 1.4.1 Except in the circumstances and to the extent specified in Condition G1.4.2, a Train Operator shall, when consulted by Network Rail under Condition G1.3, take all reasonable steps to comply with any written request of Network Rail to provide Network Rail, within a reasonable period of time and at no cost to Network Rail, with:
 - (a) a preliminary estimate of those costs, losses and expenses referred to in Condition G2.2; or
 - (b) a preliminary written response in respect of the proposed Network Change, which shall:
 - (i) be binding on the Train Operator, unless the Train Operator indicates otherwise; and
 - (ii) if it is negative, include reasons.

I.4.2 A Train Operator shall not be obliged to comply with a request from Network Rail under Condition G1.4.1:

- (a) unless:
 - (i) the relevant response date is 60 or more days after the date on which the proposal for Network Change was given; and
 - (ii) the request is made at the same time as Network Rail gives its notice under Condition G1.1; or
- (b) to the extent that the Train Operator is unable to comply with such a request, having regard to the information reasonably available to it.

I.5 *Reimbursement of costs*

Subject to Conditions G1.4 and G2, each Train Operator shall be entitled to reimbursement by Network Rail of 75% of all costs incurred by that Train Operator in assessing any Network Change proposed by Network Rail. Those costs shall be the minimum reasonably necessary for that Train Operator to carry out that assessment.

I.6 *Further information regarding costs*

Each Train Operator shall, upon request from Network Rail from time to time, provide Network Rail with written estimates of the costs of assessing a proposal for Network Change proposed by Network Rail (as referred to in Condition G1.5) including estimated costings of the work to be carried out and shall:

- (a) be entitled to require reasonable assurances of payment in respect of any material work to be carried out for the purposes of that evaluation before commencing such work; and
- (b) upon request from Network Rail from time to time, provide Network Rail with such information as may be reasonably necessary to enable Network Rail to assess the reasonableness of any estimate.

I.7 *Accuracy of estimates*

Each Train Operator shall ensure that any estimates given by it are, so far as reasonably practicable, accurate on the basis of the information reasonably available to it.

1.8 *Obligation to incur no further costs*

A Train Operator shall, if requested by Network Rail at any time, incur no further costs (except any costs which cannot reasonably be avoided) in respect of any proposal for Network Change made by Network Rail.

1.9 *Changes to the operation of the Network*

In the case of a Network Change within the meaning of paragraph (iii) of that term's definition, Network Rail may commence implementing the procedure set out in this Part G and shall, upon notice being given by the relevant Train Operator to Network Rail at any time after the expiry of the relevant period, promptly commence implementing and thereafter comply with that procedure as if that change were a Network Change proposed by Network Rail.

1.10 *Network Change for safety reasons*

To the extent that a Network Change within the meaning of paragraph (i) of that term's definition is required to be made by Network Rail for safety reasons, Network Rail shall not be obliged to implement the procedure set out in this Part G in relation to that change until the change has lasted for three months (or such longer period as may be specified in the relevant Train Operator's Access Agreement). Upon expiry of the relevant period, Network Rail shall promptly commence implementing and thereafter comply with the procedure set out in this Part G as if the relevant Network Change were a Network Change proposed by Network Rail.

CONDITION G2 - RESPONSE BY TRAIN OPERATOR TO NETWORK CHANGE PROPOSAL

2.1 *Obligation to give notice of response*

The Train Operator shall give notice to Network Rail if it considers that either:

- (a) one or more of the following conditions has been satisfied:
 - (i) the implementation of the proposed change would necessarily result in Network Rail breaching an access contract to which that Train Operator is a party;

- (ii) Network Rail has failed, in respect of the proposed change, to provide sufficient particulars to that Train Operator under Condition G1.2; or
 - (iii) the implementation of the proposed change would result in a material deterioration in the performance of that Train Operator's trains which cannot adequately be compensated under this Condition G2; or
- (b) it should be entitled to compensation from Network Rail for the consequences of the implementation of the change.

Any notice of the kind referred to in paragraph (a) above shall include the reasons for the Train Operator's opinion. Any notice of the kind mentioned in paragraph (b) above shall include a statement of the amount of compensation required and the means by which the compensation should be paid, including any security or other assurances of payment which Network Rail should provide. Any such statement shall contain such detail as is reasonable to enable Network Rail to assess the merits of the Train Operator's decision.

2.2 *Amount of compensation*

Subject to Condition G2.3, the amount of the compensation referred to in Condition G2.1 shall be an amount equal to the amount of the costs, direct losses and expenses (including loss of revenue) which can reasonably be expected to be incurred by the Train Operator as a consequence of the implementation of the proposed change.

2.3 *Benefits to be taken into account*

There shall be taken into account in determining the amount of compensation referred to in Condition G2.1:

- (a) the benefit (if any) to be obtained or likely in the future to be obtained by the Train Operator as a result of the proposed Network Change; and
- (b) the ability or likely future ability of the Train Operator to recoup any costs, losses and expenses from third parties including passengers and customers.

2.4 *Rights in relation to implementation of Network Change*

If:

- (a) a Train Operator shall have given notice to Network Rail pursuant to Condition G2.1(a) and Network Rail shall have failed to refer the matter for determination pursuant to the Access Dispute Resolution Rules; or
- (b) a Train Operator shall have given notice to Network Rail pursuant to Condition G2.1(b) and Network Rail shall have failed either:
 - (i) to comply with the terms upon which the compensation in question shall be payable, having been given a reasonable opportunity to remedy that failure; or
 - (ii) to refer the matter for determination pursuant to the Access Dispute Resolution Rules within 14 days of the date of the notice in question,

the proposed Network Change shall not be implemented. In any other case and subject to the other provisions of the Network Code, Network Rail shall be entitled to implement the Network Change.

CONDITION G3 - NETWORK CHANGE PROPOSAL BY TRAIN OPERATOR

3.1 *Notice of proposal*

A Train Operator shall, if it wishes Network Rail to make a Network Change:

- (a) submit to Network Rail a proposal for such change; and
- (b) permit Network Rail to consult with:
 - (i) each Train Operator that may be affected by the implementation of the proposed Network Change;
 - (ii) the Strategic Rail Authority;
 - (iii) the HSE;
 - (iv) the Office of Rail Regulation; and
 - (v) each Passenger Transport Executive that may be affected, Transport for London if it may be affected, and the Scottish Executive if it may

be affected, by the implementation of the proposed Network Change,

to the extent provided for under Condition G3.3.1(b), subject to such requirements as to confidentiality as are reasonable.

3.2 Content of Sponsor's notice of proposal by a Train Operator

A notice of a proposed Network Change given by the Sponsor under Condition G3.1 shall:

- (a) contain:
 - (i) the reasons why it is proposed to make the change, including the effects it is intended or expected to have on the operation of the Network or on trains operated on the Network;
 - (ii) a specification of the works to be done (including a plan or plans showing where the work is to be done and the parts of the Network and associated railway assets likely to be affected);
 - (iii) the proposed times within which the works are to be done and when they are intended or expected to be begun and completed;
 - (iv) the Sponsor's proposals (if any) for the division of the costs of carrying out the change including any proposals in relation to the calculation or payment of compensation to Network Rail or any Train Operator in respect of the change; and
 - (v) the additional terms and conditions (if any) which the Sponsor proposes should apply to the change, including any variation procedure; and
- (b) be prepared to a standard, and in such detail, as is reasonably necessary, having due regard to the level of knowledge and expertise reasonably to be expected of the persons specified in Condition G3.1(b), to enable:
 - (i) Network Rail; and
 - (ii) any person specified in Condition G3.1(b),

to assess the likely effect of the proposed change on its business and its performance of any obligations or exercise of any discretions which it has in

relation to railway services.

3.3 Evaluation of proposal and consultation

3.3.1 If Network Rail receives a proposal for Network Change from a Train Operator, it shall:

- (a) evaluate and discuss the proposal for change with the Sponsor for such period as is reasonable having due regard to the likely impact of the proposed Network Change on either or both of Network Rail and other operators of trains;
- (b) consult with each person specified in Condition G3.1(b) likely to be materially affected by the proposed change to the extent reasonably necessary so as properly to inform them of the change and to enable them to assess the consequences for them of the change; and
- (c) for the purpose of the consultation under Condition G3.3.1(b), within 30 days of the date on which the Sponsor's notice under Condition G3.1 was given, give a notice to the persons specified in Condition G3.1(b), with a copy to the Sponsor, inviting them to submit comments by the relevant response date and stating:
 - (i) the relevant response date and the obligations of Train Operators and Network Rail under Conditions G3 and G4;
 - (ii) the reasons given by the Sponsor under Condition G3.2(a)(i) for proposing to make the change;
 - (iii) Network Rail's estimate of the likely impact of the change on the operation and performance of the Network; and
 - (iv) Network Rail's own proposals as to:
 - (A) the arrangements for, and any proposed terms applicable to, the implementation of the change;
 - (B) the specification of the works to be done (including a plan or plans showing where the work is to be done and the parts of the Network and associated railway assets likely to be affected);
 - (C) the times within which the works are to be done and when

they are intended or expected to be begun and completed;

- (D) the division of the costs of carrying out the change, including any proposals in relation to the calculation or payment of compensation to Train Operators in respect of the change; and
- (E) any additional terms and conditions which should apply to the change, including any proposed variation procedure.

3.3.2 In preparing a notice under Condition G3.3.1(c), Network Rail:

- (a) shall comply with the standard specified in Condition G3.2(b); and
- (b) in respect of each of the matters specified in Condition G3.3.1(c)(iv):
 - (i) shall have regard to any relevant statements and proposals contained in the Sponsor's notice under Condition G3.1;
 - (ii) shall give reasons for any differences between those statements and proposals and its own proposals under Condition G3.3.1(c)(iv); and
 - (iii) may annex to its notice any proposal contained in the Sponsor's notice under Condition G3.1 with which it agrees, stating its agreement, and, where appropriate, that it has no proposals of its own on the matter concerned.

3.4 Facilitation of Network Change by Network Rail

3.4.1 Except in the circumstances and to the extent specified in Condition G3.4.2, Network Rail shall, when consulted by the Sponsor, take all reasonable steps to comply with any written request of the Sponsor to provide the Sponsor, within a reasonable period of time, and at no cost to the Sponsor, with:

- (a) a preliminary estimate of those costs, losses and expenses referred to in Condition G4.2 which may be incurred by Network Rail; or
- (b) a preliminary written response in respect of the proposed Network Change, which shall:
 - (i) be binding on Network Rail, unless Network Rail indicates otherwise; and

- (ii) if it is negative, include reasons.

3.4.2 Network Rail shall not be obliged to comply with a request from the Sponsor under Condition G3.4.1:

- (a) unless:

- (i) the relevant response date is 90 or more days after the date on which Network Rail's notice under Condition G3.3.1(c) was given; and
- (ii) the request is made within 7 days of the Sponsor receiving Network Rail's notice under Condition G3.3.1(c); or

- (b) to the extent that Network Rail is unable to comply with such a request, having regard to the information reasonably available to it.

3.4.3 After consultation with the Sponsor and under Condition G3.3.1(b), Network Rail may notify a later relevant response date to the Sponsor and the persons to whom it gave its notice under Condition G3.3.1(c).

3.5 Reimbursement of costs

Subject to Conditions G3.4 and G4, Network Rail shall be entitled to reimbursement by a Train Operator of 75% of all costs incurred by Network Rail in assessing any Network Change proposed by that operator. Those costs shall be the minimum reasonably necessary for Network Rail to carry out that assessment.

3.6 Provision of estimate of costs by Network Rail

Network Rail shall, upon request from a Train Operator from time to time, provide the Train Operator with written estimates of the costs of assessing a proposal for Network Change submitted by that operator (as referred to in Condition G3.5) including estimated costings of the work to be carried out and shall:

- (a) be entitled to require reasonable assurances of payment in respect of any material work to be carried out for the purposes of that assessment before commencing such work; and
- (b) upon request from the Sponsor from time to time provide the Sponsor or its agents with such information as may be reasonably necessary to enable the Sponsor to assess the reasonableness of any estimate.

3.7 Accuracy of estimates

Network Rail shall ensure that any estimates given by it are, so far as reasonably practicable, accurate on the basis of the information reasonably available to it.

3.8 Obligation to incur no further costs

Network Rail shall, if requested by a Train Operator at any time, incur no further costs (except any costs that cannot reasonably be avoided) in respect of any proposal for Network Change made by that Train Operator.

3.9 Relationship with Vehicle Change

If the implementation of a Network Change proposed by a Train Operator also requires the implementation of a Vehicle Change in respect of the trains operated by that Train Operator, the Sponsor shall follow the procedures and satisfy the requirements of both this Part G and Part F and the requirement for a Vehicle Change shall not preclude the right of the Sponsor to follow the procedure in this Part G for a Network Change or vice versa.

CONDITION G4 - RESPONSE BY NETWORK RAIL TO NETWORK CHANGE PROPOSAL

4.1 Obligation to give notice of response

Network Rail shall give notice to the Sponsor if:

- (a) it considers that one or more of the following conditions has been satisfied:
 - (i) the implementation of the proposed change would necessarily result in Network Rail breaching any access contract (other than an access contract to which the Sponsor is a party);
 - (ii) the Sponsor of the proposed change has failed in a material respect to comply with its obligations under Condition G3.1 provided that Network Rail shall first have given the Sponsor a reasonable opportunity to remedy that failure;
 - (iii) the implementation of the proposed change would result in a material adverse effect on the maintenance or operation of the Network or the operation of any train on the Network which in any

such case cannot adequately be compensated under this Condition G4;

- (b) any Train Operator shall have given notice to Network Rail that it considers that any of the conditions specified in paragraph (a) above has been satisfied;
- (c) it considers that it should be entitled to compensation from the Sponsor for the consequences of the implementation of the change; or
- (d) any other operator of railway assets shall have given notice to Network Rail that it considers that it should be entitled to compensation from the Sponsor for the consequences of the implementation of the change.

Any notice of the kind referred to in paragraph (a) or (b) above shall include the reasons for the opinion in question. Any notice of the kind mentioned in paragraph (c) or (d) above shall include a statement of the amount of compensation required and the means by which the compensation should be paid, including any security or other assurances of payment which the Sponsor should provide. Any such statement shall contain such detail as is reasonable to enable the Sponsor to assess the merits of the statement.

4.2 Amount of compensation

Subject to Condition G4.3, the amount of the compensation referred to in Condition G4.1 shall be an amount equal to the amount of the costs, direct losses and expenses (including loss of revenue) which can reasonably be expected to be incurred by Network Rail or the operator in question as a consequence of the implementation of the proposed change other than any such costs, losses or expenses which are attributable to the Sponsor improving its ability to compete with other operators of railway assets.

4.3 Benefits to be taken into account

There shall be taken into account in determining the amount of compensation referred to in Condition G4.2:

- (a) the benefit (if any) to be obtained or likely in the future to be obtained by Network Rail or any other Train Operator as a result of the proposed Network Change; and

- (b) the ability or likely future ability of Network Rail or any such other Train Operator to recoup any costs, losses and expenses from third parties including passengers and customers.

4.4 Rights in relation to implementation of Network Change

If:

- (a) Network Rail shall have given notice to the Sponsor pursuant to Condition G4.1(a) or (b) and the Sponsor shall have failed to refer the matter for determination pursuant to the Access Dispute Resolution Rules;
or
- (b) Network Rail shall have given notice to the Sponsor pursuant to Condition G4.1(c) or (d) and the Sponsor shall have failed either:
 - (i) to comply with the terms upon which the compensation in question shall be payable, having been given a reasonable opportunity to remedy that failure; or
 - (ii) to refer the matter for determination pursuant to the Access Dispute Resolution Rules within 14 days of the date of the notice in question,

the proposed Network Change shall not be implemented. In any other case, and subject to the other provisions of the Network Code, the Sponsor shall be entitled to have it implemented by Network Rail.

CONDITION G5 - CHANGES IMPOSED BY COMPETENT AUTHORITIES

Where Network Rail is required (other than at its own request or instigation) to implement a Network Change as a result of any Change of Law or any Direction of any Competent Authority other than the Office of Rail Regulation:

- (a) Network Rail shall, except to the extent that the relevant Change of Law or Direction otherwise requires, comply with Conditions G1.1 and G1.2 (other than Condition G1.2(c)(iv)) in respect of that Network Change;
- (b) each Train Operator shall make such alterations (if any) to its railway vehicles and its Services as are reasonably necessary to accommodate that Network Change and shall, except to the extent that the relevant Change of Law or Direction otherwise

requires, comply with Conditions F2.1, F2.2 and F2.3 (other than Conditions F2.2(a)(vi) and F2.3.1(c)(v)(B) and (D)); and

- (c) each Access Party shall bear its own costs or losses arising out of the implementation of the Network Change or the consequences thereof.

CONDITION G6 - APPEAL PROCEDURE

6.1 *Right of appeal to relevant ADRC tribunal*

If any Access Party is dissatisfied as to:

- (a) any matter concerning the operation of the procedure in this Part G;
- (b) the contents of any notice given under Condition G2.1 or G4.1 (and, in particular, the amount of any compensation referred to in those Conditions); or
- (c) any estimate referred to in Condition G1.6 or G3.6,

that Access Party may refer the matter to the relevant ADRC tribunal for determination under Part A of the Access Dispute Resolution Rules.

6.2 *Right of appeal to the Office of Rail Regulation or the Court*

If any Access Party is dissatisfied with any decision of the relevant ADRC tribunal in relation to any matter referred to it under Condition G6.1, that Access Party may refer the matter to the Office of Rail Regulation for determination under Part M.

6.3 *Implementation of Network Change*

6.3.1 The referral of any matter under Condition G6.1 or G6.2 concerning:

- (a) the amount of costs to be reimbursed under Condition G1.5 or G3.5, but not
- (b) the method by which such costs are to be calculated,

shall not entitle any person other than the Sponsor to delay the implementation of the Network Change pending the determination of the matter without the consent of the Sponsor.

6.3.2 Network Rail may implement a Network Change which, but for this Condition G6.3.2, would not be an established Network Change if:

- (a) the amount of any compensation referred to in Conditions G2.1 or G4.1 has not been agreed;
- (b) the method by which such compensation is to be calculated has been agreed or resolved under this Condition G6;
- (c) each Train Operator which was given a notice of the proposal for that Network Change, having been given a reasonable opportunity to object to such implementation, has not objected to it; and
- (d) there is no other dispute (whether under this Condition G6 or otherwise) as regards the proposed change between Network Rail and any such Train Operator.

Part H - Operational Disruption

Explanatory Note

- A. *The current provisions of Part H are to be replaced, over time, by a new Part H, as set out in Condition HA. The key elements of the new provisions are the establishment by Network Rail, in consultation with the industry, of a Railway Operational Code (the “ROC”), which will have the objective of sustaining operation of train services on the network in accordance with the working timetable, as well as where necessary restoring operation in accordance with the working timetable, having regard to the needs of passengers and freight customers; the interests of safety and security; the efficient and economical operation of the network and of trains operating on it; and criteria published by the Office of Rail Regulation.*
- B. *The ROC is to be kept under regular review, and to cover such issues as notification of disruptive events; contingency plans; clearance of track blockages and assistance to failed trains; emergency timetabling procedures; control arrangements; train regulation; seasonal-preparedness; and other matters necessary or expedient to achieve its objective.*
- C. *The ROC is to be established in accordance with a ROC plan established by Network Rail and approved by the Office of Rail Regulation. Provision is made for the coming into effect of Condition HA to be deferred by the Office of Rail Regulation.*
- D. *Part H provides procedures and plans for minimising the effects of operational disruption. Operational disruption is categorised as either a Disruptive Event or a case of minor disruption. The dividing line is materiality and different regimes apply to each category of disruption.*
- E. *A Disruptive Event materially prevents or materially disrupts the operation of trains on any part of the Network and in those circumstances Network Rail is required to decide the most appropriate action after the occurrence of a Disruptive Event, taking into account certain principles, Codes of Practice and Contingency Plans and with a view to minimising the inconvenience of passengers but having due regard to the interests of operators of non-passenger trains. If a Disruptive Event only affects one Train Operator, Network Rail is required to take such action as the Train Operator reasonably requires to restore the operation of trains over the affected part of the Network.*
- F. *There are provisions for the development and implementation of Contingency Plans and Codes of Practice, for minimising the effects of an extended period of disruption and for any consequential amendment to the Working Timetable including a consultation process with the Train Operators affected by a Disruptive Event and those likely to be affected.*
- G. *A Train Operator is required to comply with Network Rail's instructions in the event of a failure of one of its trains provided such request does not contravene any Railway Group*

Standard. Any Train Operator may be commissioned to assist a failed train of another Train Operator.

- H. In adverse weather conditions or where the track is obstructed, a Train Operator may be requested by Network Rail to provide Network Rail with any of its equipment and with reasonable assistance.*
- I. Network Rail is required after the end of a Disruptive Event or extended period of disruption to restore the Working Timetable as soon as is reasonably practicable and if Network Rail has reasonable grounds to believe that it is not reasonably practicable so to do, Network Rail is required to give notice to the Train Operators affected or likely to be affected and to repeat the procedures for determining a Disruptive Event and implementing an amendment to the Working Timetable.*
- J. Part H also deals with train regulation, which is in effect the means whereby operations are restored to normal following cases of minor disruption. Network Rail is obliged to establish and comply with a train regulation statement in respect of each discrete part of the Network which is a statement specifying the procedures to be followed in such circumstances taking into account certain specified objectives.*
- K. The train regulation statement will be issued annually by Network Rail at the Principal Change Date occurring in each calendar year and will be preceded by a notification and consultation process with Train Operators affected or likely to be affected by any minor disruption commencing 240 days prior to the Principal Change Date. During such period, if a Train Operator disagrees with the train regulation statement, it has a right of appeal to the Timetabling sub-Committee of the Access Dispute Resolution Committee (established under the Access Dispute Resolution Rules). If either Network Rail or the Train Operator is dissatisfied with the decision of that Committee, it may appeal to the Office of Rail Regulation or refer the matter to arbitration depending on the matter in dispute. Both appeals are heard on the merits of the matter in dispute and the relevant appeal body may make such orders as it thinks fit in relation to the proportions of the costs of the appeal to be borne by either or both of the parties.*
- L. This Explanatory Note does not form part of the Network Code.*

Network Rail shall designate and notify to each Train Operator the location and contact details of the Network Rail Operations Control in relation to its Routes.

1.7 *Train Operator's Control Points*

Each Train Operator shall liaise with Network Rail in relation to the identity and location of its Control Point and the setting up of communication arrangements sufficient to ensure proper contact with the relevant Network Rail Operations Control. Any such communication shall, in the case of the Train Operator, be through its Control Point and, in the case of Network Rail, be through the relevant Network Rail Operations Control.

1.8 *Conflict with Railway Group Standards*

If there is any conflict between this Part H and the provisions of any Railway Group Standard, the provisions of the relevant Railway Group Standard shall, to the extent of any inconsistency, prevail.

1.9 *Relationship with performance regimes*

The provisions of this Condition H shall have effect without prejudice to any regime established between Network Rail and a Train Operator in or pursuant to their Access Agreement in relation to any incentives and payments associated with the performance of their respective obligations under that agreement.

CONDITION H2 - ACTION FOLLOWING A DISRUPTIVE EVENT

2.1 *Determination by Network Rail*

Network Rail shall, as soon as reasonably practicable following the occurrence of a Disruptive Event:

- (a) determine the most appropriate action to be taken to restore the operation of trains on the Network in accordance with the Working Timetable and, in making its determination, shall take account (in the order of priority in which they are listed where there is any inconsistency) of the following:

- (ii) any Code of Practice which applies to the Disruptive Event in question; and
 - (iii) the Contingency Objective; and
- (b) consult as fully and regularly as reasonably practicable with each Train Operator affected or likely to be affected by the Disruptive Event as to the action which Network Rail proposes to take in connection with that event.

2.2 Disruptive Events affecting only one operator of trains

If the action to be taken to deal with a Disruptive Event is not likely to affect the operation of trains of more than one Train Operator, that Train Operator shall be entitled to require Network Rail to take such actions as the Train Operator shall reasonably specify in relation to the restoration of the operation of the affected part of the Network so as to permit the operation of trains on that part in accordance with the Working Timetable.

CONDITION H3 - CONTINGENCY OBJECTIVE

3.1 Definition

The Contingency Objective is the minimisation of the inconvenience of passengers following the occurrence of a Disruptive Event, having due regard to the interests of operators of non-passenger trains.

3.2 Relevant considerations

In signalling and otherwise controlling the train movements over or along any track, Network Rail shall use all reasonable endeavours to achieve the Contingency Objective. In doing so, Network Rail shall have due regard to the need to strike a fair and reasonable balance between the interests of both passengers and freight customers in relation to:

- (a) the maximisation of the number of passengers carried by available railway vehicles (provided that, so far as reasonably practicable, a balance shall be maintained between the level of overcrowding of railway vehicles and the time and distance involved in the relevant railway passenger services);
- (b) the minimisation of journey times;
- (c) the completion of through journeys;
- (d) the need to keep passengers moving towards their destinations by such means as are appropriate (including bus links and the diversion of passengers on to alternative routes);

- (e) the need to keep time sensitive goods moving towards their destinations by such means as are appropriate (including by diversion and, if appropriate, change of mode of transport);
- (f) the minimisation of costs to each Train Operator affected by the Disruptive Event in question; and
- (g) safety and security.

CONDITION H4 - CODE OF PRACTICE

4.1 *Development and establishment*

4.2 *Contents*

Each Code of Practice shall:

- (a) conform with the Contingency Objective;
- (b) establish in general terms the roles and responsibilities of Network Rail and operators of trains in responding to a Disruptive Event; and
- (c) in particular, include provisions dealing with the following matters:

CONDITION H5 - DEVELOPMENT AND ESTABLISHMENT OF CONTINGENCY PLANS

5.1 *Development and establishment*

The Access Parties shall, as soon as reasonably practicable following the date of signature of their Access Agreement, use all reasonable endeavours to procure, with the agreement of other operators of trains, the development and establishment of appropriate Contingency Plans in relation to particular types of Disruptive Event which may affect the Routes which they have permission to use.

5.2 *Conformity with Contingency Objective*

Each Contingency Plan shall conform with the Contingency Objective.

5.3 *Information*

Network Rail shall ensure that each Train Operator is kept informed both of the Plan Routes which are relevant to it and of the identity of the other operators of trains to whom those Plan Routes are also relevant, together with any changes to those routes or those other operators.

5.4 *Copies*

Network Rail shall, following agreement of a Contingency Plan with all relevant operators of trains, promptly send a copy of it to each Train Operator affected by the plan.

CONDITION H6 - APPLICATION OF CONTINGENCY PLANS etc.

6.1 *Implementation*

Subject to any determination by Network Rail to the contrary pursuant to Condition H2.1, the Access Parties shall, on the occurrence of a Disruptive Event for which a Contingency Plan has been established, proceed to implement that plan so far as reasonably practicable.

6.2 *Train Crew knowledge*

Each Train Operator shall ensure that its Train Crews have an adequate route and traction knowledge of any diversion set out in an applicable Contingency Plan to the extent that the Contingency Plan in question so provides.

6.3 *Adaptation of plan*

Each of the Access Parties shall use all reasonable endeavours to adapt a Contingency Plan to the specific circumstances arising out of the Disruptive Event.

6.4 *Application of Code of Practice*

Subject to any determination by Network Rail to the contrary pursuant to Condition H2.1, where no Contingency Plan exists or adequately deals with a particular Disruptive Event, Network Rail shall apply the applicable Code of Practice (if any) in such a manner as it considers to be reasonable and appropriate in the circumstances.

6.5 *Contingency Objective*

Subject to any determination by Network Rail to the contrary pursuant to Condition H2.1, where no Contingency Plan exists or adequately deals with a particular Disruptive Event and no Code of Practice exists, Network Rail shall use all reasonable endeavours to secure the Contingency Objective in such a manner as it considers to be reasonable and appropriate in the circumstances.

CONDITION H7 - EXTENDED DISRUPTION - EMERGENCY TIMETABLING PROCEDURE

7.1 *Definition*

An Extended Disruption is a Disruptive Event which is likely to be of sufficient duration as to make it practicable to adopt a revised timetable.

7.2 *Agreed amendment of Working Timetable*

Network Rail and any Train Operator which is affected by an Extended Disruption shall use all reasonable endeavours to agree an amendment of the Working Timetable so as to minimise the effects of an Extended Disruption. If such an amended Working Timetable shall have been agreed, the provisions of Condition H7.3 shall have effect accordingly.

7.3 *Network Rail to establish amended Working Timetable*

Subject to Condition H7.2, where an amended Working Timetable shall have been agreed, in the case of an Extended Disruption, Network Rail shall promptly produce a revised Working Timetable:

- (a) complying, to the extent reasonably practicable, with the procedures set out in Part D and having due regard, in particular, to the Decision Criteria (as defined in Part D); and
- (b) consulting, to the extent reasonably practicable, with each Train Operator affected or likely to be affected by the Extended Disruption

and shall keep the operation of the revised timetable under review, modifying it, where it reasonably considers necessary and after due consultation with Train Operators affected or likely to be affected by the Extended Disruption as far as reasonably practicable, to comply with the Decision Criteria.

7.4 *Rights of appeal*

The procedures set out in Condition D5 shall apply *mutatis mutandis* to any changes or proposed changes to the Working Timetable pursuant to this Condition H7.

CONDITION H8 - CLEARANCE OF TRACK BLOCKAGES

8.1 *Failure of Train Operator's Train*

8.1.1 *Notification of Train Failure*

If a Train Failure occurs in respect of a train operated by a Train Operator, it shall promptly notify Network Rail of the location of the Failed Train and any other details reasonably required by Network Rail in respect of the Failed Train.

8.1.2 *Network Rail's obligation to consult operators*

On becoming aware that a Train Failure has occurred in respect of a train operated by a Train Operator, Network Rail shall promptly:

- (a) consult with the operator of the Failed Train in order to ascertain the reason for the Train Failure and to obtain such other information as may be necessary in order to effect a safe and expeditious removal of the Failed Train; and
- (b) consult with other operators of trains whose trains are or are likely to be in the vicinity of the Failed Train in order to assess the capability of those trains or the locomotives coupled to them to move the Failed Train.

8.1.3 *Movement of failed train by its operator*

If, after consultation in accordance with Condition H8.1.2(a), Network Rail reasonably believes that the Train Failure in question can be remedied by action taken by or on behalf of the Train Operator's Train Crew at the site of the Train Failure, it may permit the Train Operator to take such action as is necessary to

move the Failed Train. Such permission may be subject to such time limits as Network Rail shall reasonably specify to the Train Operator having due regard to the effect of the Train Failure on trains on the same or adjoining sections of track.

8.1.4 *Consultation where assistance required*

If, after consultation in accordance with Condition H8.1.2 and, if relevant, the expiry of any time limit specified by Network Rail pursuant to Condition H8.1.3, Network Rail reasonably believes that the Failed Train can only be moved with the assistance of another train or locomotive or other equipment, Network Rail shall consult with the Train Operator operating the Failed Train as to the capabilities of any trains or locomotives which are available to assist the Failed Train or the nature of other assistance.

8.1.5 *Compliance with Network Rail's instructions*

The Train Operator shall, subject to Network Rail having consulted with it in accordance with Conditions H8.1.2 and H8.1.4, comply with any reasonable instructions of Network Rail for the purpose of ensuring, with any such assistance as is referred to in Condition H8.1.4, the prompt removal of the Failed Train to an Appropriate Location.

8.2 Assistance to a Failed Train

8.2.1 *Use of following train*

If, after consultation in accordance with Condition H8.1, Network Rail reasonably believes that the train, or the locomotive coupled to a train, immediately following a Failed Train is able to move the Failed Train by pushing or pulling it, Network Rail may commission the operator of such train or locomotive to use it to push or pull the Failed Train under the guidance and control of the operator of the Failed Train to such Appropriate Location as Network Rail shall notify to that operator.

8.2.2 *Commissioning of other trains*

If a Failed Train cannot, in the opinion of Network Rail, be moved by the train or locomotive immediately following the Failed Train, Network Rail may commission any Train Operator in control of a train or locomotive in the vicinity of the Failed Train to move the Failed Train to such Appropriate Location as Network Rail shall notify to it. Network Rail may only commission the Train Operator's train or locomotive if, having had due regard to all relevant factors (including the factors set out in Condition H8.2.3), it reasonably believes the Train Operator's train or locomotive is the most appropriate means to move the Failed Train.

8.2.3 *Relevant factors*

The factors referred to in Condition H8.2.2 are, in relation to the relevant locomotive or train:

- (a) its fuel reserves;
- (b) the current use of the train or, in the case of a locomotive, the train to which it is coupled and, if relevant, the goods carried on the train;
- (c) the route knowledge of its Train Crew; and
- (d) the length of any delay to any assisting train or train to which an assisting locomotive is coupled (taking account of the time necessary to return an assisting locomotive or to provide a suitable replacement locomotive).

8.2.4 *Consent to commissioning required*

Network Rail may commission the train or locomotive of a Train Operator under this Condition H8 only with the consent of that Train Operator (which consent may not be unreasonably withheld or delayed).

8.2.5 *Compliance with directions*

Where it provides an assisting train or locomotive, a Train Operator shall comply with any directions given by Network Rail to move that Failed Train to such Appropriate Location as has been notified to him and, subject to such directions, that operator's Train Crew shall, during the course of moving the Failed Train, act under the guidance and control of the operator of the Failed Train. Nothing in this Condition H8.2.5 shall oblige any Train Operator to contravene any Railway Group Standard.

8.2.6 *Movement to Appropriate Location*

Network Rail shall use all reasonable endeavours to ensure that a Failed Train is moved to the Appropriate Location notified to the Train Operator in accordance with this Condition H8.2. A Train Operator commissioned to move a Failed Train under this Condition H8.2 shall be obliged to move such Failed Train only to an Appropriate Location notified to the Train Operator in accordance with this Condition H8.2.

8.2.7 *Timeous release of assisting train*

Network Rail shall use all reasonable endeavours to release the assisting train or locomotive to the assisting Train Operator within a period of 3 hours from the time at which such train or locomotive was commissioned by Network Rail in accordance with this Condition H8.2.

8.2.8 *Assistance in reaching intended destination*

Network Rail shall use all reasonable means to assist a Train Operator whose train or locomotive has been commissioned to move a Failed Train, to reach its intended destination, as soon as reasonably practicable.

8.3 ***Compensation for moving Failed Trains***

8.3.1 *Obligation to reimburse Network Rail*

Except as provided for in Condition H8.3.4, if one of a Train Operator's trains is subject to Train Failure due to a mechanical defect or other cause attributable to the Train Operator and such train is moved in accordance with Conditions H8.1 and H8.2, the Train Operator shall pay Network Rail the sum of the amounts payable under Condition H8.3.2.

8.3.2 *Right to payment for assisting Failed Train*

Except as provided for in Condition H8.3.4, if a Train Operator is commissioned to use one of its trains or locomotives to assist a Failed Train in accordance with Condition H8.2, Network Rail shall pay to the Train Operator:

- (a) £2,090; and
- (b) £210 for every hour which the locomotive is assisting the Failed Train over and above 3 hours.

8.3.3 *Price Variation*

- (a) The amounts specified in Condition H8.3.2. shall remain in force until 31st March 2001.
- (b) On 1st April each year commencing with 1st April 2001 the amounts specified in Condition H8.3.2. which applied in the immediately preceding year shall be adjusted by multiplying them by the Adjustment Factor rounded to three decimal places to be calculated in accordance with the following formula:

$$\text{Adjustment Factor} = 1 + \frac{(\text{RPI}_{t-1} - \text{RPI}_{t-2})}{\text{RPI}_{t-2}} - 0.02$$

where:

RPI_{t-1} means the average monthly value of the Retail Prices Index All Items ("RPI") issued by the Office for National Statistics for the 12 months up to and including the month of December immediately preceding the relevant 1st April.

RPI_{t-2} means the average monthly value of the Retail Prices Index referred to above applicable for the 12 months up to and including the month of December which is 12 months before the month of December immediately preceding the relevant 1st April.

- (c) The amounts calculated in accordance with paragraph (b) above shall be rounded to the nearest £10.
- (d) As soon as reasonably practicable after 1st April each year, Network Rail shall give notice to each Train Operator of the adjusted amounts calculated in accordance with paragraph (b) above.

8.3.4 *Alternative financial arrangements*

The provisions of Conditions H8.3.1, H8.3.2 and H8.3.3 shall apply subject to any alternative financial arrangements which may be agreed between Train Operators who are to pay and receive amounts under those conditions, provided such alternative arrangements have first been notified to and approved by Network Rail (such approval not to be unreasonably withheld or delayed).

8.3.5 *Liability of assisting Train Operator for payments to Network Rail*

Without prejudice to any obligation arising as a result of its failure to perform any obligation or its negligence, no Train Operator shall be liable to pay to Network Rail any amount (whether in respect of permission to use track, signalling or other equipment or the provision of electricity or any service or otherwise) which it would, but for this Condition H8.3.5, have become liable to pay as a result of assisting a Failed Train.

CONDITION H9 - ADVERSE WEATHER CONDITIONS AND OBSTRUCTIONS

9.1 *Provision of equipment and assistance*

Subject to Condition H9.2, if a Train Operator holds any equipment which, in the reasonable opinion of Network Rail, may assist it in dealing with disruption to the operation of trains on the Network caused by either or both adverse weather conditions and obstructions of the track, it shall, where reasonably requested to do so by Network Rail, make that equipment available and otherwise provide reasonable assistance to Network Rail in remedying that disruption where requested to do so.

9.2 *Payment*

Any equipment or assistance referred to in Condition H9.1 shall only be made available or provided to, or used in the assistance of, Network Rail on the payment of such fees as shall be agreed between the parties from time to time.

CONDITION H10 - RESTORATION OF WORKING TIMETABLE

10.1 *Obligation to restore normal operation*

Subject to Condition H10.2, as soon as reasonably practicable after the end of a Disruptive Event or Extended Disruption, Network Rail shall:

- (a) procure that the operation of the Network shall be restored so as to permit the operation of trains in accordance with the Working Timetable; and
- (b) give to each Train Operator affected by the disruption in question as much notice of such restoration as is reasonably practicable.

10.2 *Continuation of emergency timetable*

As soon as reasonably practicable after Network Rail has reasonable grounds for believing that it is not likely to be reasonably practicable for it to procure that the operation of the Network shall be restored so as to permit the operation of trains in accordance with the Working Timetable after the end of a Disruptive Event or Extended Disruption, Network Rail shall:

- (a) give to each Train Operator affected or likely to be affected by the disruption in question notice of its opinion together with its reasons;
- (b) take into account any representations or objections which any of them shall make in relation to the matter; and
- (c) having regard to the fact that the amended timetable established pursuant to Condition H2 or H7 is likely to be in operation for a period which is longer than the period of operation expected when it was established, reconsider that timetable and re-comply with the procedures specified in Condition H2 or H7 (as the case may be).

The timetable established after compliance by Network Rail with this Condition H10.2 shall become the Working Timetable for the part or parts of the Network in question.

CONDITION H11 - TRAIN REGULATION

11.1 *Train regulation objective*

The train regulation objective is the striking of a fair and reasonable balance between:

- (a) minimising overall delay to train movements (including Ancillary Movements);
- (b) minimising overall delay to passengers travelling or intending to travel by railway and the movement of time-sensitive goods, both in respect of the

aggregate delay to any one of them and the aggregate numbers of passengers and goods delayed;

- (c) maintaining connections between railway passenger services; and
- (d) avoiding undue discrimination between any person and any other person.

The interests of safety and security, as set out in Condition A1.1, are at all times paramount.

11.2 *Network Rail's obligation to establish and comply with train regulation statements*

Network Rail shall establish and thereafter comply with a train regulation statement in respect of each discrete part of the Network in accordance with the provisions of this Condition H11.

11.3 *Contents of train regulation statements*

Each train regulation statement:

- (i) shall contain:
 - (a) a specification of the cases of minor disruption in which it shall apply; and
 - (b) the procedures which Network Rail shall follow in cases of minor disruption when signalling and otherwise controlling train movements over or along any track comprised in the part or parts of the Network to which it applies; and
- (ii) may contain provisions for its own amendment provided that in all cases due regard shall be had to the train regulation objective.

11.4 *Consultation of affected train operators prior to notice of proposed train regulation statement*

11.4.1 Not later than 240 days before the Principal Change Date in each calendar year, Network Rail shall give notice to each affected train operator inviting it to make representations to it in relation to the manner in which train regulation should be carried out in cases of minor disruption in the year beginning on such Passenger Change Date in respect of each part of the network in respect of which such train operators have access rights.

11.4.2 Each affected train operator so consulted shall use all reasonable endeavours to provide to Network Rail such representations as it shall wish to make in respect of such train regulation within 30 days after receipt of the first consultation notice.

11.5 *Notice of proposed train regulation statement*

Not later than 60 days after giving the first consultation notice, Network Rail shall give notice to each affected train operator of its proposed applicable train regulation statement. Each such notice shall include:

- (a) the text of the proposed train regulation statement;
- (b) the part or parts of the Network to which it shall be intended to apply;
- (c) a statement of Network Rail's reasons for the proposed train regulation statement; and
- (d) such other information as it shall be reasonable for Network Rail to provide in order properly to inform affected train operators of the proposed train regulation statement and its likely effect on their operations.

11.6 *Consultation with affected train operators*

As soon as reasonably practicable after the date upon which Network Rail shall have given the first consultation notice, Network Rail shall consult each affected train operator in relation to the proposed train regulation statement, and shall invite the submission to it of representations or objections in respect of it.

11.7 *Establishment of train regulation statement*

Network Rail shall:

- (a) take into account all representations or objections received from affected train operators pursuant to Condition H11.6;
- (b) make such modifications to the proposed train regulation statement as it shall reasonably consider appropriate so as to ensure, so far as reasonably practicable, that the proposed train regulation statement complies with the train regulation objective; and
- (c) not later than 120 days after the date of the first consultation notice, establish the applicable train regulation statement by sending a copy of it to each affected train operator.

11.8 *Duration of train regulation statement*

A train regulation statement established pursuant to this Condition H11 shall have effect for the period from the relevant Principal Change Date until the next succeeding Principal Change Date.

11.9 *Right of appeal against train regulation statements*

If any affected train operator is dissatisfied with a train regulation statement established by Network Rail under Condition H11.7, it may:

- (a) in the case of an allegation that the statement in question does not achieve the train regulation objective:
 - (i) refer the matter for determination to the relevant ADRC tribunal under Part A of the Access Dispute Resolution Rules; and
 - (ii) if it is dissatisfied with that determination, refer the matter to the Office of Rail Regulation for determination under Part M; and
- (b) in any other case, refer the matter:
 - (i) for determination to the relevant ADRC tribunal under Part A of the Access Dispute Resolution Rules; and
 - (ii) if it is dissatisfied with that determination, to arbitration under Part C of the Access Dispute Resolution Rules.

Part J – Changes to Access Rights

Explanatory Note

- A. *Part J provides a number of mechanisms by which a train operator's track access rights can be changed, either at the train operator's instigation or in circumstances where the train operator would prefer to retain the rights concerned. These processes are illustrated in the flow charts appended to this Explanatory Note.*
- B. *Condition J1 (application of this Part J) provides that 'subject to any relevant law, nothing in this Part J shall prevent to a material extent the exercise of, or receipt of the benefit of, a protected right'. This provision aims to safeguard the position of operators with protected rights (for the purposes of Condition C8 of the network code), other than to the extent that a provision of Part J implements a relevant law (e.g. the use it or lose it mechanism in Condition J5 implementing Article 27 of Directive 2001/14).*
- C. *Condition J2 (adjustment of access rights) is based very closely on Part 8 of Schedule 7 of passenger track access agreements and Schedule 13 of freight track access agreements. It sets out a process by which a train operator can request information about the voluntary surrender or adjustment of its access rights and, if it wishes to take up that opportunity, can secure the surrender or adjustment, including compensation where applicable. The two main changes from provisions in existing access agreements are:*
- (i) a requirement on Network Rail, following a request from a train operator for information about the surrender or adjustment of rights, to consult more widely than is currently required. In particular, Network Rail must consult any funders that may be directly affected by the relevant adjustment or surrender, which will include the SRA, Passenger Transport Executives, local authorities and the Scottish Executive (Condition J2.5); and*
 - (ii) where the train operator is dissatisfied with the terms on which Network Rail proposes to permit the adjustment or surrender of rights, the parties can go to expert determination if they prefer, rather than going to arbitration (Condition J 2.11).*
- D. *Condition J3 (confidentiality) is also taken from existing passenger and freight track access agreements. It is intended to ensure that confidential information relating to a proposed surrender or adjustment of access rights is dealt with in a way that protects the interests of all parties, including other train operators who have provided information to Network Rail under an access agreement where disclosure would or might, in Network Rail's reasonable opinion, seriously and prejudicially affect the interests of that train operator.*

- E. Condition J4 (failure to use) is one of two elements to the use it or lose it (UIOLI) mechanism in Part J. It empowers Network Rail to initiate a process leading to the loss of an operator's rights, but does not require Network Rail to do so. As such, it differs from the use it or lose it mechanism in Condition J5.
- F. Condition J4.2.1 provides that a failure to use in respect of a quantum firm right shall occur:
- (a) if in any first working timetable established by Network Rail after the commencement date the train operator fails to secure one or more train slots in respect of that quantum firm right; or
 - (b) the train operator fails to make use of a train slot in the working timetable, which relates to that quantum firm right.
- G. A train operator will fail to make use of a train slot if it uses it for less than the use quota during the relevant use period. Both the use quota and the use period are to be determined and revised from time to time by the Office of Rail Regulation, after such consultation as it considers appropriate. Following such a determination or revision, details of the use quota and use period must be published by Network Rail in its network statement. A period of non-use which would otherwise count under the UIOLI mechanism must be disregarded if and to the extent that it is attributable to non-economic reasons beyond the train operator's control or if it is due to a strike or other industrial action. The non-use must also be continuing, so that Network Rail cannot initiate the mechanism where the non-use happened some time in the past, but was no longer continuing. This means that where a train operator has failed to use a train slot to the extent required by the use quota, but then uses the relevant train slot and achieves the quota, Network Rail must initiate the UIOLI process within 20 working days of the use quota being met.
- H. The UIOLI mechanism starts with Network Rail serving a failure to use notice on the train operator and copying it to the Office of Rail Regulation. The notice must specify details of the failure to use and the rights which Network Rail requires the train operator to surrender. If the operator accepts Network Rail's request to surrender the right then the rights are surrendered subject to the consent of the Office of Rail Regulation. If the train operator disagrees and wishes to retain the rights, within 10 working days of receipt of the failure to use notice it must serve a counter notice on Network Rail and copy it to the Office of Rail Regulation specifying that: there had been no failure to use; and/or that the failure to use was not continuing at the date the failure to use notice was served; and/or that there are grounds for objection to the proposed surrender.

- I. *If the train operator believes that it has grounds for objection to the proposed loss of rights, it must specify them. For a passenger train operator, the grounds for objection could be that the rights specified by Network Rail are essential for the fulfilment of the train operator's obligations under a franchise agreement. For a freight train operator, they could be that the operator has a reasonable on-going commercial need in respect of the rights in question. Both classes of operator could also argue that the rights in question relate to an enhancement to the network which the train operator is contracted to pay for through access charges.*
- J. *If the parties agree that a failure to use did not occur or did not come within the scope of the UIOLI mechanism, Network Rail's request to surrender the relevant rights falls. If the parties cannot agree, there is provision for the matter to go to arbitration or, if the parties prefer, expert determination. In all cases the surrender of rights is subject to the consent of the Office of Rail Regulation. The Office of Rail Regulation can give its consent to the surrender of part only of the rights.*
- K. *Condition J5 (failure to use: third party application) is the second element of the UIOLI mechanism in Part J. It deals with circumstances where a third party train operator wishes to use capacity on the network which it considers the train operator is not using and where the third party train operator cannot otherwise gain the access it wishes. In many respects the procedure is the same as that under Condition J4, but there are some important differences:*
- (a) if Network Rail receives an application from a third party train operator (the applicant), it must initiate the UIOLI mechanism if the train slot requested: relates to a section of congested infrastructure as defined in Directive 2001/14/EC¹; was secured in exercise of an incumbent operator's quantum firm right; and there has been a continuing failure to use by the incumbent operator. This is unlike Condition J4, where Network Rail can choose whether to initiate the mechanism;*
 - (b) the incumbent operator cannot cite the grounds for objection available under Condition J4 (e.g. that the right is essential for the fulfilment of the its franchise agreement or, in the case of a freight train operator, that it has a reasonable on-going commercial need to the right); and*
 - (c) whilst any dispute is between the incumbent train operator and Network Rail, the applicant is bound to accept that the award or determination will dispose of the matter as between the applicant and Network Rail as well.*

¹ 'Congested infrastructure' is defined in Article 2 of Directive 2001/14/EC as 'a section of infrastructure for which demand for infrastructure capacity cannot be fully satisfied during certain periods even after coordination of the different requests for capacity'.

- L. Condition J6 (cordon cap reduction (failure to use)) provides for the reduction of the incumbent operator's cordon cap where it loses rights under the UIOLI mechanism. This is necessary because cordon caps are not in themselves rights, or characteristics of rights, but are a restriction on the train operator's use of a right². Condition J6.1 provides that Condition J6 cannot apply in isolation from the use it or lose it mechanism. So, for example, if Network Rail initiates the UIOLI mechanism in respect of level 2 rights and the train operator succeeds in retaining those rights, Network Rail cannot continue the process under Condition J6 in order to reduce the train operator's cordon cap in respect of those rights.
- M. The process in Condition J6.2 is intended to ensure that any changes to cordon caps can be dealt with as part of the related UIOLI mechanism. Network Rail must initially specify any reduction to an existing cordon cap that it considers should be made if the train operator's associated rights are surrendered. In doing so, Network Rail must consider what is reasonable in all the circumstances, having regard to any rules or criteria on the interpretation of the expression 'reasonable on-going commercial need' (see Condition J13). The proposed reduction must be specified in a notice to the train operator and the train operator can agree or disagree with the proposed reduction. If the train operator disagrees, there is provision for disputes to be resolved by arbitration or expert determination. As with the UIOLI mechanism, any reduction in the incumbent's cordon cap must be subject to the Office of Rail Regulation's consent. The Office of Rail Regulation can, instead of giving its consent to, or rejecting, the reduction submitted to it, determine the appropriate reduction itself, after consultation with the parties.
- N. Condition J7 (freight transfer mechanism) applies only to freight train operators. It is based on the existing transfer mechanism in freight track access agreements, but has been amended in a number of material respects. The purpose of the mechanism is to ensure the smooth transfer of rights where an operator wins existing freight traffic from an incumbent freight train operator.

² A cordon cap is the maximum number of train slots per day in a given direction in respect of a service to which a level 2 right applies which is planned to go via a named cordon on the network. Cordon caps are used for parts of the network where capacity is constrained, allowing for other operators' firm rights and in some cases a margin of unused capacity for other potential operators or short term spot bidding. Without the cordon caps, Network Rail would be required to include more train slots in the working timetable than the network could accommodate.

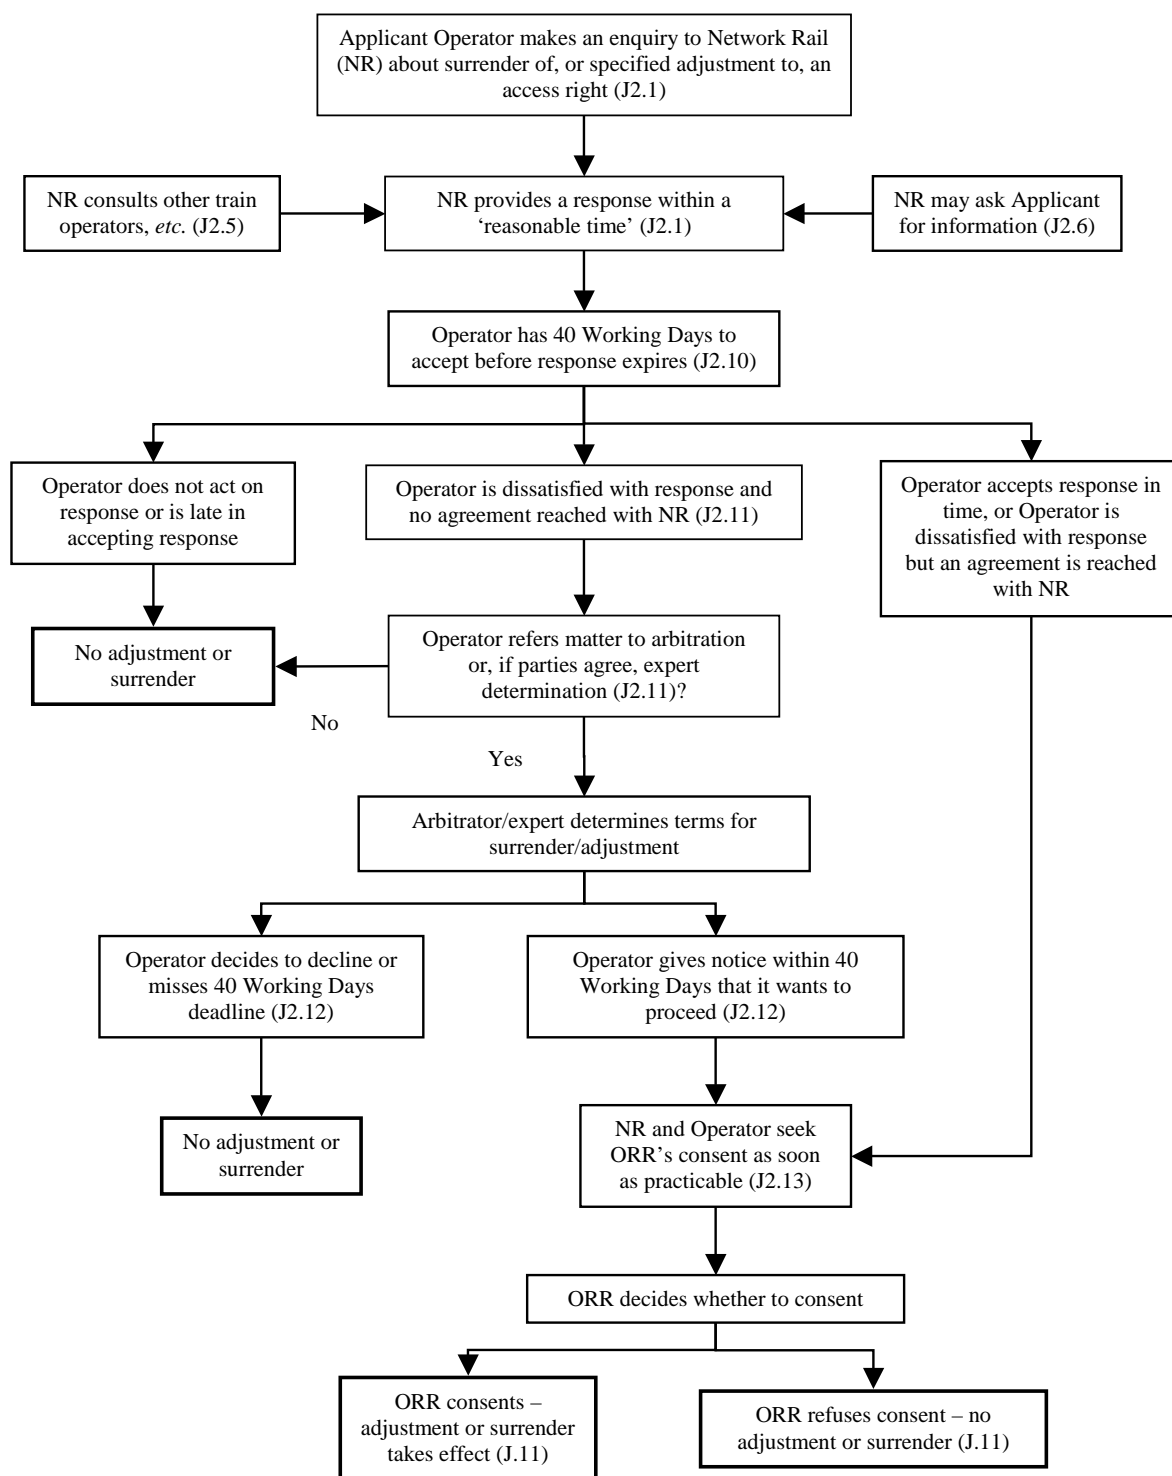

- O. *The transfer mechanism must be triggered by the applicant train operator making a request to Network Rail that a quantum firm right for the provision of transport services to a third party, which the applicant will replace another train operator (the incumbent) in providing, should be transferred to it. In serving notice on Network Rail, the applicant should also copy its request to the incumbent train operator, so as to give it as much advance warning as possible. Network Rail must then serve a third party notice on the incumbent train operator specifying the quantum firm rights sought by the applicant and the corresponding existing right of the incumbent which Network Rail requests it to surrender. The incumbent operator can accept the proposed surrender, or contest it by giving a counter notice within 10 working days, arguing that it has a reasonable on-going commercial need for the rights in question and providing evidence in support of its contention. If Network Rail does not accept the incumbent's argument, there is provision for disputes to be resolved either by arbitration or, if the parties prefer, by expert determination. Whilst the dispute resolution is between the incumbent and Network Rail, Condition J7.8.3 requires the applicant to accept that the award or determination of the arbitrator or the expert will dispose of the matter between the applicant and Network Rail as well.*
- P. *Where it has been agreed or determined that the incumbent operator should give up a right, the right is surrendered by the incumbent and transferred to the applicant from the same date. The period of time the right will be enjoyed by the applicant is the remaining period over which the incumbent would have enjoyed the right, or until the expiry of the applicant's access agreement, whichever is the shorter. The service characteristics of the rights transferred must be substantially the same (although there may be slight differences between the rights surrendered by the incumbent and the rights given to the applicant). Unlike the UIOLI process, the transfer mechanism does not require the Office of Rail Regulation's consent to the modifications to the incumbent's and applicant's access agreements, although it does require the Office of Rail Regulation to be notified of these modifications.*
- Q. *Condition J8 (cordon cap reduction (transfer)) is akin to Condition J6 in that it deals with reductions to cordon caps as part of the transfer mechanism in the same way that Condition J6 deals with reductions in cordon caps associated with the UIOLI mechanism. Condition J8.1 ensures that the mechanism for adjusting cordon caps must be associated with the transfer mechanism and that it cannot be used unilaterally (e.g. if the applicant fails to secure the transfer of a right under the transfer mechanism, it cannot require the reduction of the incumbent's associated cordon cap). The main difference between Condition J7 and Condition J8 is that the Office of Rail Regulation's consent is required to*

the adjustment of cordon caps, whereas it is not required to the transfer of the associated rights. This recognises that there is a significant degree of discretion required as to the appropriate adjustment in the level of cordon caps associated with the transfer of rights. As is the case with the reduction of cordon caps under Condition J6, the Office of Rail Regulation can elect to determine the appropriate adjustment of cordon caps, after consultation with the parties, rather than give its consent to, or reject, the adjustment submitted to it.

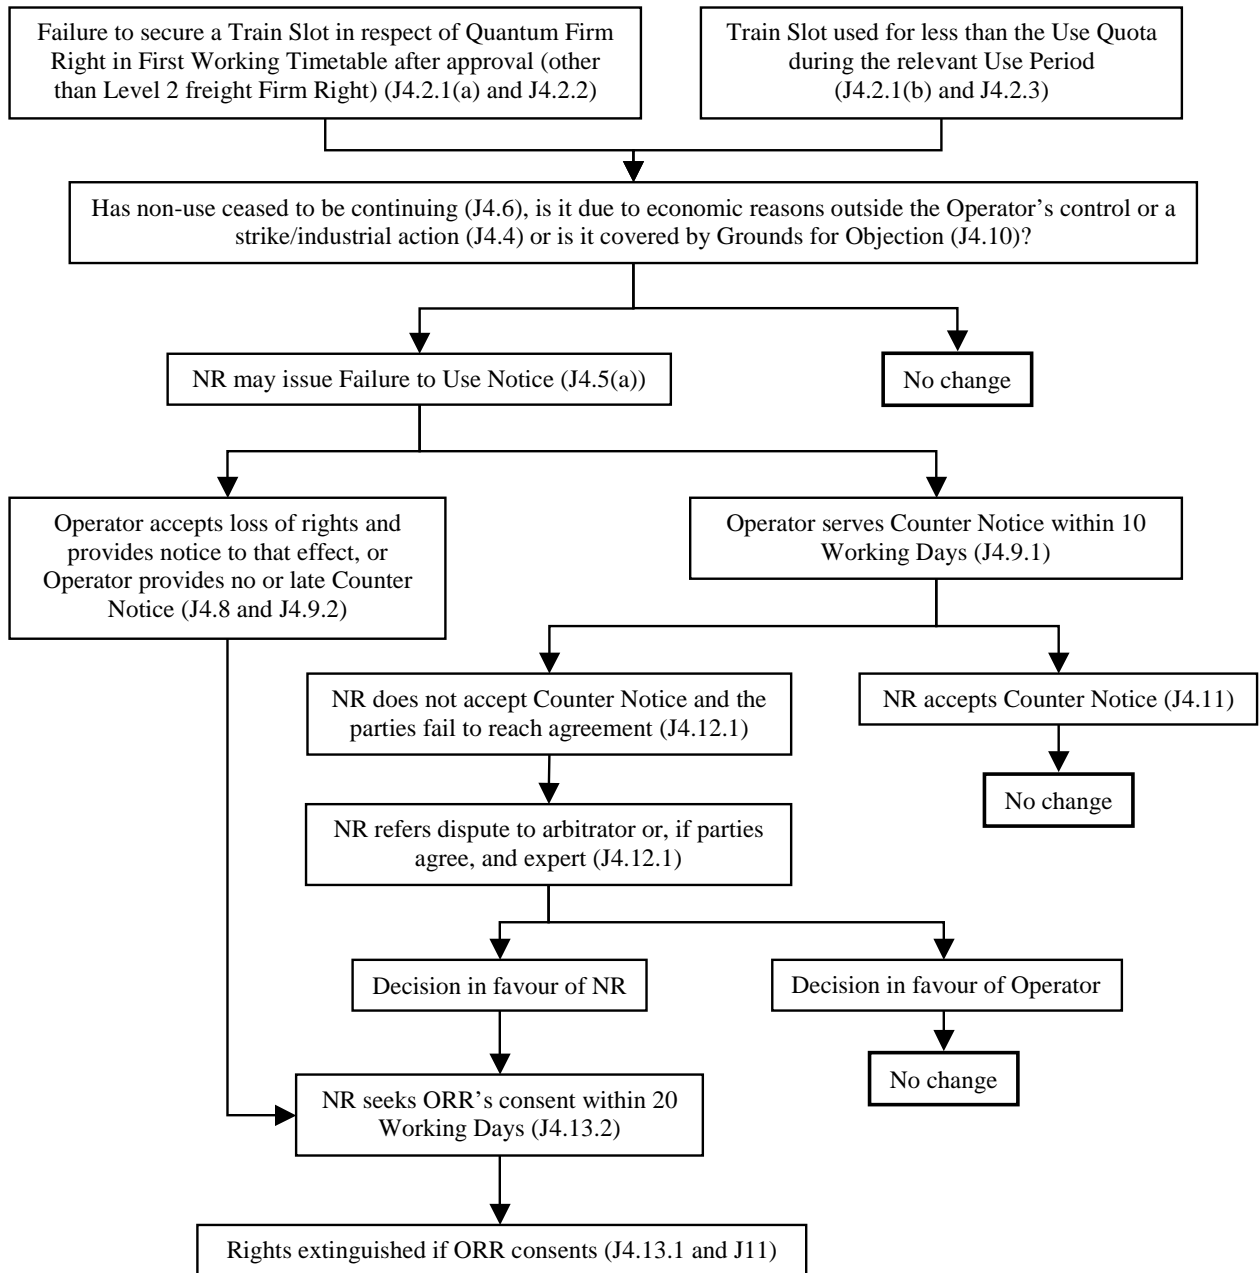

- R. Condition J9 (rights review meetings) has no precedent in existing track access agreements. It is confined to freight train operators (Condition J9.1.1). It sets out a process by which Network Rail and the train operator will hold six-monthly rights review meetings at which they will consider whether the train operator has rights for which it no longer has a reasonable on-going commercial need. A rights review meeting will also consider whether there should be any reduction in the train operator's cordon caps.
- S. The process starts with Network Rail serving a notice specifying any rights or cordon caps which Network Rail believes should be removed or reduced on the grounds that Network Rail considers the train operator no longer has a reasonable on-going commercial need for them. If the train operator agrees with Network Rail, the rights can be removed or the cordon cap reduced without the meeting going ahead. Similarly, the meeting could agree either to reduce the number of rights or the levels of the cordon caps, or that the train operator has a reasonable on-going commercial need to the existing level of rights and cordon caps. If the parties have not been able to agree, there is provision for disputes to be taken to arbitration, or, if the parties prefer, expert determination. In all cases, any reduction in rights or of the level of cordon caps can only take place with the Office of Rail Regulation's consent. The Office of Rail Regulation can elect to give its consent to the surrender of some of the rights, or, after consultation with the parties, determine itself the appropriate reduction to cordon caps.
- T. Condition J10 (arbitration and expert determination under Part J) includes provisions setting out the remit of the arbitrator or expert when dealing with disputes under Part J.
- U. Condition J11 (Office of Rail Regulation consent or determination) provides that the Office of Rail Regulation can elect: (a) to give its consent to the surrender or transfer of part only of the rights for which its consent is sought; and (b) to determine itself the cordon cap adjustment for which its consent is sought, following consultation with the parties. It also provides that the modifications to which the Office of Rail Regulation gives its consent or which it determines have effect from the date specified in the relevant notice.

- V. *Condition J12 requires Network Rail to publish notices given or received and a statement of every material step taken in accordance with Part J, in order that persons holding or contemplating holding or surrendering access rights can be informed about how the allocation of capacity on the network might change over time.*
- W. *Condition J13 (reasonable on-going commercial need) provides for rules or criteria to be established on the interpretation of the expression reasonable on-going commercial need, which is used in several of the mechanisms in Part J as they affect freight train operators. The rules or criteria should be determined and published by Network Rail, following consultation with the Strategic Rail Authority and freight train operators and after approval by the Office of Rail Regulation. If the Office of Rail Regulation does not approve rules or criteria proposed by Network Rail, or Network Rail does not submit its proposed rules or criteria within 10 working days of Part J coming into effect, the Office of Rail Regulation can issue a notice requiring it to publish the rules or criteria specified in the notice and if Network Rail fails to comply with such a requirement the Office of Rail Regulation can publish the rules or criteria itself. Any such notice issued by the Office of Rail Regulation must follow consultation with Network Rail, the Strategic Rail Authority and freight train operators.*

2.1 *Obligation of Network Rail to answer Train Operator’s Relevant Enquiries*

Network Rail shall provide the Train Operator with a Relevant Response within a reasonable time of the making of a Relevant Enquiry.

2.4 *Pre-existing obligations of confidence*

Nothing in this Condition J2 shall require Network Rail to break an obligation of confidence which arose before 1 April 1994.

- (i) other operators of trains and persons whom it has reason to believe intend to become operators of trains; and
- (ii) any Funders which may be directly affected and of which Network Rail is aware, or ought reasonably to have been aware,

as shall be necessary or expedient so as to enable Network Rail properly to inform itself of the effects on the capacity of the track in question which the Specified Relevant Surrender or Specified Relevant Adjustment in question, if made, is likely to have.

2.6 *Obligation to co-operate*

2.6.1 If:

- (a) Network Rail has made any enquiry of a Train Operator in relation to a Relevant Enquiry made by that Train Operator or any other Train Operator under this Condition J2; and

- (b) the enquiry is one which the Train Operator may reasonably be expected to answer,

the Train Operator shall provide Network Rail with a response to the enquiry to the extent and in the amount of detail which is reasonable in the circumstances.

- 2.6.2 Information provided in any response under Condition J2.6.1 shall be treated as Qualifying Information and Condition J3 shall apply accordingly.

2.7 *Estimated costs of providing Relevant Response*

The Train Operator shall:

- (a) be entitled to make any request of the kind referred to in Condition J2.7 at the time of making of the Relevant Enquiry in question and at any time and from time to time thereafter, and the failure of the Train Operator to make any such request on any occasion shall not prejudice its right to make such a request on a later occasion;
- (b) pay to Network Rail an amount calculated pursuant to Condition J2.9; and
- (c) be entitled to receive from Network Rail, on request, a certificate from its auditors verifying that the costs referred to in Condition J2.9 have been incurred in providing the Relevant Response.

- 2.9.1 The amount referred to in Condition J2.8(b) shall be an amount equal to 75 per cent of the amount of those of Network Rail's reasonable costs of providing the Relevant Response which exceed £1,000 (excluding VAT). Such amount shall be payable not later than 20 Working Days after the later of:

- (a) the date upon which the Relevant Response shall be provided; and

- (b) the date upon which Network Rail requests payment of the amount in question in an invoice which is sufficient for the purposes of Value Added Tax.

2.9.2 For the purposes of this Condition J2, Network Rail's costs shall include a fair allocation of its administrative and other regional and national costs of carrying on its business.

2.10 *Right to elect to surrender or adjust Access Rights*

If, following receipt of a Relevant Response, the Train Operator:

- (a) wishes to make a Specified Relevant Surrender or have a Specified Relevant Adjustment effected; and
- (b) accepts the amounts payable and sharing of the Relevant Financial Consequences proposed by Network Rail in the Relevant Response.

it shall be entitled to do so:

- (i) upon giving to Network Rail a notice to that effect not later than 40 Working Days after the date upon which it receives the Relevant Response in question; and

- (a) the Train Operator shall give notice to Network Rail as to whether it elects to exercise that entitlement; and
- (b) if the Train Operator gives notice pursuant to Condition J2.12.1(a) of an election to exercise such an entitlement, it shall send a copy of the arbitrator's or expert's decision to the Office of Rail Regulation.

2.12.2 A notice under Condition J2.12.1(b) above shall be given within 40 Working Days of the date of the arbitrator's or expert's decision, and, if not given within that time, the Train Operator shall lose the entitlement in question.

2.13 *Office of Rail Regulation's consent to surrender or adjustment of access rights*

2.13.1 A Relevant Surrender or Relevant Adjustment shall have effect only with the Office of Rail Regulation's consent.

- (a) whether or not to give its consent to the making of the Relevant Surrender or Relevant Adjustment in question; and
- (b) the date from which the Relevant Surrender or Relevant Adjustment shall have effect.

3. Confidentiality

3.1 *Affected Persons and their interests*

If, having received a Relevant Enquiry, Network Rail has reasonable grounds for believing that, in order to provide the Relevant Response:

- (a) it is necessary for it to disclose to the Train Operator any Qualifying Information; and

- (b) such disclosure would or might, in Network Rail's reasonable opinion, seriously and prejudicially affect the interests of the Affected Person,

Network Rail shall give notice to that effect to the Train Operator.

3.2 *Train Operator's right to elect for Relevant Response without Qualifying Information*

3.2.1 Having received a notice from Network Rail pursuant to Condition J3.1, the Train Operator shall be entitled, by notice given to Network Rail, to elect either:

- (a) that the Relevant Response be provided to it without the Qualifying Information; or
- (b) that Network Rail should give notice to the Affected Person in question pursuant to Condition J3.4 and thereafter comply with the procedures established in this Condition J3.

3.2.2 Network Rail shall not proceed with its preparation of the Relevant Response until the Train Operator has made its election.

3.3 *Relevant Response without Qualifying Information*

3.3.1 If the Train Operator makes an election pursuant to Condition J3.2.1(a):

- (a) Network Rail shall proceed to prepare and provide the Relevant Response so as to omit the Qualifying Information; and
- (b) if, having received a Relevant Response of the kind referred to in Condition J3.3.1(a), the Train Operator wishes Network Rail to revise it so as to include any Qualifying Information, it shall be entitled to do so by notice to Network Rail.

3.3.2 If the Train Operator gives notice to Network Rail pursuant to Condition J3.3.1(b), Network Rail shall proceed to give notice to the Affected Person in question pursuant to Condition J3.4 and thereafter comply with the procedures established in this Condition J3.

3.4 *Relevant Response with Qualifying Information*

If the Train Operator makes an election pursuant to Condition J3.2.1(b), Network Rail shall give notice to the Affected Person that it has grounds for a belief of the kind referred to in Condition J3.1.

3.5 *Contents of notice to Affected Person*

The notice given to the Affected Person pursuant to Condition J3.4 shall be accompanied by:

- (a) a statement of the information which Network Rail considers it necessary to disclose; and

- (b) a statement to the effect that, unless the Affected Person gives notice to Network Rail within 15 Working Days of his receipt of the notice that he objects to the disclosure in question, that person shall have lost the right to object to its disclosure.

3.6 *Entitlement of Network Rail to include Qualifying Information if no Notice of Objection*

Subject to Condition J2.4, if no Notice of Objection has been given to Network Rail within the Period for Objections, Network Rail shall be entitled to include the Qualifying Information in the Relevant Response.

3.7 *Discretion of Chairman to order confidentiality*

3.7.1 If Network Rail has received a Notice of Objection within the Period for Objections, it shall immediately give notice of that fact to the Train Operator and the Chairman.

3.7.2 The notice given to the Train Operator pursuant to Condition J3.7.1 shall not contain any indication as to the identity of the Affected Person, whether by stating its name, the nature of its business or any information which may enable the Train Operator to determine its identity.

3.7.3 The notice given to the Chairman shall be accompanied by:

- (a) a copy of the Notice of Objection;
- (b) an explanation by Network Rail as to its reasons for the belief referred to in Condition J3.1; and
- (c) a request for directions of the kind referred to in Condition J3.7.4.

3.7.4 The parties shall comply with such directions which the Chairman gives them in relation to the preservation of the positions of the parties (including the Affected Person) and the confidentiality of the Qualifying Information pending the determination of the matter. No such directions shall have effect for a period which is longer than 90 days without being renewed by the Chairman.

3.8 *Chairman's directions as to preservation of confidentiality of Qualifying Information*

3.8.1 In a case to which Condition J3.7 applies, and subject to Condition J2.4, Network Rail shall be entitled to include Qualifying Information in a Relevant Response except where directed not to do so by the Chairman, to the extent stated and subject to such conditions (if any) as shall be specified in the direction (a "Confidentiality Direction").

3.8.2 No Relevant Response containing Qualifying Information shall be given until after the expiry of the period specified by the Chairman in any directions of the kind referred to in Condition J3.7.4.

3.9 *Grounds on which Chairman may order confidentiality*

A Confidentiality Direction shall only have effect if:

- (a) it is stated by the Chairman to have been given on the grounds that:
 - (i) the disclosure to the Train Operator of the Qualifying Information in question would or might seriously and prejudicially affect the interests of the Affected Person; and
 - (ii) such prejudice outweighs or is likely to outweigh the interests of operators and potential operators of railway assets on the part of the Network in question in its disclosure to the Train Operator, having due regard to the matters about which duties are imposed on the Office of Rail Regulation by section 4 of the Act; and
- (b) the Chairman has complied with the requirements specified in Conditions J3.11 and J3.12.

3.10 *Opportunity to make representations to Chairman*

3.10.1 Within 20 Working Days of the Chairman's receipt of a notice pursuant to Condition J3.7.1 (or such longer period as the Office of Rail Regulation shall allow), each of Network Rail, the Train Operator and the Affected Person shall be entitled to make representations to the Chairman:

- (a) as to whether it considers that the Chairman should exercise his discretion to give a Confidentiality Direction; and, if so
- (b) the extent and conditions of the Confidentiality Direction.

3.10.2 Any such representations shall be accompanied by the reasons why the person in question believes the Chairman should or should not (as the case may be) give a Confidentiality Direction.

3.11 *Hearing on confidentiality representations*

If he has received any representations of the kind contemplated by Condition J3.10, the Chairman shall be entitled to hear the parties on the matter. The Chairman has an absolute discretion as to the procedure to be followed in any such hearing, and may at any time amend it if he considers it necessary to do so for the fair resolution of the matter.

3.12 *Written reasons for decision*

If any representations have been made to him pursuant to Condition J3.10, unless the parties concerned otherwise agree, the Chairman shall provide them with his reasons for his determination. Such reasons shall be given in writing.

3.13 *Appeal against Chairman's determination*

If Network Rail, the Train Operator or the Affected Person is dissatisfied with the Chairman's determination, it may refer the matter to the Office of Rail Regulation under Part M.

3.14 *Immunities of Chairman and Office of Rail Regulation*

3.14.1 Neither the Chairman nor the Office of Rail Regulation shall be liable in damages or otherwise for any act or omission to act on their part (including negligence) in relation to any reference to them under this Condition J3.

3.14.2 Each of the Train Operator and Network Rail shall:

- (a) indemnify and hold harmless the Chairman, the Office of Rail Regulation and each other against every claim which may be made against any of them in relation to any of the matters referred to in Condition J3.16.1; and
- (b) to the extent that it is the creditor in the indemnity in Condition J3.16.2(a) above, hold the benefit of that indemnity upon trust as bare trustee for the benefit of the Chairman and the Office of Rail Regulation.

3.14.3 No provision of the Access Agreement which operates so as to exclude or restrict the liability of either party shall apply to the obligations of the parties under this Condition J3.16.

3.15 *Preservation of confidentiality of Qualifying Information pending determination*

3.15.1 In making any determination of the kind contemplated by this Condition J3, the remit of the Chairman and the Office of Rail Regulation shall include a requirement that:

- (a) any hearing of the kind contemplated by Condition J3.11 shall be conducted in such a way as not to disclose any part of the Qualifying Information; and
- (b) the reasons for the Chairman's determination shall, if given to the parties, not disclose to the Train Operator any part of the Qualifying Information.

3.15.2 If a reference has been made to the Office of Rail Regulation pursuant to Condition J3.13, the Chairman shall be required by the parties to provide to the Office of Rail Regulation all Relevant Information in relation to his decision, including his reasons, without any omissions which may have been necessary in order to comply with Condition J3.17.1(b)

3.16 *Obligation to provide Confidentiality Undertaking*

3.16.1 If:

- (a) an Affected Person has given notice to Network Rail that it does not propose to give a Notice of Objection within the Period for Objections; or
- (b) the Chairman has determined that no Confidentiality Direction shall be given in relation to Qualifying Information; or
- (c) the Office of Rail Regulation has determined that a determination of the Chairman of the kind referred to in Condition J3.18.1(b) shall be confirmed in whole or in part; or
- (d) the Office of Rail Regulation has determined that a Confidentiality Direction shall not be confirmed in whole or in part;

and

- (e) the Affected Person requires Network Rail to procure that the Train Operator gives a Confidentiality Undertaking for the benefit of the Affected Person,

the Train Operator shall deliver to Network Rail an undertaking of strict confidentiality in relation to the Qualifying Information (a “Confidentiality Undertaking”).

3.16.2 A Confidentiality Undertaking shall:

- (a) contain an undertaking that the person giving it will hold the Qualifying Information disclosed to it strictly confidential and will not, without the consent of the Affected Person, disclose it to any person except in any of the circumstances referred to in Clause 14.2(a)-(k) (entitlement to divulge) of the ORR’s Model Passenger Track Access Contract, subject to the conditions which apply to such disclosures under that Clause;
- (b) contain no limitations on the liability of the person who gives it in the case of its breach; and
- (c) in every other respect, be unqualified.

3.16.3 A Confidentiality Undertaking shall be:

- (a) given to Network Rail by the Train Operator as soon as reasonably practicable after Network Rail has requested the Train Operator to provide it; and
- (b) held by Network Rail upon trust for the Affected Person.

3.16.4 If the Train Operator fails to comply with its obligations under this Condition J3.18, Network Rail shall not include the Qualifying Information in its Relevant Response.

4. Failure to Use

4.1 *Application of Conditions J4 and J5*

Conditions J4 and J5 shall apply also to a Failure to Use where the condition in Condition J4.2.1 is satisfied in whole or in part before the date on which these Conditions take effect.

4.2 *Failure to Use*

4.2.1 Subject to Conditions J4.2.2, J4.2.3 and J4.4, a Failure to Use in relation to a Quantum Firm Right occurs if:

- (a) in any First Working Timetable (as defined in Part D) established by Network Rail after the Commencement Date, the Train Operator fails to secure one or more Train Slots in respect of that Quantum Firm Right; or
- (b) the Train Operator fails to make use of a Train Slot which has been included in the Working Timetable and which relates to that Quantum Firm Right.

4.2.2 Condition J4.2.1(a) shall not apply to Level Two Rights.

4.2.3 For the purposes of Condition J4.2.1(b), the Train Operator fails to make use of a Train Slot if it uses the Train Slot for less than the Use Quota during the relevant Use Period.

4.3 *Use Quota and Use Period*

4.3.1 The Use Quota and Use Period:

- (a) shall be as determined, and revised from time to time, by the Office of Rail Regulation for the purpose of this Condition J4.3 following such consultation as the Office of Rail Regulation may consider appropriate; and
- (b) following such determination or revision, shall be published by Network Rail in its network statement, in accordance with Article 3 of EU Directive 2001/14/EC, and on its website.

4.3.2 The Office of Rail Regulation may:

- (a) determine different Use Quotas and/or different Use Periods for different categories of services for the carriage of:
 - (i) passengers by railway; and
 - (ii) goods by railway;
- (b) specify the characteristics of train movements that will count or will not count, as applicable, toward any Use Quota; and
- (c) specify such other matters as the Office of Rail Regulation considers are necessary or expedient to give effect to any Use Quota and any Use Period.

- 4.3.3 For the purposes of determining the Use Quota and Use Period in accordance with this Condition J4.3, the Office of Rail Regulation may carry out all or any part of the consultation before this Part J comes into effect.

4.4 *Certain periods to be disregarded*

Any period of non-use shall be disregarded for the purpose of determining whether a Failure to Use has occurred under Condition J4.2.1(a) or (b) if, and to the extent that, such non-use is attributable to:

- (a) non-economic reasons beyond the Train Operator's control; or
- (b) a strike or other industrial action.

4.5 *Service of Failure to Use Notice*

If Network Rail considers there is a Failure to Use by a Train Operator and that Failure to Use is continuing:

- (a) it may serve a Failure to Use Notice on the Train Operator requiring the Train Operator to surrender Rights Subject to Surrender; and
- (b) if it does so, it shall send a copy of the notice to the Office of Rail Regulation.

4.6 *Cessation of Failure to Use*

A Failure to Use shall cease to be continuing for the purpose of Condition J4.5 if:

- (a) in relation to a Failure to Use under Condition J4.2.1(a):
 - (i) the Train Operator Bids for a Train Slot in respect of the relevant Quantum Firm Right before the compilation of a subsequent First Working Timetable; and
 - (ii) Network Rail has not served a Failure to Use Notice before the Bid under Condition J4.6(a)(i) is made; and
- (b) in relation to a Failure to Use under Condition 4.2.1(b):
 - (i) the Train Operator makes use of a relevant Train Slot such that the Use Quota is met; and
 - (ii) Network Rail has not served a Failure to Use Notice within 20 Working Days of the condition in Condition J4.6(b)(i) being satisfied in whole.

4.7 *Contents of a Failure to Use Notice*

A Failure to Use Notice shall specify:

- (a) the Failure to Use which Network Rail considers has occurred;
- (b) the Rights Subject to Surrender which Network Rail requires the Train Operator to surrender; and

- (c) the date on which the surrender is intended to take effect.

4.8 *Acceptance of surrender*

Subject to the Office of Rail Regulation consenting to the surrender in accordance with Condition J4.13, if the Train Operator agrees to the surrender specified in the Failure to Use Notice then:

- (a) it shall give notice in writing to that effect to Network Rail; and
- (b) the Rights Subject to Surrender shall be surrendered with effect from the date specified in the Failure to Use Notice or, if later, the date on which the Office of Rail Regulation consents to the surrender in accordance with Condition J4.13.

4.9 *Counter Notice*

4.9.1 The Train Operator may, within 10 Working Days of receipt of a Failure to Use Notice, serve a Counter Notice on Network Rail stating that:

- (a) there has been no Failure to Use or that the Failure to Use was not continuing at the date of the service of the Failure to Use Notice; and/or
- (b) any Ancillary Movements and/or Stabling specified in the Failure to Use Notice as being Rights Subject to Surrender:
 - (i) are not directly associated with the relevant Quantum Firm Right; and/or
 - (ii) would still be required by the Train Operator following the surrender of the relevant Quantum Firm Right; and/or
- (c) there are Grounds for Objection to the proposed surrender within Condition J4.10, detailing the Grounds for Objection on which it relies,

and must provide evidence with the Counter Notice in support of its contentions. The Train Operator shall send a copy of any Counter Notice and such evidence to the Office of Rail Regulation.

4.9.2 If no Counter Notice is served within 10 Working Days of receipt of a Failure to Use Notice, the Train Operator will be deemed to have agreed to the surrender specified in the Failure to Use Notice.

4.10 *Grounds for Objection*

4.10.1 The Train Operator may object to a surrender specified in a Failure to Use Notice relating to services for the carriage of passengers by railway on the grounds that:

- (a) the Rights Subject to Surrender are essential for the fulfilment of the Train Operator's obligations under the Train Operator's franchise agreement; or

- (b) the Rights Subject to Surrender relate to an enhancement of the Network for which the Train Operator is contracted to pay through access charges.

4.10.2 The Train Operator may object to a surrender specified in a Failure to Use Notice relating to services for the carriage of goods by railway on the grounds:

- (a) set out in Condition J4.10.1(b); or
- (b) that it has a reasonable on-going commercial need in respect of any or all of the Rights Subject to Surrender.

4.11 *Cessation of notice*

If the Train Operator and Network Rail agree or it is determined:

- (a) that the matters set out in Condition J4.9.1(a) or (b) have been substantiated;
or
- (b) that the Train Operator's Grounds for Objection have been substantiated in respect of any or all of the Rights Subject to Surrender,

the Failure to Use Notice shall cease to have effect to the extent so agreed or determined.

4.12 *Dispute resolution*

4.12.1 If within five Working Days of receipt by Network Rail of a Counter Notice the Train Operator and Network Rail have:

- (a) failed to reach any agreement on the matters referred to in Condition J4.9.1;
and
- (b) not otherwise agreed in writing to refer the matter for expert determination under Part D of the Access Dispute Resolution Rules in force at the time of the reference (as modified by Condition J10),

Network Rail shall refer the matter to arbitration in accordance with Part C of the Access Dispute Resolution Rules in force at the time of the reference (as modified by Condition J10).

4.12.2 The arbitrator's or expert's decision (including any modifications of the provisions of the Access Agreement contemplated in the decision) shall have effect on the date the Office of Rail Regulation gives its consent to those modifications, or such other date as the Office of Rail Regulation may notify the parties under Condition J4.13.

4.13 *Office of Rail Regulation's consent to surrender of Rights Subject to Surrender*

4.13.1 A surrender of Rights Subject to Surrender specified in a Failure to Use Notice shall have effect only with the Office of Rail Regulation's consent.

4.13.2 Network Rail shall submit the relevant modifications to the Access Agreement to the Office of Rail Regulation for consent within 20 Working Days of the date of:

- (a) the Train Operator's acceptance of the proposed surrender under Condition J4.8;
- (b) the Train Operator's deemed acceptance of the proposed surrender under Condition J4.9.2; or
- (c) the arbitrator's or expert's decision pursuant to a reference under Condition J4.12.

4.13.3 Network Rail and the Train Operator shall use all reasonable endeavours to procure that the Office of Rail Regulation is furnished with sufficient information and evidence as it requires to determine:

- (a) whether or not to give its consent to the modification in question; and
- (b) the date from which the modification shall have effect.

4.14 *Bids*

Where any Rights Subject to Surrender surrendered under this Condition J4 include the surrender of a Bid, Network Rail's obligations under Condition D4.7.1 shall cease to have effect in respect of that Bid as from the date the surrender takes effect in accordance with this Condition J4.

5. Failure to Use: third party application

5.1 *Third Party Failure to Use Notices*

If:

- (a) Network Rail receives an application from a Train Operator ("the Applicant") for a Quantum Firm Right to a Train Slot; and
- (b) the Train Slot:
 - (i) is in respect of a section of congested infrastructure;
 - (ii) was secured in exercise of a Quantum Firm Right of another Train Operator ("the Incumbent"); and
 - (iii) is one in respect of which there is a continuing Failure to Use by the Incumbent,

then as soon as reasonably practicable following receipt of the Applicant's application Network Rail shall serve a Third Party Failure to Use Notice on the Incumbent and send a copy of the notice to the Office of Rail Regulation.

5.2 *Cessation of Failure to Use*

For the purposes of Condition J5.1(b)(iii), whether a Failure to Use has ceased to be continuing shall be determined in accordance with Condition J4.6.

5.3 *Contents of a Third Party Failure to Use Notice*

A Third Party Failure to Use Notice shall specify:

- (a) the Failure to Use which Network Rail considers has occurred;
- (b) the Rights Subject to Surrender, which Network Rail requires the Incumbent to surrender; and
- (c) the date on which the surrender is intended to take effect.

5.4 *Application of Conditions*

The following Conditions shall apply following service on the Incumbent of a Third Party Failure to Use Notice as they apply to a Failure to Use Notice:

- (a) J4.8 (acceptance of surrender);
- (b) J4.9 (Counter Notice) but not J4.9.1(c);
- (c) J4.11 (cessation of notice) but only to the extent any agreement or determination referred to in that Condition relates to the matters set out in Condition J4.9.1(a) or (b);

- (a) the Failure to Use Notice or the Third Party Failure to Use Notice, as applicable, in addition to the matters set out in Condition J4.7 or J5.3, as applicable, may specify any reduction to an Existing Cordon Cap (“the Cordon Cap Reduction”) that Network Rail considers should be made if Rights Subject to Surrender were surrendered by the Train Operator under Conditions J4 or J5, as applicable;
- (b) the Cordon Cap Reduction shall be based on Network Rail’s assessment of the Train Operator’s reasonable on-going commercial need for its Existing Cordon Cap, having had regard to any rules or criteria as determined and published from time to time under Condition J13;

- (a) it has consulted with Network Rail, the relevant Train Operator and the SRA on the Local Output Commitment, the variation or the revision; and

the Office of Rail Regulation may give a Mandatory Variation Notice to Network Rail and to any Train Operator:

- (i) requiring any Local Output Commitment which is in effect between Network Rail and that Train Operator to be varied to the extent required to ensure that Network Rail does not commit to Excess Aggregate Local Outputs; and
- (ii) specifying the process and timing for varying the relevant Local Output Commitment,

and the relevant Local Output Commitment shall be varied in accordance with the Mandatory Variation Notice.

9.4 *Issue of varied Local Output Commitment*

When any LOC Suspension Notice containing a variation is given under Condition L8 or any Mandatory Variation Notice is given under this Condition L9, Network Rail shall promptly issue a further statement to the relevant Train Operator (with a copy to the Office of Rail Regulation) containing the revised Local Output Commitment applicable to that Train Operator, as varied by the terms of the relevant notice.

Part M – Appeals

Explanatory Note

- A. *Under Parts D, F, G, H and L, provision is made for parties who are dissatisfied with the outcome of the procedures for managing Timetabling, Vehicle Change, Network Change, Operational Disruption or Local Output Commitments to appeal in the first instance to the relevant ADRC tribunal and from decisions of that tribunal to the Office of Rail Regulation. In Part J there is also provision for appeals to the Office of Rail Regulation in relation to certain matters. Part M sets out general provisions governing this second tier of appeals.*
- B. *If the Office of Rail Regulation refuses to hear the appeal, and the Appellant wishes to pursue the appeal, he must do so before the High Court (in Scotland, the Court of Session).*
- C. *This Explanatory Note does not form part of the Network Code.*

DEFINITIONS

In this Part M, except where the context otherwise requires:

“Appellant”	means any Industry Party seeking to challenge a determination made under this code by appeal to the Office of Rail Regulation;
“Respondent”	means, in relation to any determination which is challenged under this Part M, any other Access Party which is subject to such determination.

- (a) any Condition of this code; or
- (b) the Access Dispute Resolution Rules.

CONDITION M2 - TIME LIMIT FOR APPEALS

3.2 Service

The Appellant must serve the notice of appeal on the Office of Rail Regulation and any party entitled under Rule A5.12.7 of the Access Dispute Resolution Rules to receive a copy of the determination.

CONDITION M4 - RIGHT OF THE OFFICE OF RAIL REGULATION TO REFUSE TO HEAR APPEAL

4.1 Grounds of decision

Within 14 working days of service of a notice of appeal, the Office of Rail Regulation may decide that the appeal should not proceed to it, including on the grounds that:

- (a) the matter in question is not of sufficient importance to the industry;
- (b) the reference is frivolous or vexatious;
- (c) the conduct of the party making the reference ought properly to preclude its being proceeded with; or
- (d) it is appropriate or convenient for the matter instead to be disposed of by the High Court (in Scotland, by the Court of Session).

4.2 Consequences of decision

If the Office of Rail Regulation decides that the reference to appeal should not proceed, it shall immediately notify the Appellant and each Respondent of its decision, and:

- (a) stating that he opposes the appeal; and
- (b) insofar as reasonably practicable, attaching any evidence on which the Respondent wishes to rely in opposing the appeal.

CONDITION M6 - MATTERS TO BE CONSIDERED ON APPEAL

6.1 Scope

Every appeal will be limited to a review of the decision of the lower tribunal unless the Office of Rail Regulation considers that in the circumstances of an individual appeal it would be in the interests of justice to hold a re-hearing.

6.2 Grounds

At the hearing of the appeal, a party may not rely on a matter not contained in the appeal notice or Respondent's notice unless the Office of Rail Regulation gives permission.

CONDITION M7 - POWERS OF OFFICE OF RAIL REGULATION

The Office of Rail Regulation shall, in determining the matter in question, have the power:

- (a) to give directions as to the procedure to be followed in the appeal, including in relation to the time limits within which any thing must be done, the making of any written and oral submissions, and the extent to which any evidence or other submissions made by one party to the appeal shall be disclosed to the other;

- (d) to make such orders as it shall think fit in relation to the proportions of the costs of the proceedings in question (assessed in such manner as the Office of Rail Regulation shall determine) which shall be borne by either or both of the parties.

CONDITION M8 - IMMUNITY OF OFFICE OF RAIL REGULATION

The Office of Rail Regulation shall not be liable in damages or otherwise for any act or omission to act on its part (including negligence) in relation to the conduct of any reference to appeal.

CONDITION M9 - OBLIGATION TO COMPLY WITH DETERMINATION OF APPEAL

- (ii) any interim order of the Office of Rail Regulation; and
- (b) comply with any final determination of the Office of Rail Regulation.

**CONDITION M10 - EFFECTIVE DATE OF OFFICE OF RAIL REGULATION'S
DECISION**

If, in relation to any particular dispute, any interim order or final determination of the Office of Rail Regulation is made during any period of operation of the Working Timetable to which the dispute relates, the Office of Rail Regulation may, if it is of the opinion that in the circumstances of the case the balance of material convenience to all affected persons (taking into account any material prejudice that may thereby result) favours such a course, stipulate that such order or determination shall take effect at a specified time during such period of operation.

EXPLANATORY NOTE

This explanatory note provides a brief overview of the purpose and structure of the Access Dispute Resolution Rules (ADRR) but does not form part of them.

The ADRR themselves are intended to be a readable single point of reference for parties involved in a dispute (and other industry parties). However further background, and the templates required for use by the ADRR will be available at the ADRC website.

Overview

The purpose of the ADRR is to provide a clear, coherent, and effective structure for dealing with those rail disputes arising under access agreements and access conditions/codes that must be dealt with under access-specific processes.

The ADRR were heavily revised with effect from February 2004 following industry review after 10 years of operation. Whilst much that was working well has been retained and enhanced, parties familiar with the previous structures are advised to familiarise themselves with the significant changes made.

Structure

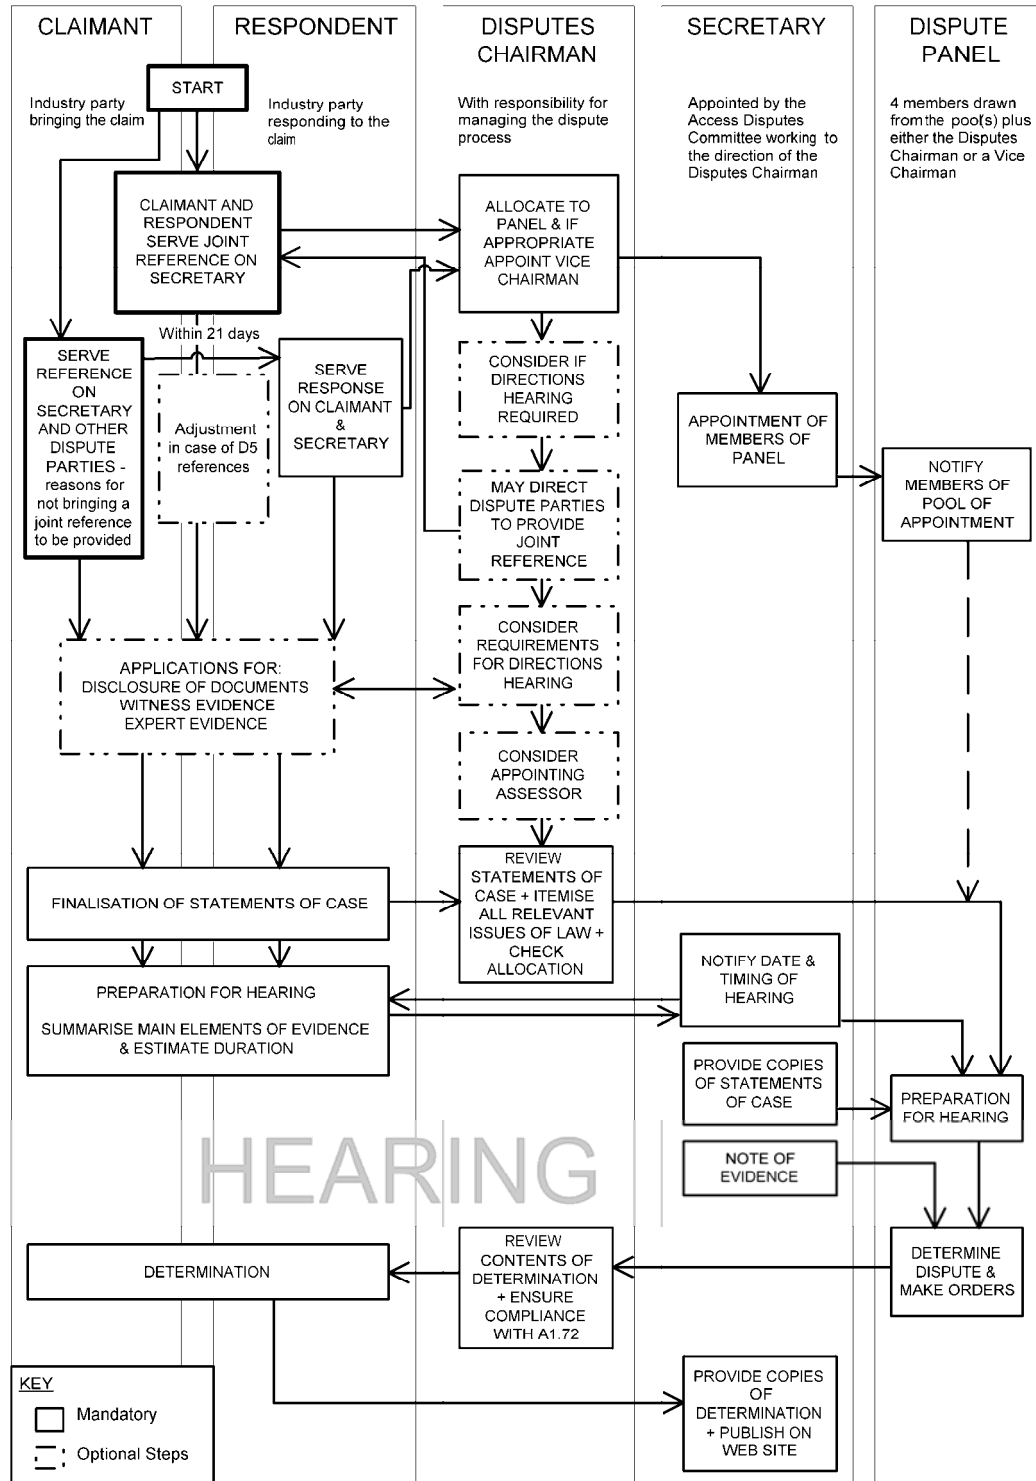

Part A of the ADRR is the section of the rules that will be used most frequently by parties whose dispute must be dealt with by an Access Disputes Panel or by a Timetabling Panel. These are the new industry bodies that (for disputes that fall within their jurisdiction) determine who is right and who is wrong and what remedy (if any) should be granted. They replace the ADRC, the NVCC and the TTC.

Part A is now divided into:

- (a) **Principles** - that set out **how** these Panels will go about their work. These do not vary from dispute to dispute; and
- (b) **Procedures** – that set out **what** will be done – i.e. the approach that will generally be used. However the Panels will balance the formality needed for a fair and efficient process with the accessibility required to ensure that the process is quick and easy to use. The procedures in each case will therefore be capable of adjustment to reflect the requirements of a particular dispute as to subject matter, timescale and value.

The following flowchart summarises the main steps in a dispute heard under Part A of the ADRR:

DISPUTES REFERRED TO A PANEL FOR DETERMINATION

Parts B, C and D deal with Mediation, Arbitration and Expert Determination respectively

Part E now brings together all of the constitutional and administrative arrangements in relation to access disputes. In particular it (amongst other things):

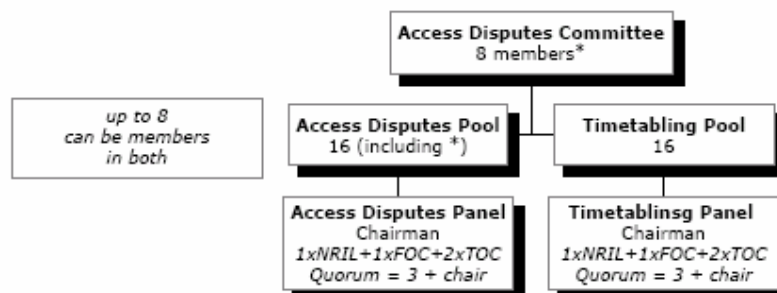

- (a) establishes and sets out the running of the new **Access Disputes Committee**. This (unlike the Access Disputes Resolution Committee under the earlier rules) does not hear or decide disputes. It does however supervise – on behalf of the rail industry – the overall access disputes process including the work of the Panels under Part A, the appointment of all necessary officers and funding;
- (b) sets out arrangements for the election or nomination of those eligible to sit on Panels by the creation of an Access Disputes Pool and a Timetabling Pool, each of 16 members;
- (c) provides for the appointment of a legally qualified Disputes Chairman, Vice Chairman (as required) and a Secretary to assist the Committee itself, the Panels and parties to any disputes under Parts B-D of the ADRR;

The following diagrams illustrate the main structures established by Part E:

Structure:

Membership and Pools:

Part F sets out the procedures for dealing with disputes where there may be overlaps with the RIDR Rules, either because it is a mixed dispute or because the access jurisdiction is challenged by one of the parties to the dispute.

This Explanatory Note does not form part of the Network Code.

PART A – THE FUNCTION AND OPERATION OF PANELS

PRINCIPLES

Purpose

1.1 The purpose of a Panel is to determine disputes referred to it by industry parties and which arise out of or in connection with:

- (a) an Access Agreement;
- (b) the Access Conditions incorporated by reference in the Access Agreement in question;

except where:

- (c) such a dispute is required to be resolved pursuant to the Non-Access Dispute Resolution Rules; or
- (d) the dispute parties have agreed that the dispute will be resolved pursuant to the Non-Access Dispute Resolution Rules; or
- (e) such dispute is so closely connected with a dispute or related dispute (in either case whether involving the same dispute parties or not) which is required to be resolved pursuant to the Non-Access Dispute Resolution Rules that it is expedient for the two disputes to be resolved in the same proceedings,

in each of which cases the dispute shall be referred to the Committee established under the Non-Access Dispute Resolution Rules. If any of the dispute parties disputes the application of the Non-Access Dispute Resolution Rules, Section F (Mixed Disputes) of these rules shall apply.

Hierarchy

1.2 In the event of conflict (when using these rules) between the Act, the Access Conditions, an Access Agreement, and these rules the following order of precedence shall apply:

- (a) the Act;
- (b) the Access Conditions;
- (c) the Access Agreement; and
- (d) these rules.

Approach

1.3 A Panel shall:

- (a) provide determinations as a knowledgeable peer group with relevant railway expertise;
- (b) reach fair, rapid and inexpensive determinations of disputes drawing on that expertise;

- (c) where appropriate, take the initiative in ascertaining the facts and law relating to the dispute; and
- (d) balance the formality required to achieve a fair and efficient process with the accessibility required to ensure that the process is quick and easy to use.

The Role of the Disputes Chairman

1.4 The Disputes Chairman has:

- (a) oversight (under the powers contained in rule A1.6) of the effective case management of a dispute;
- (b) responsibility to ensure that all procedures of the Panel (at and before Panel hearings) are being implemented fairly and effectively in respect of each dispute;
- (c) responsibility to review (or have reviewed by an appropriate legal adviser) each dispute following submission of statements of case to identify and to itemise in written form for consideration by the Panel all relevant issues of law raised by the dispute a copy which shall be provided promptly to the dispute parties;
- (d) (subject only to rule A1.74) responsibility to ensure that the content of all determinations made by a Panel has been reviewed by him (or by an appropriate legal adviser), is legally sound, appropriate in form, is otherwise compliant with rule A1.72 and is produced and circulated promptly and (where applicable) in accordance with any mandatory time requirement.

1.5 The Disputes Chairman may, where reasonable to do so, delegate the performance of any of his functions in any dispute to any one of:

- (a) any Vice Chairman appointed under rule E1.23;
- (b) the Secretary appointed under rule E1.25 or any member of the Secretariat appointed under rule E1.27(a); or
- (c) any assessor appointed under rule A1.53,

but such delegation shall not affect the obligations and responsibilities of the Disputes Chairman set out in rule A1.4.

Proportionality

1.6 It is an overriding objective of these rules that disputes referred to a Panel shall be administered in a way which is proportionate to:

- (a) the objective importance of the dispute to the dispute parties;
- (b) the complexity of the issues;
- (c) the significance (if any) of the issues involved to the railway industry; and
- (d) the scale of any financial claims involved.

Accordingly the Panel Chairman shall (where appropriate) adapt the Flexible Panel Procedures in respect of each dispute to reflect its specific requirements in terms of subject matter, timescales and value.

- 1.7 Whilst the Flexible Panel Procedures will vary all procedures adopted must reflect the Principles.

Timely Determination

- 1.8 Subject to rules A1.9 and A1.42 to 1.44, the Panel shall reach its determination in a timely manner consistent with the nature and complexity of the dispute.
- 1.9 Rule A1.8 is subject to any specific timescale provisions of the Access Conditions, Access Agreement or any other legal requirements.

Impartiality

- 1.10 Panel Members are chosen because of their particular industry expertise. They shall exercise their functions impartially and not on behalf of any specific organisation, Band or Class.
- 1.11 Following a determination of a dispute by the Panel any dispute party is entitled to appeal in accordance with the relevant part of the Access Conditions. The additional provisions governing appeals are set out in rule A1.72(l).
- 1.12 Appeals to the Office of Rail Regulation will be dealt with under Part M of the Network Code.

Appropriate Forum

- 1.13 The Disputes Chairman shall, subject to the provisions of Part F (Mixed Disputes) or as is otherwise prescribed, ensure that each dispute is allocated to the most appropriate forum to determine the issues raised by that dispute.
- 1.14 There is a presumption that disputes referred to the Panel under Condition D5.1.1 shall, unless there are compelling reasons relating to subject matter, be allocated to the Timetabling Panel. The Disputes Chairman shall not allocate a dispute ostensibly falling within Condition D5.1.1 other than to the Timetabling Panel without first inviting written representations from the dispute parties on his intention to do so and giving proper consideration to any representations made.
- 1.15 The Disputes Chairman shall (taking into account the objectives set out in rule A1.3 and the subject of the matter of the dispute) ensure that all Panels are chaired by an appropriate Panel Chairman.
- 1.16 The dispute parties may in accordance with rule A1.14 and 1.45 make representations to the Disputes Chairman on appropriate forum.

Precedent

- 1.17 In reaching its determination, the Panel shall:
- (a) take note of its prior determinations (and those of any predecessor body) and of any other relevant tribunal other than a superior tribunal, as persuasive authority but need not be bound by the same;

- (b) be bound by any relevant decision of any superior tribunal (but only, in the case of the Award of an Arbitrator appointed under Part C of these rules where that Award has been previously published to industry parties under rule C1.31 or published on the access disputes website).

Determinations and Remedies

- I.18 The Panel shall reach its determination on the basis of the legal entitlements of the dispute parties and upon no other basis.
- I.19 The Panel shall:
 - (a) where the Access Conditions or Access Agreement require that a specific remedy be granted, grant that remedy accordingly; or
 - (b) where the choice of remedy is not a matter of entitlement but is a question properly falling within the discretion of the Panel, exercise that discretion in accordance with any requirements and criteria set out in the Access Conditions and Access Agreement after due consideration of all remedies and orders that could properly be made.

Duties of dispute parties

- I.20 Dispute parties shall at all times:
 - (a) co-operate with any reasonable request of the Disputes Chairman, the Panel Chairman, the Panel, the Secretariat and each other; and
 - (b) avoid antagonistic or unduly adversarial behaviour.
- I.21 Dispute parties shall provide voluntarily, or where reasonably requested, to each other and to the Panel all material required for the effective consideration and determination of the dispute, mindful of:
 - (a) the requirements of proportionality at rules A1.6; and
 - (b) the requirements of rules A1.46 to A1.50 (documents).

Consequences of procedural default

- I.22 If a dispute party fails to take a step by the time required by these rules or fails to comply with any direction of the Panel Chairman, the Panel Chairman can make, whether or not upon the application of the other dispute party, one or more of the following orders:
 - (a) that the defaulting party comply with its obligation;
 - (b) that the defaulting party is prohibited from relying upon the information or other matter required by the rules or such direction;
 - (c) that the dispute can proceed to determination without that step being taken,

in addition, and where appropriate to do so, adverse inferences may be drawn by the Panel in respect of the position for which the defaulting party contends.

Representation

- I.23 A dispute party is entitled to be represented by such person(s) (legally qualified or otherwise), other than a Panel Member, as it chooses.
- I.24 A dispute party shall not be prejudiced by its choice of one category of representative as against another. It shall however ensure that:
- (a) the competencies, skills and knowledge of any chosen representative are appropriate to the issues involved in the dispute (content, subject and value);
 - (b) where a representative is also a witness that representative is able to perform both duties in full;
 - (c) where a representative is not a witness, that a witness or witnesses of appropriate seniority and knowledge are present at the hearing to provide relevant information; and
 - (d) its representatives shall respect and act at all times in accordance with the Principles.

- 1.9 The arbitrator shall adopt procedures suitable to the circumstances of the case, avoiding unnecessary delay or expense to provide a fair means for the resolution of the matters falling to be determined.
- 1.10 The parties may agree that an arbitration shall be conducted on the basis of written representations only. In such a case, nothing in this rule shall prevent the arbitrator from requiring one or more oral hearings if he considers it appropriate for the just and expeditious determination of the proceedings. The arbitrator shall have the power at any time to make or amend the procedure to be followed by the parties in the arbitration.
- 1.11 Unless the arbitrator rules otherwise, the following timetable and procedure shall apply:

The statement of defence may set out any counterclaim which the respondent wishes to make;
- (c) the statements served pursuant to sub-paragraphs (a) and (b) above shall be accompanied by copies of any documents referred to in them or upon which the party serving the statement wishes to rely. That party shall, if so requested, make the originals of such documents available for inspection by the arbitrator or the other party;
- (d) after service by the respondent of its statement of defence (in Scotland, answers), the arbitrator may allow the parties a period (the "adjustment period") within which to adjust the written pleadings so that each material averment of the parties shall be answered (whether by admission, denial, explanation or otherwise);
- (e) on the expiry of the adjustment period, the pleadings shall be finalised and within 7 working days thereafter the claimant shall reproduce the pleadings, as adjusted, into a single document (in Scotland, the closed record) and send 2 copies to each of the arbitrator and the other parties to the arbitration;
- (f) within 14 working days after the pleadings have been so finalised, each party shall serve upon the arbitrator and the other party signed statements of any factual witnesses upon whose evidence it wishes to rely, together with any copies of documents referred to in them not already in the possession of the other party. That party shall, if requested to do so, make the originals of such documents available for inspection by the arbitrator or the other party;
- (g) if he considers it appropriate for the just and expeditious determination of the proceedings, the arbitrator shall be entitled to appoint one or more advisers (in Scotland, assessors) or experts on any matter (including matters of law) to report to him on any specific issue. The costs of any such person shall be subject to the provisions of rule C1.22. The arbitrator shall provide to the parties the terms of reference, qualifications and experience of any assessor appointed. Where the arbitrator receives a report from any such person, he shall disclose the report to the parties and afford them such opportunity to comment on it.
- (h) within 7 working days after the pleadings have been finalised, the Secretary shall agree with the arbitrator and the parties a hearing date and the estimated length of the hearing. Unless the parties agree otherwise, the hearing date shall be no later than 28 working days after the finalisation of the pleadings;

- (i) in relation to the production of documents:
 - (i) the arbitrator may, on the application of a party, require the production of such specific identified documents as are within the possession, custody or control of the other party or any third party which the arbitrator considers relevant; the parties to the proceedings shall be given the opportunity to inspect and to comment upon any document so produced;
 - (ii) if any document is not supplied to the arbitrator and the other party within such time as the arbitrator shall prescribe, the arbitrator may:
 - (A) proceed with the arbitration on the basis of the documents already before him;
 - (B) apply to the Court for an order to produce the documents; or
 - (C) strike out (in Scotland, dismiss) the part of the claim or defence to which the document relates,and in making his award the arbitrator shall be entitled to make such allowance as he may think fit for the failure to supply the document;
 - (iii) no party shall be obliged to produce any document which would be privileged from production in any proceedings in an action in the courts;
 - (iv) an application by a party to the arbitrator pursuant to sub-paragraph (i) above shall be made not later than 21 working days before the date fixed for the hearing; a party in receipt of a request from the arbitrator to produce a document shall comply with such a request within 7 working days;
- (j) at least 5 working days before the hearing each party shall serve on the other and on the arbitrator its written submissions;
- (k) at the hearing:
 - (i) there shall be no oral opening submissions, but the arbitrator may ask the parties questions arising out of their written submissions or pleadings;
 - (ii) subject to sub-paragraph (iii) below, the testimony of a witness may be presented in written form, either as a signed statement or as an affidavit duly sworn, provided rule C1.11(f) has been complied with. Any party may apply to the arbitrator for an order that any witness whose written statement or affidavit is to be relied upon by a party should attend for oral examination at a hearing and the arbitrator shall make such order unless, having heard the parties, he is satisfied that such oral examination is not likely to assist him in making his award. If a witness is ordered to attend and fails to do so, the arbitrator may:

- (A) place such weight on the written statement or affidavit as he thinks fit;
 - (B) exclude it altogether; or
 - (C) apply to the Court for an order for the citation or attendance of witnesses;
- (iii) there shall be no examination-in-chief of factual or expert witnesses who give oral evidence. The parties may cross-examine witnesses on oath or affirmation to the extent permitted by the arbitrator;
 - (iv) the parties may make oral closing submissions, not exceeding 20 minutes each;
 - (v) the parties may be legally represented; and
 - (vi) the arbitrator shall be entitled to receive such evidence as he shall consider relevant, whether or not such evidence would have been admissible in a court of law; and
- (l) the arbitrator shall deliver to the parties a reasoned award within 14 working days of the end of the hearing.
