Preface

- A. *The Access Conditions are a set of rules which are incorporated by reference into, and therefore form part of, each bilateral access contract between Railtrack and a holder of access rights. They do not create any contractual relationship between operators of trains.*
- B. *The purpose of the Access Conditions is:-*
 - (i) *to regulate change, including change to the working timetable, change to railway vehicles specified in an access contract, change to the network, change to computer systems and change to the Access Conditions themselves;*
 - (ii) *to establish procedures relating to environmental damage;*
 - (iii) *to establish a performance monitoring system; and*
 - (iv) *to establish procedures in the event of operational disruption.*
- C. *This Preface does not form part of the Access Conditions.*

Part B - Performance Monitoring

Explanatory Note

- A. *Part B provides for the establishment by Railtrack of a Performance Monitoring System, designed to record whether trains pass specified monitoring points, the times at which they do so and the difference between those times and the corresponding scheduled times. The system is also designed to enable Railtrack to determine and record the cause of any delay or cancellation. Provision is made for Railtrack to notify and seek agreement from affected Train Operators as to the cause of any such delay or cancellation.*
- B. *Train Operators are given the right to notify Railtrack if the Performance Monitoring System is not fit for purpose and require Railtrack to investigate the grounds for such notification and report on its findings.*
- C. *Both Railtrack and Train Operators are given the right to audit and inspect the records and monitoring equipment of the relevant Performance Monitoring System and to require tests of the Performance Monitoring System to be carried out in the presence of an independent expert.*
- D. *Condition B5.3 also makes it clear that the Access Parties can, however, agree a more onerous Performance Monitoring System than that contemplated by Part B. The model set out in Part B is therefore a minimum standard.*
- E. *Part B also incorporates the Performance Data Accuracy Code which encompasses defined standards of accuracy of performance data.*
- F. *This Explanatory Note does not form part of the Access Conditions.*

DEFINITIONS

In this Part B, unless the context otherwise requires:

<u>“Performance Data Accuracy Code”</u>	<u>means subject to Condition A1.1(g) the code relating to the standards of performance data accuracy entitled “Performance Data Accuracy Code” as published by Railtrack in April 1996; and</u>
“Performance Monitoring System”	means the system for monitoring train performance described in Condition B1.

CONDITION B1 - PROCEDURES FOR MONITORING PERFORMANCE

1.1 *Performance Monitoring System*

Railtrack shall operate a system for monitoring train performance which accurately records:

- (a) the times at which trains arrive at, depart from and pass specified points;
- (b) the difference between the time at which a train arrives at, departs from or passes a specified point and the time published for such arrival, departure or passing in the Working Timetable;
- (c) all cancelled trains and trains failing to pass any specified point; and
- (d) the cause of train delays and cancellations.

1.2 *Performance Data Accuracy Code*

The Performance Data Accuracy Code is incorporated into these Access Conditions. Each Access Party shall observe and perform its obligations, and shall have the benefit of its rights, under the Performance Data Accuracy Code. For the purpose of Condition B1.1 “accurately” shall be construed in accordance with the Performance Data Accuracy Code.

CONDITION B2 - DIAGNOSIS OF DELAYS

2.1 Determination of causes of delays

Railtrack shall, in relation to any train delay or cancellation (subject to any thresholds agreed between Railtrack and each Train Operator) determine and record the persons and causes which are responsible for the delay or cancellation and where more than one, so far as practicable, the extent to which each person or cause is so responsible.

2.2 Information relating to causes of delays

Railtrack shall, when determining and recording the cause of train delays and cancellations, have due regard to all information which is relevant in the circumstances, including the following:

- (a) information from any computerised or other recording system which Railtrack may, for the time being, be permitted to use for the purposes of a particular Access Agreement;

- (b) information supplied by signalmen and other persons duly authorised to participate in the signalling of trains;
- (c) information supplied by any operator of trains, whether such information is within its knowledge or based on information supplied by other operators of railway assets; and
- (d) information supplied by Railtrack, whether such information is within Railtrack's knowledge or based on information supplied by persons engaged or acting on behalf of, or otherwise in accordance with or subject to the instructions of, Railtrack or other operators of railway assets.

2.3 *Notification and agreement of delays*

Railtrack shall, as soon as reasonably practicable following the occurrence of any train delay or cancellation affecting a Train Operator's train, notify that operator of the occurrence of that delay or cancellation and the responsibility, if any, for that delay or cancellation attributed by Railtrack to that operator, which shall, unless disputed by that operator within 2 clear working days of receipt of that notice, be deemed to be agreed by that operator. Any such notices shall be sent to such person as that operator shall have nominated for the purposes of this Part B.

CONDITION B3 - SYSTEM INVESTIGATION

3.1 *Notification of unsatisfactory system*

A Train Operator may, when it has reasonable grounds for considering that the Performance Monitoring System is not satisfying the requirements set out in Condition B1, notify Railtrack of the manner in which the Performance Monitoring System is alleged not to satisfy such requirements.

3.2 *Investigation of system*

As soon as practicable following receipt of a notice from a Train Operator under Condition B3.1, Railtrack shall investigate the matters complained of and shall, within the period of 28 days following the date of receipt of that notice, prepare and deliver to that operator a report of its investigations which shall include:

- (a) details of all relevant tests and checks carried out by Railtrack;
- (b) the results of Railtrack's investigations;
- (c) Railtrack's conclusion as to whether the Performance Monitoring System failed to satisfy the said requirements set out in Condition B1 in the manner alleged by that operator or in any other respect;

- (d) Railtrack's reasons for its conclusions and copies of all relevant data and documentation in respect thereof; and
- (e) any steps which Railtrack is taking or proposes to take in respect of any failure to satisfy the said requirements.

3.3 *Adjustment to prior results*

If it is established in accordance with Condition B3.2 or Condition B4.2 that the Performance Monitoring System is not satisfying the requirements set out in Condition B1.1, the results obtained from the Performance Monitoring System for the period of 2 months preceding the date of the investigation or, if later, since the date of the last investigation under Condition B3.1 (but not in respect of earlier periods), shall be adjusted in a manner which is fair and reasonable to correct the results.

CONDITION B4 - RECORDS, AUDIT AND TESTING

4.1 *Obligation to keep information*

The Access Parties shall, for a period of not less than 6 years, keep summaries of all material information relating to the monitoring of train performance.

4.2 *Right to audit and inspect*

Either Access Party may, without prejudice to Condition B3.2 and on giving at least 5 days' prior notice to the other Access Party:

- (a) audit and inspect at any reasonable time all processes, systems and records of the Performance Monitoring System for any particular period and in relation to the Train Operator's Services;
- (b) inspect at any reasonable time all such premises and equipment as are used in connection with the Performance Monitoring System to monitor train performance in respect of the Train Operator's Services; and
- (c) require the other Access Party to carry out analysis, investigations and tests of the Performance Monitoring System including the processes, systems and equipment used in connection with the Performance Monitoring System in the presence of an independent expert nominated by the first Access Party, such tests to be as reasonably required by the first Access Party to determine its accuracy and suitability to monitor train performance in respect of the Train Operator's Services.

4.3 *Costs to be borne by investigating party*

Subject to Condition B4.4, any audit, inspection or testing carried out at the request of an Access Party in accordance with Condition B4.2 shall be at such Access Party's own cost.

4.4 *Costs to be borne by party subject to investigation*

Where the overall results of the Performance Monitoring System for that period are shown as a result of any audit, inspection or testing to be inaccurate in any material respect due to any act or omission by the party which is the subject of the audit, inspection or testing, that party shall bear the reasonable cost to both Access Parties of that audit, inspection or testing.

CONDITION B5 - CO-OPERATION

5.1 *Review of operations*

The Access Parties shall, not less than once every 6 months, meet, review performance and discuss alterations to their operations which will improve train performance and reduce train delays and cancellations.

5.2 *Implementation of alterations*

The Access Parties agree to use all reasonable endeavours to implement any alterations agreed under Condition B5.1.

5.3 *Obligations in Access Agreement*

Nothing in this Part B shall restrict the Access Parties from agreeing, in an Access Agreement, obligations in relation to performance monitoring which are more onerous than those contained in this Part B.

Part C - Modifications to the Access Conditions

Explanatory Note

- A. *Part C provides for a democratic process by which the Access Conditions and the Access Dispute Resolution Rules may be changed. Class protection is provided for each of four interest groups (or Classes), namely Railtrack, franchised passenger Train Operators, non-franchised passenger Train Operators and non-passenger Train Operators (collectively referred to as "Train Operators"). The second and last of these groups are subdivided into Bands reflecting the relative size and nature of those groups and their respective members.*
- B. *A Train Operator can only be a member of one class, which is determined by the type of railway services in respect of which it pays the greatest part of its Track Charges.*
- C. *Each of the Classes (and, where appropriate, Bands) is given the right, annually, to elect Class Representatives to a Class Representative Committee. The Committee is charged with responsibility for considering and, if it thinks fit, approving proposals for changing the Access Conditions.*
- D. *Any Class Member, Access Option Holder or the Regulator is entitled to make a Proposal for Change for consideration by the Class Representative Committee. Proposals must be made in writing to Railtrack.*
- E. *There are eight members of the Committee. Each of these may, as part of the democratic process, vote on proposals for changing the Access Conditions. Normally six must vote in favour for a Proposal for Change to the Access Conditions to be carried.*
- F. *On the satisfaction of certain criteria, Railtrack and any two of the Class Representatives of the Franchised Passenger Class have an ability to veto a proposal to change the Access Conditions. This right of veto is subject to an additional appeal procedure.*
- G. *Railtrack is to provide the secretariat function for the convening and holding of Class Meetings, election of Class Representatives, the convening and holding of Committee Meetings and the consideration of proposals to change the Access Conditions.*
- H. *In addition to the democratic process described above, the Regulator is given certain rights to require changes to the Access Conditions. Any such changes are to be made only after due consultation with all affected parties and with other relevant statutory bodies such as the Franchising Director.*
- I. *The Access Dispute Resolution Rules may be changed in accordance with the same procedures.*
- J. *This Explanatory Note does not form part of the Access Conditions.*

- (d) to make such orders as he shall think fit in relation to the proportions of the costs of the appeal which shall be borne by any of the parties.

6.5.6 Where any party shall have given a notice of appeal, the Regulator shall:

- (a) be entitled to decline to determine the appeal if, having consulted the parties concerned, he shall determine that the appeal should not proceed, including on the grounds that:
 - (i) the matter in question is not of sufficient importance to the industry;
 - (ii) the reference to him is frivolous or vexatious; or
 - (iii) the conduct of the party making the reference ought properly to preclude its being proceeded with; and
- (b) not be liable in damages or otherwise for any act or omission to act on his part (including negligence) in relation to the appeal.

 - (ii) the interests of any relevant person or persons would be unfairly prejudiced if the modification in question were not made, and the need to avoid or remedy such unfair prejudice outweighs or is likely to outweigh any prejudice which will or is likely to be sustained by any other relevant person or persons if the modification is made, having due regard to the need to enable relevant persons to plan the future of their businesses with a reasonable degree of assurance.

8.3.1 A modification specified in a modification notice shall not have effect if its effect would, if made, be:

- (a) to prevent to a material extent the Train Operator or Access Option Holder exercising, or receiving the benefit of, a protected right; or
- (b) materially to increase any protected obligation of the Train Operator or Access Option Holder

provided that no person shall be entitled to challenge or otherwise call into question the effectiveness of any such modification unless he shall have given notice to the Regulator not more than 45 days after the date of the modification notice stating that the modification in question would, if made, have on him any such effect and such notice shall be accompanied by such relevant information in support of such statement as it shall be reasonable to expect him to be able to provide.

8.3.2 Any challenge or other procedure of the kind referred to in Condition C8.3.1 shall, unless the affected operator and the Regulator shall otherwise agree, be determined by an arbitrator in accordance with the Dispute Resolution Rules within 180 days of the date upon which the affected operator shall have given notice to the Regulator as provided for in that Condition.

- (a) in his consideration of the matters referred to in Condition C8.2, the Regulator shall have consulted the Franchising Director, the HSE, the Secretary of State, Railtrack and the Class Representative Committee, together with all Class Members and any other persons which the Regulator shall consider ought properly to be consulted, in relation to the modification which he proposes to make;
- (b) in the consultations referred to in paragraph (a) above, the Regulator shall have made available to each person so consulted such drafts of the proposed modification as he shall consider are necessary so as properly to inform such persons of the detail of the proposed modification;
- (c) the Regulator shall have given each person so consulted the opportunity to make representations in relation to the proposed modification and shall have taken into account all such representations (other than those which are frivolous or trivial) in making his decision on the modification to be made;
- (d) the Regulator shall have notified each person consulted pursuant to paragraph (a) above as to his conclusions in relation to the modification in question (including by providing to each such person a copy of the text of the proposed modification) and his reasons for those conclusions; and
- (e) in effecting the notifications required by paragraph (d) above, the Regulator shall have treated as confidential any representation (including any submission of written material) which (and to the extent that) the person making the representation shall, by notice in writing to the Regulator or by endorsement on the representation of words indicating the confidential nature of such representation, have specified as confidential information.

- 8.5 A notice under Condition C8.1 shall have effect upon such date, or the happening of such event, as shall be specified in the notice, provided that it shall in no circumstances have effect:

- 8.6 In Condition C8.2, “relevant person” means a Class Member, an Access Option Holder and any other person who, in the opinion of the Regulator, shall be likely to be a Class Member or Access Option Holder.
- 8.7 As soon as reasonably practicable after Railtrack shall have received any written material from the Regulator pursuant to Condition C8.4, Railtrack shall send a copy thereof to each Class Member.
- 8.8 A notice under Condition C8.1 shall not have effect in relation to any proposed modification of Conditions C8.1 to C8.7 (inclusive) or this Condition C8.8.

CONDITION C9 - NOTIFICATION OF CHANGE

9.1 *Notification and effective date*

Railtrack shall notify any change made in accordance with this Part C other than Condition C8 to all Class Members and Access Option Holders as well as to the HSE, the Regulator and the Franchising Director. Save as otherwise provided in Condition C8, the change in question shall have effect on the expiry of 21 days from the date of that notification.

9.2 *Provision of revised texts*

Railtrack shall, as soon as reasonably practicable following issue of a notice under Condition C8.1 and following approval of a Proposal for Change by the Regulator, supply to all Class Members and all Access Option Holders a revised version of these Access Conditions or the Access Dispute Resolution Rules (whichever is appropriate) incorporating the change.

9.3 *Maintenance of records*

Railtrack shall keep and retain, for a period of 6 years following receipt, records of all:

- (a) representations made in respect of any Proposal for Change; and
- (b) written material prepared by or on behalf of Railtrack and submitted to the Class Representative Committee.

9.4 *Access to records*

The records referred to in Condition C9.3 shall be open for inspection by Class Members and Access Option Holders during reasonable office hours and without charge. Any person inspecting any such records shall be entitled upon request to be provided with copies of the whole or any part of them at a cost not exceeding £0.20 per sheet.

Part D - Timetable Change

Explanatory Note

- A. *Part D sets out the procedures by which the Working Timetable, Rules of the Route and Rules of the Plan may be changed. There are expected to be 6 times per annum - generally at 8 or 9 week intervals - at which changes may be made to the Working Timetable, although significant changes in the Passenger Timetable may be made only twice a year, namely at the dates when the summer and winter Passenger Timetables come into effect.*
- B. *Each year, at the start of the process for development of the summer timetable, Railtrack is obliged to review the applicable Rules of the Route and applicable Rules of the Plan and decide if any amendments (consistent with the Engineering Strategy (if any) or for the purposes of implementing any Vehicle Change or Network Change (see Parts F and G respectively)) should be made in respect of the period of the summer timetable and the succeeding winter timetable. Each year, at the start of the process for development of the winter timetable, Railtrack is obliged to review the applicable Rules of the Route and the applicable Rules of the Plan and decide only as to whether any minor amendments or any material amendments, which were not reasonably foreseeable at the immediately preceding "summer" review of the Applicable Rules of the Route and Applicable Rules of the Plan (consistent with the Engineering Strategy (if any) or for the purposes of implementing any Vehicle Change or Network Change (see Part F and G respectively)), should be made in respect of the period of the winter timetable. Following that review Railtrack is required to notify to Train Operators its preliminary proposal for amendments (if any) to the applicable Rules of the Route and/or Rules of the Plan with its reasons for any proposed changes. Each Train Operator shall then discuss with Railtrack any concerns it has and notify to Railtrack any representations, objections or alternative proposals it wishes to make in connection with the preliminary proposal. Railtrack is then required to notify to affected Train Operators its final proposal for amendments (if any) to the applicable Rules of the Route and/or Rules of the Plan having considered any representations, objections and proposals made by affected Train Operators and having had due regard to the specified Decision Criteria (see paragraph H below). The applicable Rules of the Route and the applicable Rules of the Plan shall then take effect with the amendments (if any) set out in the final proposal, subject to any appeal by any Bidder. Railtrack is also required to agree with Train Operators who are likely to be affected a procedure under which the applicable Rules of the Route and/or Rules of the Plan can be changed during their period of operation and a further procedure permitting Railtrack to revise already accepted Bids to enable it to take possessions for work included in the applicable Rules of the Route. If, in either case, no procedure can be agreed, Railtrack may impose a procedure, but this is subject to appeal by a Bidder in accordance with the procedure described in paragraph J below.*

- C. *Railtrack has the role of managing the Working Timetable. It is responsible for accommodating within the timetable the contractual service specification of each Train Operator. Such specification will normally allow a degree of flexibility to both Railtrack and the Train Operator, both in terms of the timing and other characteristics of the services. A passenger Train Operator's Train Slots are fully protected insofar as they are based on Firm Contractual Rights which are not inconsistent with the applicable Rules of the Route and/or applicable Rules of the Plan and have been bid for by the relevant Priority Date. Any such flexibility will operate within the confines of the applicable Rules of the Route and applicable Rules of the Plan which, like the service specification, will constrain Railtrack's ability to flex the timetable.*
- D. *Train Operators are given the right to bid for timetable slots. Bidding is conducted during a sequence of 2 bidding cycles, each comprising a specified bidding period then followed by a specified decision period during which Railtrack seeks to reconcile and accommodate Bids. Railtrack first accommodates Bids which reflect Firm Contractual Rights of the parties which are not inconsistent with the applicable Rules of the Route and/or applicable Rules of the Plan and then endeavours to satisfy all other rights of the parties, including those reflected in Bids from persons who have not yet obtained a regulated Access Agreement or Access Option. Priority is given to Bids submitted before specified Priority Dates which are designed to phase the development of the Working Timetable by route or section of the Network.*
- E. *In respect of each Passenger Development Period, where Railtrack is required to undertake major engineering work on the Network, Railtrack is required to notify Bidders and Qualified Persons of the dates by which Railtrack will require Train Operators to submit revised bids to enable Railtrack to carry out relevant possessions for the work. Train Operators can thereby consider the options for amendments which become necessary to their services. A process for revising Bids is prescribed to enable a revised train plan to be prepared and published.*
- F. *Spot Bids may be made during the period of operation of a Working Timetable or during the preceding Supplemental Period. As a general rule, Spot Bids are given priority on a first in time basis. A Spot Bid cannot be accepted by Railtrack if it conflicts with a Train Slot which has previously been agreed between Railtrack and a Train Operator.*
- G. *If a Spot Bid is received by Railtrack in relation to a sporting or other public event which, if accepted, would conflict with any Train Slot in the Working Timetable, Railtrack must consult with the Train Operator entitled to the Train Slot with a view to obtaining its consent to Railtrack exercising its Flexing Right to accommodate the Spot Bid. A Train Operator may not unreasonably withhold or delay its consent to a request from Railtrack in such circumstances if the Spot Bid relates to a Train Slot for the carriage of passengers in numbers which are materially greater than are usually carried on trains on the route and on the days and times of day in question. If as a result of accommodating a Spot Bid Railtrack is obliged to make payment to a Train Operator whose Train Slot is flexed by Railtrack, the Train Operator whose Spot Bid was accommodated must reimburse Railtrack the amount of such payment.*

- H. In its capacity as manager of the Working Timetable, Railtrack is required to make a number of decisions, including whether to accept Bids for new or different timetable slots, how to reconcile competing or conflicting Bids and how to exercise any right it may have to flex a particular Train Operator's Bids (to the extent that the Train Operator's service specification allows it). Railtrack must have due regard to specified Decision Criteria when making decisions regarding proposed changes to the Working Timetable and to any applicable Rules of the Route and applicable Rules of the Plan. These criteria are to be weighed and balanced by Railtrack in the light of the particular circumstances surrounding each decision.*
- I. In the event of a major engineering, maintenance or renewal project requiring a possession or series of possessions of one or more sections of track extending over a period of more than one year or a period containing two or more Passenger Timetable Change Dates, Railtrack is obliged to give notice to Train Operators affected by the major project and to consult, and if possible agree, with the relevant Train Operator the method for its implementation. Railtrack is obliged to have due regard to the Decision Criteria in deciding its proposed method of implementation and its decision is subject to appeal in accordance with the procedure referred to in paragraph J below.*
- J. It is expected that the normal means of resolving timetable disputes between Railtrack and each Train Operator will be by negotiation and agreement. However, to deal with those cases where agreement cannot be reached, provision is made for Train Operators to appeal against any relevant Railtrack decision. An appeal is, in the first instance, made to the Timetabling Sub-Committee of the Access Dispute Resolution Committee (established under the Access Dispute Resolution Rules). If either Railtrack or the Train Operator is dissatisfied with the decision of that Committee, it may appeal to the Regulator. Both appeals are heard on the merits of the matter in dispute and the relevant appeal body may make such orders as it thinks fit in relation to the proportions of the costs of the appeal to be borne by either or both of the parties.*
- K. This Explanatory Note does not form part of the Access Conditions.*

- (a) in respect of any Passenger Development Period ending on a Summer Change Date, review the applicable Rules of the Route and the applicable Rules of the Plan for that Passenger Development Period and the next succeeding Passenger Development Period and decide whether any amendment is required to either or both sets of Rules including any amendment for the purposes of the implementation of any Network Change in accordance with Part G of these Access Conditions or Vehicle Change in accordance with Part F of these Access Conditions; and
- (b) in respect of any Passenger Development Period ending on a Winter Change Date, review the applicable Rules of the Route and the applicable Rules of the Plan and decide as to whether any Winter Rules Revisions should be made to either or both of them.

In conducting its review in accordance with this Condition D3.4.1 Railtrack shall consult with each Train Operator which is likely to be affected by the applicable Rules of the Route or the applicable Rules of the Plan.

3.4.2 *Preliminary Rules of Route/Plan Proposal*

Railtrack shall, on or before the Rules of the Route/Plan Development Date, serve a notice on each Bidder including:

- (a) a notice of the changes (if any) to the applicable Rules of the Route and applicable Rules of the Plan which, having due regard to the Decision Criteria, it proposes to include in the Rules of the Route/Plan Proposal and, if no changes are proposed, that fact ("Preliminary Rules of the Route/Plan Proposal"); and
- (b) its reasons.

3.4.3 *Consultation with Bidders*

Each Bidder shall:

- (a) consider the notice served on it by Railtrack in accordance with Condition D3.4.2 and discuss any concerns it may have in respect of the Preliminary Rules of the Route/Plan Proposal with Railtrack; and
- (b) on or before the end of the RRP Response Period, give notice to Railtrack of any representations or objections it wishes to make in relation to the proposal and any alternative proposals it may have for the applicable Rules of the Route or the applicable Rules of the Plan save that, in respect of any Passenger Development Period ending on a Winter Change Date, any such alternative proposal shall be in the nature of a Winter Rules Revision only.

3.4.4 *Rules of Route/Plan Proposal*

- (a) Railtrack shall, following consideration of any representations, objections and proposals made by affected Bidders in accordance with Condition D3.4.3, review the Preliminary Rules of the Route/Plan Proposal and, having due regard to the Decision Criteria, decide which amendments if any should be made to the applicable Rules of the Route and the applicable Rules of the Plan.
- (b) Railtrack shall, on or before the end of the Railtrack Offer Period, notify each Bidder which is likely to be affected by the applicable Rules of the Route or the applicable Rules of the Plan of the amendments it has decided to make pursuant to Condition D3.4.4(a) or, where no amendments are proposed, that fact.

3.4.5 *Referral to Timetabling Committee*

Following notification of the Rules of the Route/Plan Proposal in accordance with Condition D3.4.4(b) a Bidder may refer any aspect of that proposal (including any decision of Railtrack not to make an amendment or any decision by Railtrack as to whether or not a revision is a Winter Rules Revision) for determination by the Timetabling Committee under Condition D5, provided that such referral is made within 7 days of the notification to it of the Rules of the Route/Plan Proposal in accordance with Condition D3.4.4(b). Save to the extent any aspect of the Rules of the Route/Plan Proposal is referred to the Timetabling Committee within 7 days of its being notified to Bidders, the applicable Rules of the Route and applicable Rules of the Plan shall have effect for the purposes of the Timetable Development Period in question with the amendments set out in the Rules of the Route/Plan Proposal. No such reference shall be made in respect of any aspect of a Major Project which is within and consistent with its method of implementation established pursuant to Condition D3.5 and which has:

- (a) not been referred to the Industry Committee for determination prior to the date referred to in Condition D3.5.4;
- (b) been finally determined by either the Industry Committee or the Regulator pursuant to that Condition; or
- (c) been determined by the Industry Committee and is not the subject of an appeal to the Regulator pursuant to that Condition.

If Christmas Day occurs within the period of 7 days specified above then the period shall be lengthened to 14 days.

3.4.6 *Implementation pending outcome of determination*

Notwithstanding the provisions of Condition D3.4.5, Railtrack shall be entitled to implement (in particular for the purposes of developing the Working Timetable to be implemented on the next succeeding Passenger Change Date) any aspect of the applicable Rules of the Route or the applicable Rules of the Plan which has been referred for determination pursuant to that Condition, pending the outcome of that determination.

3.4.7 *Incorporation of Rules in Bidding Information*

Railtrack shall incorporate the applicable Rules of the Route and the applicable Rules of the Plan in the Bidding Information it produces for each Bidding Period.

3.4.8 *Development of Rules of the Plan/Rules of the Route amendment procedure and accepted Bid revision procedure*

Railtrack shall consult with each Train Operator:

- (a) which is likely to be affected by an amendment to the applicable Rules of the Plan or the applicable Rules of the Route with a view to agreeing a procedure whereby those rules may be amended other than with effect from a Passenger Change Date, as provided for in the foregoing provisions of this Condition D3.4; or
- (b) with a view to agreeing with all affected Train Operators a procedure (to the extent necessary in the light of the provisions of Condition D3.8) whereby, and criteria in accordance with which, accepted Bids may be revised to permit Railtrack to take possessions for the purpose of carrying out work included in the applicable Rules of the Route.

If, after a reasonable period of consultation, either of such procedures shall not have been agreed, Railtrack shall decide upon the form of the relevant procedure and send a copy of it to each such Train Operator.

3.4.9 *Contents of amendment procedure*

Each of the procedures proposed by Railtrack pursuant to Condition D3.4.8:

- (a) shall provide that no amendment shall be made to the applicable Rules of the Plan or the applicable Rules of the Route or that no revision shall be made to an accepted Bid (as the case may be) unless:
 - (i) Railtrack shall have consulted, to the extent reasonably practicable, with each Train Operator likely to be affected by the amendment or revision (as the case may be); and
 - (ii) due regard shall have been had to the Decision Criteria; and
- (b) shall be deemed to have been accepted by each such Train Operator unless any such Train Operator shall, within 30 days of the relevant procedure being sent to it, have referred any aspect of it to the Timetabling Committee for determination in accordance with Condition D5.

3.4.10 *Applicability of timetable appeal procedure*

The provisions of Conditions D5.1, D5.2 and D5.4, to the extent that they require any matter to be done prior to the commencement of any Appeal Implementation Period, shall not apply to any reference made under Condition D3.4.9(b).

3.5 Major Projects

3.5.1 *Notice of proposed Major Project*

Railtrack shall, if it wishes to implement a Major Project, give notice of its proposal to each Train Operator that may be affected by the project together with such particulars of the proposed method of implementation of the project as are reasonably necessary to enable each such Train Operator to evaluate the effect of the proposed project on its Services or the operation of its trains. In this Condition D3.5 the expression "method of implementation" means a statement containing a programme of possessions or other restrictions on the use of the track which would be required in order to carry out the proposed project in question.

3.5.2 *Consultation on proposed method of implementation*

Railtrack shall invite the submission of comments from each Train Operator to which it has given notice under Condition D3.5.1 within such period as is reasonable in the circumstances having due regard to the likely effect of the proposed project on those operators and shall consult with them concerning the method of implementation for the proposed project.

3.5.3 *Notice of proposed method of implementation*

Subject to having complied with the foregoing provisions of this Condition D3.5, Railtrack may notify each Train Operator to which it gave notice under Condition D3.5.1 of its proposed method of implementation for the proposed project, provided that:

- (a) in deciding such proposed method of implementation, Railtrack shall have had due regard to the Decision Criteria; and
- (b) it shall have taken into account any comments submitted to it pursuant to Condition D3.5.2.

3.5.4 *Right of appeal*

If any Train Operator is dissatisfied as to:

- (a) any matter concerning the operation of the procedure in this Condition D3.5; or

- (b) the method of implementation of the proposed Major Project as notified by Railtrack pursuant to Condition D3.5.3 and, in particular, the application by Railtrack of the Decision Criteria

it may, at any time prior to the date 30 days after the date on which it was notified pursuant to Condition D3.5.3 of the proposed method of implementation, refer the matter to the Industry Committee for determination.

3.5.5 *Applicability of appeal procedure*

Any matter referred to the Industry Committee for determination under Condition D3.5.4 shall be treated as a matter referred to that Committee under Condition G6.1 and the provisions of Conditions G6.2 to G6.7 (inclusive) shall apply to it mutatis mutandis save that:

- (a) the reference in Condition G6.5.3(a)(ii) to "Network Change" shall be treated as a reference to "Major Project"; and
- (b) the provisions of Condition G6.5.3(b) shall be treated as a reference to the Regulator having power to specify any matter which Railtrack should have decided in proposing a method of implementation for the relevant Major Project pursuant to Condition D3.5.3.

3.5.6 *Relationship with Part G and Condition D3.4*

The provisions of this Condition D3.5 shall be without prejudice to:

- (a) the provisions of Part G, if the proposed Major Project, once completed, would constitute a Network Change within the meaning of that Part; and
- (b) the requirement to comply with Condition D3.4, to the extent that the implementation of the proposed Major Project in accordance with the method of implementation would require an amendment to the applicable Rules of the Route and/or the applicable Rules of the Plan.

3.6 **Working Timetable**

3.6.1 Railtrack shall draw up a timetable showing, so far as reasonably practicable, every train movement on the Network, including:

- (a) every service for the carriage of passengers by railway, every service for the carriage of goods by railway, every Ancillary Movement and every other Service;

(b) the times of arrival and departure of trains at origin and destination, at every intermediate stopping point and at appropriate passing points; and

(c) all relevant timing allowances,

as they shall have been amended pursuant to Part H and including goods train planning publications and documents detailing platforming arrangements.

3.6.2 Movements of trains operated by a Train Operator which are not made in the exercise of access rights shall not be entered in the Working Timetable. In this Condition D3.6.2, "access rights" means permission, under an Access Agreement, to use track for the purpose of or in connection with the operation of railway assets by a Train Operator.

3.6.3 Railtrack shall, within 14 days following expiry of the Appeal Implementation Period relating to any Passenger Development Period, give notice to each Bidder of the version of the Working Timetable which is to apply from the relevant Passenger Change Date.

3.7 *Timetable Amendment at a Change Date*

3.7.1 Where, in respect of any Change Date, Railtrack receives any Spot Bid from a Train Operator prior to the Timetable Amendment Cut-Off Date for that Change Date, Railtrack shall not be obliged to notify to the Train Operator its decision as to whether that Spot Bid is accepted, modified or rejected until the Timetable Amendment Decision Date.

3.7.2 The Train Operator shall, following the date of receipt by it of notice of the modification or rejection of any Spot Bid referred to in Condition D3.7.1, notify Railtrack whether it accepts or disputes that decision of Railtrack no later than one week following the date of that decision and the provisions of Conditions D3.3.2 to D3.3.4 (inclusive) shall apply, mutatis mutandis.

3.7.3 Railtrack shall, following the procedures set out in this Condition D3.7, make available to all Bidders and at least 3 weeks prior to the relevant Change Date, details of the timetable amendments that will be operative with effect from that Change Date.

3.8 Supplemental Timetable Revision Process

3.8.1 Railtrack shall, in respect of any Passenger Development Period and at least 26 weeks prior to [the Passenger Change Date to which this period relates](#) (and having previously consulted with each affected Train Operator), provide to all those persons referred to in Condition D2.2.1, its specific proposals as to the Revision Notification Dates and Revision Bid Dates applicable to [the period of operation of the Working Timetable commencing on that Passenger Change Date](#).

3.8.2 Railtrack shall, where it wishes to amend any Timetable Week Slot that is the subject of an accepted Bid in order to enable it to take possessions for the purpose of carrying out work included in the Rules of the Route applicable to that Bid, notify, prior to the relevant Revision Notification Date, the relevant Train Operator of the requirement to amend the Timetable Week Slot in question.

3.8.3 The Train Operator shall, following receipt of notification from Railtrack under Condition D3.8.2 in respect of a particular Timetable Week Slot, submit:

- (a) a Revised Bid to Railtrack in respect of that Timetable Week Slot; and
- (b) a Revised Bid to Railtrack in respect of any other Timetable Week Slot, if any, which is materially affected by the revision of the Timetable Week Slot to which the notification under Condition D3.8.2 relates.

in each case following the applicable Revision Notification Date and prior to the applicable Revision Bid Date.

3.8.4 Railtrack shall, in respect of any Revised Bid submitted to it by the Train Operator under Condition D3.8.3 or in respect of any Spot Bid submitted to it by the Train Operator, in each case, in respect of a relevant Timetable Week which has been submitted to Railtrack prior to the Revised Bid Date, give notice to the Train Operator of its acceptance, modification or rejection of that Revised Bid or Spot Bid (as the case may be) by no later than the Revision Offer Date.

3.8.5 Railtrack shall, where it is in receipt of a Revised Bid submitted to it in accordance with the provisions of this Condition D3.8, in determining whether to accept, modify or reject a Revised Bid which it considers to have been properly submitted to it in accordance with Condition D3.8.3;

- (a) not accept such Revised Bid if to do so would give rise to any conflict with any Train Slot in the Working Timetable to which the Revised Bid relates or with the applicable Rules of the Route or applicable

Rules of the Plan (as amended, if relevant, in accordance with Condition D.3.4); and

(b) otherwise have due regard to the Decision Criteria,

and any notice of modification or rejection of a Revised Bid shall include a concise explanation therefor.

- 3.8.6 Railtrack shall be entitled to exercise its Flexing Right to amend any Timetable Week Slot in relation to which no Revised Bid has been submitted to Railtrack by the Train Operator in accordance with the provisions of this Condition D3.8 in order to enable Railtrack to take possessions for the purpose of carrying out work included in the Rules of the Route applicable to that Timetable Week Slot and the Train Operator shall not, in respect of that decision, be entitled to make a reference to the Timetabling Committee or the Regulator pursuant to Condition D5.1 or D5.2.
- 3.8.7 The Train Operator shall, following the date of receipt by it of notice of the modification or rejection by Railtrack of any Revised Bid made by it, notify Railtrack whether it accepts or disputes that decision of Railtrack, in each case prior to the relevant Revision Response Date, and the provisions of Conditions D3.3.2 to D3.3.4 (inclusive) shall apply, mutatis mutandis.
- 3.8.8 Where, in respect of any Timetable Week or any day therein, Railtrack receives any Spot Bid at least 8 weeks prior to the commencement of the relevant Timetable Week, Railtrack shall not be obliged to notify to the Train Operator its decision as to whether that Spot Bid is accepted, modified or rejected until the date falling 5 weeks prior to the commencement of the relevant Timetable Week.
- 3.8.9 The Train Operator shall, following the date of receipt by it of notice of the modification or rejection of any Spot Bid referred to in Condition D3.8.8, notify Railtrack whether it accepts or disputes that decision of Railtrack no later than 7 days following the date of that decision and the provisions of Conditions D3.3.2 to D3.3.4 (inclusive) shall apply, mutatis mutandis.
- 3.8.10 Railtrack shall provide details of the revisions to the Supplemental Timetable that will be operative in the relevant Timetable Week to all persons referred to in Condition D2.2.1 at least 3 weeks prior to the commencement of that Timetable Week.

CONDITION D4 - DECISION CRITERIA

The Decision Criteria consist of the necessity or desirability of the following (none of which necessarily has priority over any other):

- (a) sharing the capacity, and securing the development, of the Network for the carriage of passengers and goods in the most efficient and economical manner in the interests of all users of railway services having regard, in particular, to safety, the effect on the environment of the provision of railway services and the proper maintenance, improvement and enlargement of the Network;
- (b) enabling a Train Operator to comply with any contract to which it is party (including any contracts with their customers and, in the case of a Train Operator who is a franchisee or franchise operator, including the franchise agreement to which it is a party), in each case to the extent that Railtrack is aware or has been informed of such contracts;
- (c) maintaining and improving the levels of service reliability;
- (d) maintaining, renewing and carrying out other necessary work on or in relation to the Network;
- (e) maintaining and improving connections between railway passenger services;
- (f) avoiding material deterioration of the service patterns of operators of trains (namely the train departure and arrival frequencies, stopping patterns, intervals between departures and journey times) which those operators possess at the time of the application of these criteria;
- (g) ensuring that, where the demand of passengers to travel between two points is evenly spread over a given period, the overall pattern of rail services should be similarly spread over that period;
- (h) enabling operators of trains to utilise their railway assets efficiently and avoiding having to increase the numbers of railway assets which the operators require to maintain their service patterns;
- (i) facilitating new commercial opportunities, including promoting competition in final markets and ensuring reasonable access to the Network by new operators of trains;
- (j) avoiding wherever practicable frequent timetable changes, in particular for railway passenger services; and
- (k) taking into account the commercial interests of Railtrack and existing and potential operators of trains in a manner compatible with the foregoing.

In its consideration of paragraph (d) of this Condition D4, Railtrack shall not be entitled to determine that its possessions of any part of the Network shall be as contemplated by any relevant maintenance contract by reason only of the terms and conditions of that contract. In this paragraph, "relevant maintenance contract" is a contract which Railtrack shall have entered into, or shall intend to enter into, with any person for the maintenance, renewal or the carrying out of any other work on or in relation to the Network.

CONDITION D5 -TIMETABLE APPEAL PROCEDURE

5.1 *Right of appeal to Timetabling Committee*

Without prejudice to Conditions D3.3.2 and D3.3.3, if any Bidder is dissatisfied with any decision of Railtrack made pursuant to Condition D3, including:

- (a) the application by Railtrack of the Decision Criteria;
- (b) the acceptance or rejection by Railtrack of any Bid or Revised Bid;
- (c) the exercise by Railtrack of a Flexing Right; and
- (d) any decision of Railtrack which may be referred to the Timetabling Committee pursuant to Condition D3.4.5 or D3.4.9

it may within 7 days of receipt of such decision from Railtrack refer the matter to the Timetabling Committee for determination.

If Christmas Day occurs within such period of 7 days then the period shall be lengthened to 14 days.

5.2 *Right of appeal to the Regulator*

If Railtrack or any Bidder is dissatisfied with any decision of the Timetabling Committee in relation to any matter referred to it under Condition D5.1, that person may, within 7 days of receipt of the Timetabling Committee's decision and reasons (pursuant to paragraph A5.11.6 of the Access Dispute Resolution Rules), refer the matter to the Regulator for determination.

If Christmas Day occurs within such period of 7 days then the period shall be lengthened to 14 days.

5.3 *Information to be sent in relation to the appeal*

Without prejudice to Condition D5.5, where Railtrack or a Bidder refers a matter to the Timetabling Committee or the Regulator pursuant to Condition D5.1 or D5.2, the person making the reference shall:

- 5.3.1 include with it a statement in reasonable detail as to the matter in dispute and his reasons for making the reference; and
- 5.3.2 at the same time, send a copy of the reference and the statement referred to in Condition D5.3.1 to the other party or parties to the dispute.

5.4 *Obligation to provide evidence*

Without prejudice to Condition D5.5, the Access Parties shall, as soon as reasonably practicable after the relevant date of reference, and in any event before commencement of the Appeal Implementation Period, use their respective reasonable endeavours to procure that the Timetabling Committee and the Regulator are, respectively, furnished with sufficient evidence so as properly to consider any matters referred to them under Condition D5.1 or D5.2.

5.5 *Power of appeal bodies*

In relation to a reference to it or him made pursuant to Condition D5.1 or D5.2, the Timetabling Committee or the Regulator (as the case may be) (each an “appeal body”) shall, in determining the matter in question, have the power:

- 5.5.1 to give directions as to the procedure to be followed in the appeal, including in relation to the making of any written and oral submissions and the extent to which any evidence or other submissions made by one party to the appeal shall be disclosed to the other; except to the extent specified in subparagraphs (a) and (b) of paragraph A5.3.5 of the Access Dispute Resolution Rules, directions given by the Timetabling Committee pursuant to this Condition D5.5.1 shall not be inconsistent with paragraphs A3.6.2, A5.1, A5.2 or A5.4 to A5.11 inclusive of those Rules;
- 5.5.2 in the case of the Regulator, to make any interim order as to the conduct or the positions of the parties pending final determination of the matter by the Regulator;
- 5.5.3 in determining the matter in question:
 - (a) in the case of either appeal body:
 - (i) to direct Railtrack to comply with directions which specify the result to be achieved but not the means by which it shall be achieved (“general directions”); or
 - (ii) to direct the parties to accept any submissions made by Railtrack as to any Train Slots; and
 - (b) in the case of the Regulator, to specify the Train Slots and other matters which Railtrack should have determined in its decision made pursuant to Condition D3,

any such directions under paragraph (a) or (b) being, in the case of the Timetabling Committee, only by final determination, but in the case of the Regulator, either by interim order or final determination;

- 5.5.4 having given general directions, on the application of Railtrack within 7 days (or 14 days if Christmas Day falls within such period of 7 days) of the determination of the matter in question (or such longer period as the appeal body shall allow), to make such further orders as it shall consider appropriate in order to provide the parties with guidance as to the interpretation and application of such general directions; and
- 5.5.5 to make such orders as it shall think fit in relation to the proportions of the costs of the proceedings in question (assessed in such manner as the relevant appeal body shall determine) which shall be borne by either or both of the parties.

5.6 *Obligation to comply with determination of appeal*

The Access Parties shall, subject to and pending any reference to the Regulator, comply with any determination of the Timetabling Committee in relation to any dispute referred to it under this Condition D5, and shall comply with any interim order or final determination of the Regulator in relation to any such dispute referred to it.

5.7 *Effective date of Regulator's decision*

If, in relation to any particular dispute, any interim order or final determination of the Regulator is made during any period of operation of the Working Timetable to which the dispute relates, the Regulator may, if he is of the opinion that in the circumstances of the case the balance of material convenience to all affected persons (taking into account any material prejudice that may thereby result) favours such a course, stipulate that such order or determination shall take effect at a specified time during such period of operation.

5.8 *Additional powers and immunities of the Regulator*

Where any Access Party shall have made a reference to the Regulator under Condition D5.2, the Regulator shall:

- 5.8.1 be entitled to decline to act on the reference if, having consulted the parties concerned and considered the determination of the Timetabling Committee, he shall determine that the reference should not proceed, including on the grounds that:
- (a) the matter in question is not of sufficient importance to the industry;
 - (b) the reference to him is frivolous or vexatious; or
 - (c) the conduct of the party making the reference ought properly to preclude its being proceeded with; and

5.8.2 not be liable in damages or otherwise for any act or omission to act on his part (including negligence) in relation to the reference.

5.9 *Liability of Railtrack*

Railtrack shall not be liable for the consequences of any decision made by it which is implemented in a Working Timetable where, as a result of a reference under this Condition D5 in respect of that decision, that decision is subsequently overturned unless that decision is unreasonable or has been made in bad faith, in which case the making of that decision shall be deemed to have been a breach of Railtrack's obligations under this Part D.

Part E - Environmental Protection

Explanatory Note

- A. *Part E is concerned with environmental protection. Train Operators are required to notify Railtrack of any materials they propose to transport which would, by virtue of their nature or the quantity transported, be likely to give rise to Environmental Damage if they were to escape, and are required to provide Railtrack with a copy of any relevant authority for their carriage (such as a licence or certificate of registration).*
- B. *Railtrack and Train Operators must promptly notify each other of any circumstances which are reasonably foreseeable as likely to give rise to Environmental Damage.*
- C. *Where Railtrack becomes aware or is given a direction by a competent authority that as a direct or indirect result of the activities of a Train Operator, Environmental Damage has occurred or is likely to occur and action is required to prevent, mitigate or remedy that damage, it must make an assessment on the best information available to it at that time as to which of Railtrack and the Train Operators using that part of the Network is or are the most appropriate persons to take such action.*
- D. *In making its assessment, Railtrack is obliged to have due regard to certain specified criteria. Railtrack is further obliged to give notice to affected Train Operators within specified time limits of its decision and the reasons therefor. If an affected Train Operator disagrees with Railtrack's assessment, it may appeal to the Industry Committee and then refer the matter to arbitration.*
- E. *If a Train Operator fails to take any action required of it to prevent, remedy or mitigate Environmental Damage within a reasonable time or to the reasonable satisfaction of Railtrack or otherwise in cases of urgency, provisions exist for Railtrack to take the necessary action.*
- F. *Subject to Railtrack having complied with conditions F4 and G5 (respectively Vehicle and Network Change imposed by competent authorities) and to having given to all affected Train Operators as much notice as shall be reasonably practicable, Railtrack has the right to restrict track access on a temporary basis where necessary to deal with Environmental Damage but must use its reasonable endeavours to minimise those restrictions.*
- G. *This Explanatory Note does not form part of the Access Conditions.*

1.3 *Information as to materials to be transported*

Each Train Operator shall from time to time, and within a reasonable time of being requested to do so by Railtrack, provide Railtrack with:

- (a) information as to any materials it proposes to transport on the Network which would by virtue of their nature or the quantity transported be likely to give rise to Environmental Damage if those materials were to be discharged or emitted or to escape or migrate;
- (b) in relation to such materials as are referred to in sub-paragraph (a) above, a copy of any licence, authorisation, consent or certificate of registration required for their carriage.

1.4 *General information - Train Operator*

Each Train Operator shall promptly notify Railtrack (and where such notification is given orally shall promptly confirm such notification in writing) of any circumstances of which the Train Operator is aware and which it is reasonably foreseeable are likely to give rise to Environmental Damage as a result of or affecting the activities of the Train Operator. CONDITION E2 - REMEDIAL ACTION

2.1 *Assessment as to appropriate persons to take relevant steps*

2.1.1 *Railtrack's assessment*

Where:

- (a) Railtrack becomes aware that, as a direct or indirect result of the activities of a Train Operator, an Environmental Condition exists or has occurred and Railtrack reasonably considers that action is required to prevent, mitigate or remedy that Environmental Condition; or
- (b) Railtrack is given a Direction by a Competent Authority that some action is required to prevent, mitigate or remedy an Environmental Condition resulting directly or indirectly from the activities of a Train Operator

Railtrack shall make an assessment, on the best information available to it at the relevant time, as to which of Railtrack and the Train Operators with permission to use the relevant part of the Network is or are the persons who would be the most appropriate to take any relevant steps, and, if more than one is appropriate, in what proportions.

2.1.2 *Relevant criteria*

In making an assessment under Condition E2.1.1, Railtrack shall have due regard:

- (a) to the likelihood that the person in question may be liable (other than pursuant to this Part E) to make any payment or to take or omit to take any action in relation to the Environmental Condition or Direction in question, whether under any Access Agreement to which it is a party or otherwise;
- (b) in relation to the steps to be taken and the objectives of those steps, to the efficiency and economy with which the steps may be taken, and the effectiveness of those steps, if that person takes those steps, irrespective of the matters referred to in paragraph (a) above; and
- (c) all other relevant circumstances of the case.

2.1.3 *Notice of Railtrack's assessment*

Within 60 days of making its assessment, Railtrack shall give notice to each affected Train Operator of:

- (b) the assessment;
- (c) its reasons for reaching the assessment;
- (d) the availability for inspection by the Train Operator of such information as Railtrack shall have used in making the assessment; and
- (e) the steps which Railtrack reasonably considers:

 - (ii) which should be taken by the Train Operator in question.

2.1.4 *Compliance with Train Operator's request for information*

Railtrack shall comply with any reasonable request of an affected Train Operator for additional information in relation to the relevant liability or Railtrack's assessment, within a reasonable time of the request.

2.1.5 *Disagreement with Railtrack's assessment*

If an affected Train Operator shall be dissatisfied with Railtrack's assessment or with any other statement or information provided by Railtrack pursuant to Condition E2.1.3, it shall be entitled to refer the matter for resolution to the Industry Committee and thereafter to arbitration pursuant to the Access Dispute Resolution Rules. It shall lose that entitlement if it fails to make the reference within 120 days of the later of:

- (a) the date of its receipt of Railtrack's assessment; and
- (b) the date upon which it receives any further information to which it is entitled pursuant to this Condition E2.1.

2.2 Requirement to take relevant steps

2.2.1 Obligation

Subject to Conditions E2.1.5, E2.7 and E2.8, the Train Operator shall:

- (a) take the steps of which Railtrack gives it notice pursuant to Condition E2.1.3(e), provided Railtrack shall have given it a reasonable opportunity to do so; and
- (b) bear the costs of taking those steps.

2.2.2 Railtrack assistance and supervision

In cases where the Train Operator reasonably requires access to any part of the Network in order to take any relevant steps, Railtrack shall provide the Train Operator with such assistance and co-operation as shall be reasonable in that respect.

2.3 Railtrack's right to take relevant steps

If:

- (a) the Train Operator fails to take any relevant step within a reasonable time or to the reasonable satisfaction of Railtrack; or
- (b) in Railtrack's reasonable opinion, either:
 - (i) it is necessary to take any relevant step urgently; or
 - (ii) it is not reasonably practicable in the circumstances for the Train Operator to take any relevant step,

Railtrack shall be entitled to take the step in question and to be reimbursed by the Train Operator for a fair proportion of the reasonable costs of doing so. Railtrack shall give notice to the Train Operator in question of any step taken pursuant to this Condition E2.3.

2.4 Liability of Railtrack

Where Railtrack takes any steps in accordance with Condition E2.3, it shall not be liable to the Train Operator for any direct physical damage which is caused as a result of the taking of such steps except to the extent that Railtrack, or any person acting on behalf of or on the instructions of Railtrack, has been negligent or has failed to perform any obligation.

2.5 Access to land

Each Train Operator shall use all reasonable endeavours to procure that Railtrack shall be given such right of access to any land upon which plant, equipment, rolling stock or machinery of the Train Operator is located as may be reasonably necessary to enable Railtrack to take any relevant steps.

2.6 General right to restrict access to Network

2.6.1 Subject to having complied with Conditions F4 and G5 and to having given to all affected Train Operators as much notice as shall be reasonably practicable, Railtrack shall have the right to restrict permission to use the Network to the extent and for such period as is reasonably necessary to prevent, mitigate or remedy an Environmental Condition or to comply with a relevant Direction of a Competent Authority in respect of an Environmental Condition.

2.6.2 Where permission to use the Network is restricted pursuant to Condition E2.6.1, Railtrack shall use all reasonable endeavours to keep the extent and duration of such a restriction to a minimum and shall keep all affected Train Operators reasonably and regularly informed of the steps being taken by Railtrack to remove the restriction.

2.7 Payments to be made on without prejudice basis

Payments by a Train Operator under this Condition E2 shall be made without prejudice to the right of the Train Operator's right to recover the whole or any part of the amounts in question from Railtrack or any other person, whether under an Access Agreement or in any other way.

2.8 Action taken will not prejudice later claim

No action taken by a Train Operator in compliance with its obligations under this Condition E2 shall prejudice the right of the Train Operator at a later date to claim that any other person has the relevant liability.

Part F - Vehicle Change

Explanatory Note

- A. *Part F provides a procedure by which changes may be made to railway vehicles, the use of which is permitted in the access contract, from the specifications in the access contract. Vehicle Change includes any alteration to the physical characteristics of the vehicles, any increase in the length of any trains beyond that specified in the relevant access contract and any introduction of different vehicles on to the relevant routes which, in any case, is likely materially to affect the maintenance or operation of the Network or the operation of trains on the Network.*
- B. *A Train Operator wishing to make a Vehicle Change must submit a proposal to Railtrack, who must consult with affected parties and must give the Train Operator an initial response within 28 days. Although there is no charge for such a preliminary response, Railtrack is entitled to reimbursement of 75% of all costs of any further investigation of the proposal after the 28 day period. Any such costs are restricted to the minimum reasonably necessary for Railtrack to carry out the investigation.*
- C. *A Train Operator is entitled to implement a proposed Vehicle Change except in certain specified circumstances, including where any such change would result in a material deterioration in the performance of the Network or any train on the Network which cannot be adequately compensated or would result in Railtrack breaking any other access contract.*
- D. *A Train Operator may have to pay compensation to Railtrack in respect of any costs, losses or expenses incurred by Railtrack, any other Train Operator or any other operator of railway assets as a result of a Vehicle Change. The benefit of the change to Railtrack, a Train Operator or any other operator of railway assets and their chances of recouping such costs will be taken into account in determining the amount of such compensation.*
- E. *It is expected that the normal means of resolving differences between Railtrack and each Train Operator, regarding proposed Vehicle Changes, will be by negotiation and agreement, possibly involving some element of financial compensation. However, in order to deal with those cases where agreement cannot be reached, provision is made for Train Operators to appeal against the relevant Railtrack decision. An appeal is, in the first instance, made to the Network and Vehicle Change sub-Committee of the Industry Committee. If either Railtrack or the Train Operator is dissatisfied with the decision of that Committee, it may appeal to the Regulator. Both appeals are heard on the merits of the matter in dispute and the relevant appeal body may make such orders as it thinks fit in relation to the proportions of the costs of the appeal to be borne by either or both of the parties.*
- F. *This Explanatory Note does not form part of the Access Conditions.*

DEFINITIONS

In this Part F, unless the context otherwise requires:

- “Specified Equipment” means, in respect of an Access Agreement, any railway vehicle the use of which is permitted on the track pursuant to that agreement;
- “Vehicle Change” means, in respect of a Train Operator, any change to the Specified Equipment including by way of:
- (a) alteration to the physical characteristics of Specified Equipment;
 - (b) any increase in the length of any trains beyond that specified in the Access Agreement to which it is party; or
 - (c) the inclusion in Specified Equipment of any railway vehicle which is not so included
- which, in any case, is likely materially to affect the maintenance or operation of the Network or operation of trains on the Network.

CONDITION F1 - INITIATION OF VEHICLE CHANGE PROCEDURE BY A TRAIN OPERATOR

1.1 *Railway Group Standards*

The obligation to comply with the requirements of this Part F shall be without prejudice to the obligations of the Access Parties to comply with the Railway Group Standards.

1.2 *Submission of proposal*

A Train Operator shall, if it wishes to implement a Vehicle Change, submit to Railtrack a proposal for such change together with:

- (a) such particulars of the proposed change as are reasonably necessary to enable Railtrack to assess the effect of the change both on the operation by Railtrack of the Network and on the operation of trains on the Network, and which it is reasonable to expect the Train Operator to provide; and
- (b) permission for Railtrack to consult to the extent provided for under Condition F1.3(b) subject to such requirements as to confidentiality as are reasonable.

1.3 *Evaluation of proposal*

Railtrack shall following receipt of any proposal for Vehicle Change from a Train Operator:

- (a) evaluate and discuss that proposal with that Train Operator for such period as is reasonable having due regard to the likely impact of the proposed Vehicle Change on either or both of Railtrack and other operators of trains; and
- (b) consult with all other operators of railway assets who are likely to be materially affected by the proposed change to the extent reasonably necessary so as properly to inform them of the change and to enable them to assess the consequences for them of the change.

1.4 *Provision of estimate of costs by Train Operator*

The Train Operator proposing a Vehicle Change shall use all reasonable endeavours to facilitate such consultation following receipt of a reasonable request by Railtrack for it to do so. Any Train Operator so consulted shall as soon as and, so far as reasonably practicable, provide to Railtrack an estimate of those costs, losses and expenses referred to in Condition F3.1 which may be incurred by that operator as a result of the implementation of the proposed Vehicle Change.

1.5 *Obligation to provide preliminary response*

Railtrack shall, if requested to do so in writing by a Train Operator, provide, at no cost to the Train Operator, a preliminary written response in respect of a proposed Vehicle Change (which, unless Railtrack indicates otherwise, shall be binding on it) to that Train Operator as soon as practicable and in any event within the period of 28 days commencing on:

- (a) the date of first notification to it in writing of the proposal for Vehicle Change made by the Train Operator; or (if later)
- (b) the date of the request for a preliminary response,

and any such preliminary response, if negative, shall include the reasons therefor.

1.6 *Reimbursement of costs*

Subject to Conditions F1.5 and F3, Railtrack shall be entitled to reimbursement by a Train Operator of 75% of all costs incurred by Railtrack in assessing any Vehicle Change proposed by that operator. Those costs shall be the minimum reasonably necessary for Railtrack to carry out that assessment.

1.7 *Provision of estimate of costs by Railtrack*

Railtrack shall, upon request from a Train Operator from time to time, provide the Train Operator with written estimates of the costs of assessing a proposal for Vehicle Change submitted by that operator (as referred to in Condition F1.6) including estimated costings of the work to be carried out and shall:

- (a) be entitled to require reasonable assurances of payment in respect of any material work to be carried out for the purposes of that evaluation before commencing such work; and
- (b) upon request from the Train Operator from time to time, provide the Train Operator or its agents with such information as may be reasonably necessary to enable the Train Operator to assess the reasonableness of any estimate.

1.8 *Accuracy of estimates*

Railtrack shall ensure that any estimates given by it are, so far as reasonably practicable, accurate on the basis of the information reasonably available to it.

1.9 *Obligation to incur no further costs*

Railtrack shall, if requested by a Train Operator at any time, incur no further costs (except any costs that cannot reasonably be avoided) in respect of any proposal for Vehicle Change made by that Train Operator.

CONDITION F2 - RELATIONSHIP WITH NETWORK CHANGE

- 2.1 If the implementation of a proposed Vehicle Change also requires the implementation of a Network Change, the sponsor of the Vehicle Change shall follow the procedures and satisfy the requirements of both this Part F and Part G and the requirement for a Network Change shall not preclude the right of the sponsor to follow the procedure in this Part F for a Vehicle Change or vice versa.

CONDITION F3 - RESPONSE BY RAILTRACK TO VEHICLE CHANGE PROPOSAL

3.1 *Obligation to give notice of response*

Railtrack shall give notice to the sponsor of a Vehicle Change if:

- (a) it considers that one or more of the following conditions has been satisfied:
 - (i) the implementation of the change would necessarily result in Railtrack breaching any access contract (other than an access contract to which the Train Operator which has made the relevant proposal is a party);
 - (ii) the sponsor of that change has failed in a material respect to comply with its obligations under Condition F1.2 provided that Railtrack shall first have given the sponsor a reasonable opportunity to remedy that failure; or
 - (iii) the implementation of that change would result in a material adverse effect on the maintenance or operation of the Network or operation of trains on the Network, which in any such case cannot adequately be compensated under this Condition F3;
- (b) any Train Operator shall have given notice to Railtrack that it considers that any of the conditions specified in paragraph (a) above has been satisfied;
- (c) it considers that it should be entitled to compensation from the sponsor for the consequences of the implementation of the change; or
- (d) any other operator of railway assets shall have given notice to Railtrack that it considers that it should be entitled to compensation from the sponsor for the consequences of the implementation of the change.

Any notice of the kind referred to in paragraphs (a) or (b) above shall include the reasons for the opinion in question. Any notice of the kind mentioned in paragraphs (c) or (d) above shall include a statement of the amount of compensation required and the means by which the compensation should be paid, including any security or other assurances of payment which the sponsor should provide. Any such statement shall contain such detail as is reasonable to enable the sponsor to assess the merits of the statement.

3.2 Amount of compensation

Subject to Condition F3.3, the amount of the compensation referred to in Condition F3.1 shall be an amount equal to the amount of the costs, direct losses and expenses (including loss of revenue) which can reasonably be expected to be incurred by Railtrack or the operator in question as a consequence of the implementation of the proposed change other than any such costs, losses or expenses which are attributable to the sponsor of the change improving its ability to compete with other operators of railway assets.

3.3 Benefits to be taken into account

There shall be taken into account in determining the amount of compensation referred to in Condition F3.1:

- (a) the benefit (if any) to be obtained or likely in the future to be obtained by Railtrack or any other operator of trains as a result of the proposed Vehicle Change; and
- (b) the ability or likely future ability of Railtrack or any other operator of trains to recoup any costs, losses and expenses from third parties including passengers and customers.

3.4 Rights in relation to implementation of Vehicle Change

If:

- (a) Railtrack shall have given notice to the sponsor of a Vehicle Change pursuant to Condition F3.1 (a) or (b) and the sponsor shall have failed to refer the matter for determination pursuant to the Access Dispute Resolution Rules; or
- (b) Railtrack shall have given notice to the sponsor pursuant to Condition F3.1 (c) or (d) and the sponsor shall have failed either:
 - (i) to comply with the terms upon which the compensation in question shall be payable, having been given a reasonable opportunity to remedy that failure; or
 - (ii) to refer the matter for determination pursuant to the Access Dispute Resolution Rules within 14 days of the date of the notice in question,

the proposed Vehicle Change shall not be implemented. In any other case and subject to the other provisions of these Access Conditions, the sponsor of the Vehicle Change shall be entitled to implement it.

CONDITION F4 - CHANGES IMPOSED BY COMPETENT AUTHORITIES

- 4.1 Where a Train Operator is required (other than at the request or instigation of the Train Operator) to implement a Vehicle Change as a result of any Change of Law or any Direction of any Competent Authority other than the Regulator:
- (a) each Access Party shall, except to the extent that the relevant Change of Law or Direction otherwise requires, comply with Conditions F1.2, F1.3 and F1.4 (other than the final sentence) in respect of that Vehicle Change;
 - (b) Railtrack shall make such alterations (if any) to the Network as are reasonably necessary to accommodate that Vehicle Change and each Access Party shall, except to the extent that the relevant Change of Law or Direction otherwise requires, comply with Conditions G1.2 and G1.3 (other than the final sentence); and
 - (c) each Access Party shall bear its own costs and losses arising out of the implementation of the Vehicle Change or the consequences thereof.

CONDITION F5 - APPEAL PROCEDURE

5.1 *Right of appeal to Network and Vehicle Change Committee*

If a Train Operator is dissatisfied as to any matter concerning the operation of the procedure set out in this Part F, the contents of any notice given by Railtrack under Condition F3.1 (and, in particular, the amount of any compensation referred to in that Condition) or any estimate as referred to in Condition F1.7, it may refer the matter to the Network and Vehicle Change Committee for determination.

5.2 *Right of appeal to the Regulator*

If either Access Party is dissatisfied with any decision of the Network and Vehicle Change Committee in relation to any matter referred to it under Condition F5.1, that Access Party may refer the matter to the Regulator for determination.

5.3 *Information to be sent in relation to the appeal*

Without prejudice to Condition F5.5, where an Access Party refers a matter to the Network and Vehicle Change Committee or the Regulator pursuant to Condition F5.1 or F5.2, that Access Party shall at the same time:

- (a) provide a statement in reasonable detail as to the matter in dispute and its reasons for making the reference; and
- (b) send a copy of the reference and the statement referred to in Condition F5.3.1 to the other party or parties to the dispute.

5.4 *Obligation to provide evidence*

Without prejudice to Condition F5.5, the Access Parties shall, as soon as reasonably practicable after the date of reference, use their respective reasonable endeavours to procure that the Network and Vehicle Change Committee and the Regulator are, respectively, furnished with sufficient evidence to consider any matters referred to them under Condition F5.1 or F5.2.

5.5 *Power of appeal bodies*

In relation to a reference to it or him made pursuant to Condition F5.1 or F5.2, the Network and Vehicle Change Committee or the Regulator (as the case may be) (each an “appeal body”) shall, in determining the matter in question, have the power:

- 5.5.1 to give directions as to the procedure to be followed in the appeal, including in relation to the making of any written and oral submissions and the extent to which any evidence or other submissions made by one party to the appeal shall be disclosed to the other; except to the extent specified in sub-paragraphs (a) and (b) of paragraph A5.3.5 of the Access Dispute Resolution Rules, directions given by the Network and Vehicle Change Committee pursuant to this Condition F5.5.1 shall not be inconsistent with paragraphs A3.6.2, A5.1, A5.2 or A5.4 to A5.11 inclusive of those Rules;
- 5.5.2 in the case of the Regulator, to make any interim order as to the conduct or the positions of the parties pending final determination of the matter by the Regulator;
- 5.5.3 in determining the matter in question:
 - (a) in the case of either appeal body:
 - (i) to direct the parties to the dispute to comply with directions which specify the result to be achieved but not the means by which it shall be achieved (“general directions”); or
 - (ii) to direct the parties to accept any submissions made by Railtrack as to the relevant Vehicle Change; and
 - (b) in the case of the Regulator, to specify the matters which Railtrack should have determined in giving any notice pursuant to Condition F3.1,

any such directions under paragraph (a) or (b) being, in the case of the Network and Vehicle Change Committee, only by final determination, but in the case of the Regulator, either by interim order or final determination;

- 5.5.4 having given general directions, on the application of any party to the dispute within 7 days of the determination of the matter in question (or such longer period as the appeal body shall allow), to make such further orders as it shall consider appropriate in order to provide the parties with guidance as to the interpretation and application of such general directions; and
- 5.5.5 to make such orders as it shall think fit in relation to the proportions of the costs of the proceedings in question (assessed in such manner as the relevant appeal body shall determine) which shall be borne by either or both of the parties.

5.6 *Obligation to comply with determinations*

The Access Parties shall, subject to and pending any reference to the Regulator, comply with any determination of the Network and Vehicle Change Committee in relation to any dispute referred to it under this Condition F5, and shall comply with any interim order or final determination of the Regulator in relation to any such dispute referred to him.

5.7 *Additional powers and immunities of the Regulator*

Where any Access Party shall have made a reference to the Regulator under Condition F5.2, the Regulator shall:

- 5.7.1 be entitled to decline to act on the reference if, having consulted the parties concerned and considered the determination of the Network and Vehicle Change Committee, he shall determine that the reference should not proceed, including on the grounds that:
 - (a) the matter in question is not of sufficient importance to the industry;
 - (b) the reference to him is frivolous or vexatious; or
 - (c) the conduct of the party making the reference ought properly to preclude its being proceeded with;
- 5.7.2 not be liable in damages or otherwise for any act or omission to act on his part (including negligence) in relation to the reference.

Part G - Network Change

Explanatory Note

- A. *Part G provides a procedure by which changes may be made to the Network. A Network Change includes any change to any part of the Network, the format of any operational documentation or any change or series of changes which has lasted for more than six months and in each case which is likely to materially affect the operation of the Network or of trains operated by an operator. In addition, a material change to the performance monitoring points and, after a certain period of time, to any previously agreed Network Change is subject to the Network Change procedure.*
- B. *Proposals for Network Change may be initiated either by Railtrack or by a Train Operator. Railtrack has a duty to consult with all affected Train Operators on any proposed Network Change and must give any Train Operator proposing a Network Change an initial response within 28 days. Although there is no charge for such a preliminary response, Railtrack is entitled to reimbursement of 75% of all costs of any further investigation of a Network Change proposal put forward by a Train Operator after the 28 day period. Any such costs are restricted to the minimum reasonably necessary for Railtrack to carry out an assessment. A similar provision applies in relation to costs incurred by a Train Operator assessing a Network Change proposed by Railtrack.*
- C. *Railtrack may implement a proposed Network Change except in certain circumstances including where any such change would result in a material deterioration in the performance of any train on the Network which cannot be adequately compensated. Railtrack can also implement a Network Change for safety reasons without following the Network Change procedure for up to three months but upon the expiration of three months Railtrack is obliged to implement the Network Change procedure.*
- D. *The proposer of the Network Change may have to pay compensation in respect of any costs, losses or expenses incurred by (if a Train Operator is the proposer) Railtrack or any other Train Operator or (if Railtrack is the proposer) by Train Operators, as a result of a Network Change. The benefit of the change to Railtrack or a Train Operator and their chances of recouping their costs or losses from third parties shall be taken into account in determining the amount of that compensation.*
- E. *It is expected that the normal means of resolving differences between Railtrack and each Train Operator, regarding proposed Network Changes, will be by negotiation and agreement, possibly involving some element of financial compensation. However, in order to deal with those cases where agreement cannot be reached, provision is made for Train Operators to appeal against the relevant Railtrack decision. An appeal is, in the first instance, made to the Network and Vehicle Change sub-Committee of the Industry Committee. If either Railtrack or the Train Operator is dissatisfied with the decision of that Committee, it may appeal to the Regulator. Both appeals are heard on the merits of the matter in dispute and the relevant appeal body may make such orders as it thinks fit in relation to the proportions of the costs of the appeal to be borne by either or both of the parties.*
- F. *This Explanatory Note does not form part of the Access Conditions.*

DEFINITIONS

In this Part G, unless the context otherwise requires:

- “Network Change” means, in relation to a Train Operator,
- (i) any change (including any improvement or enlargement) to
 - (a) any part of the Network; or
 - (b) the format of any operational documentation (other than Railway Group Standards) owned or used by Railtrack or a Train Operator,which is likely materially to affect the operation of the Network, or of trains operated by that operator on the Network; or
 - (ii) any material change to the location of any of the specified points referred to in Condition B1.1(a); or
 - (iii) any change (not being a change within paragraph (i) or (ii) above) to the operation of the Network (including a temporary speed restriction) or series of such changes which has lasted for more than six months (or such other period as may be specified in that operator's Access Agreement) and which is likely materially to affect the operation of trains by that operator on the Network; or
 - (iv) any material change to a previously agreed network change (and for the purposes of this definition a previously agreed network change means any change as referred to in paragraph (i), (ii) or (iii) above which has not yet been implemented by Railtrack but in respect of which the procedure set out in this Part G has been initiated),

and shall not include a closure or any change to any System or System Interface of any System owned or used by Railtrack or a Train Operator;

“System” means any configuration of computer hardware, software and related communications equipment, whether or not the components are located on one site; and

“System Interface” means that part (whether logical, electrical, mechanical or otherwise) of any System which enables that System to interface with any other System, including but not limited to interfacing for the purpose of passing data or other information between them.

CONDITION G1 - NETWORK CHANGE PROPOSAL BY RAILTRACK

1.1 *Notice of proposal*

Subject to Conditions G1.8 and G1.9, Railtrack shall, if it wishes to implement a Network Change:

- (a) give notice of its proposal for Network Change to:
 - (i) each Train Operator that may be affected by the implementation of the proposed Network Change;
 - (ii) the Franchising Director;
 - (iii) the HSE;
 - (iv) the Regulator; and
 - (v) each Passenger Transport Executive that may be affected by the implementation of the proposed Network Change;together with particulars of the proposed change which are reasonably necessary to enable that person to assess the effect of the proposed change and to enable each Train Operator to assess the effect of the proposed change on the operation of its trains; and
- (b) invite the submission of comments from the persons specified in Condition G1.1(a) within such period as is reasonable in the circumstances having due regard to the likely impact of the proposed Network Change on those persons.

1.2 *Provision of estimate of costs*

Railtrack shall, in respect of any proposal by it for Network Change, consult with all operators of railway assets likely to be materially affected by the proposed change to the extent reasonably necessary so as properly to inform that operator of the change and to enable that operator to assess the consequences for it of the proposed change. Any Train Operator so consulted shall, as soon as and so far as reasonably practicable, provide to Railtrack an estimate of those costs, losses and expenses referred to in Condition G2.1 which may be incurred by the Train Operator as a result of the implementation of the proposed Network Change.

1.3 *Reimbursement of costs*

Subject to Conditions G1.4 and G2, each Train Operator shall be entitled to reimbursement by Railtrack of 75% of all costs incurred by that Train Operator in assessing any Network Change proposed by Railtrack. Those costs shall be the minimum reasonably necessary for that Train Operator to carry out that assessment.

1.4 *Obligation to provide preliminary response*

A Train Operator shall, if requested to do so in writing by Railtrack, provide, at no cost to Railtrack, a preliminary written response in respect of a proposed Network Change (which, unless the Train Operator indicates otherwise, shall be binding on it) to Railtrack as soon as practicable and in any event within the period of 28 days commencing on:

- (a) the date of first notification to it in writing of the proposal for Network Change; or (if later)
- (b) the date of the request for a preliminary response,

and any such preliminary response, if negative, shall include the reasons therefor.

1.5 *Further information regarding costs*

Each Train Operator shall, upon request from Railtrack from time to time, provide Railtrack with written estimates of the costs of assessing a proposal for Network Change proposed by Railtrack (as referred to in Condition G1.3) including estimated costings of the work to be carried out and shall:

- (a) be entitled to require reasonable assurances of payment in respect of any material work to be carried out for the purposes of that evaluation before commencing such work; and
- (b) upon request from Railtrack from time to time, provide Railtrack with such information as may be reasonably necessary to enable Railtrack to assess the reasonableness of any estimate.

1.6 *Accuracy of estimates*

Each Train Operator shall ensure that any estimates given by it are, so far as reasonably practicable, accurate on the basis of the information reasonably available to it.

1.7 *Obligation to incur no further costs*

A Train Operator shall, if requested by Railtrack at any time, incur no further costs (except any costs which cannot reasonably be avoided) in respect of any proposal for Network Change made by Railtrack.

1.8 *Changes to the operation of the Network*

In the case of a Network Change within the meaning of paragraph (iii) of that term's definition, Railtrack may commence implementing the procedure set out in this Part G and shall, upon notice being given by the relevant Train Operator to Railtrack at any time after the expiry of the relevant period, promptly commence implementing and thereafter comply with that procedure as if that change were a Network Change proposed by Railtrack.

1.9 *Network Change for safety reasons*

To the extent that a Network Change within the meaning of paragraph (i) of that term's definition is required to be made by Railtrack for safety reasons, Railtrack shall not be obliged to implement the procedure set out in this Part G in relation to that change until the change has lasted for three months (or such longer period as may be specified in the relevant Train Operator's Access Agreement). Upon expiry of the relevant period, Railtrack shall promptly commence implementing and thereafter comply with the procedure set out in this Part G as if the relevant Network Change were a Network Change proposed by Railtrack.

CONDITION G2 - RESPONSE BY TRAIN OPERATOR TO NETWORK CHANGE PROPOSAL

2.1 *Obligation to give notice of response*

The Train Operator shall give notice to Railtrack if it considers that either:

- (a) one or more of the following conditions has been satisfied:
 - (i) the implementation of the proposed change would necessarily result in Railtrack breaching an access contract to which that Train Operator is a party;
 - (ii) Railtrack has failed, in respect of the proposed change, to provide sufficient particulars to that Train Operator under Condition G1.1; or
 - (iii) the implementation of the proposed change would result in a material deterioration in the performance of that Train Operator's trains which cannot adequately be compensated under this Condition G2; or
- (b) it should be entitled to compensation from Railtrack for the consequences of the implementation of the change.

Any notice of the kind referred to in paragraph (a) above shall include the reasons for the Train Operator's opinion. Any notice of the kind mentioned in paragraph (b) above shall include a statement of the amount of compensation required and the

means by which the compensation should be paid, including any security or other assurances of payment which Railtrack should provide. Any such statement shall contain such detail as is reasonable to enable Railtrack to assess the merits of the Train Operator's decision.

2.2 Amount of compensation

Subject to Condition G2.3, the amount of the compensation referred to in Condition G2.1 shall be an amount equal to the amount of the costs, direct losses and expenses (including loss of revenue) which can reasonably be expected to be incurred by the Train Operator as a consequence of the implementation of the proposed change.

2.3 Benefits to be taken into account

There shall be taken into account in determining the amount of compensation referred to in Condition G2.1:

- (a) the benefit (if any) to be obtained or likely in the future to be obtained by the Train Operator as a result of the proposed Network Change; and
- (b) the ability or likely future ability of the Train Operator to recoup any costs, losses and expenses from third parties including passengers and customers.

2.4 Rights in relation to implementation of Network Change

If:

- (a) a Train Operator shall have given notice to Railtrack pursuant to Condition G2.1(a) and Railtrack shall have failed to refer the matter for determination pursuant to the Access Dispute Resolution Rules; or
- (b) a Train Operator shall have given notice to Railtrack pursuant to Condition G2.1(b) and Railtrack shall have failed either:
 - (i) to comply with the terms upon which the compensation in question shall be payable, having been given a reasonable opportunity to remedy that failure; or
 - (ii) to refer the matter for determination pursuant to the Access Dispute Resolution Rules within 14 days of the date of the notice in question,

the proposed Network Change shall not be implemented. In any other case and subject to the other provisions of these Access Conditions, Railtrack shall be entitled to implement the Network Change.

CONDITION G3 - NETWORK CHANGE PROPOSAL BY TRAIN OPERATOR

3.1 *Submission of proposal*

A Train Operator shall, if it wishes to implement a Network Change, submit to Railtrack a proposal for such change together with:

- (a) such particulars of the proposed change as are reasonably necessary to enable Railtrack to assess the effect of the change both on the operation by Railtrack of the Network and on the operation of trains on the Network, and which it is reasonable to expect the Train Operator to provide; and
- (b) permission for Railtrack to consult to the extent provided for under Condition G3.2(b) subject to such requirements as to confidentiality as are reasonable.

3.2 *Evaluation of proposal*

Railtrack shall following receipt of any proposal for Network Change from a Train Operator:

- (a) evaluate and discuss the proposal for change with that Train Operator for such period as is reasonable having due regard to the likely impact of the proposed Network Change on either or both of Railtrack and other operators of trains; and
- (b) consult with all other operators of railway assets which are likely to be materially affected by the proposed change to the extent reasonably necessary so as properly to inform them of the change and to enable them to assess the consequences for them of the change.

3.3 *Provision of estimate of costs by Train Operator*

The Train Operator proposing a Network Change shall use all reasonable endeavours to facilitate such consultation following receipt of a reasonable request by Railtrack for it to do so. Any Train Operator so consulted shall, as soon as and so far as reasonably practicable, provide to Railtrack an estimate of those costs, losses and expenses referred to in Condition G4.1 which may be incurred by that operator as a result of the implementation of the proposed Network Change.

3.4 *Obligation to provide preliminary response*

Railtrack shall, if requested to do so in writing by a Train Operator, provide, at no cost to the Train Operator, a preliminary response in respect of a proposed Network Change (which, unless Railtrack indicates otherwise, shall be binding on it) to that Train Operator as soon as practicable and in any event within the period of 28 days commencing on:

- (a) the date of first notification to it in writing of the proposal for Network Change made by the Train Operator; or (if later)
- (b) the date of the request for a preliminary response,

and any such preliminary response, if negative, shall include the reasons therefor.

3.5 *Reimbursement of costs*

Subject to Conditions G3.4 and G4, Railtrack shall be entitled to reimbursement by a Train Operator of 75% of all costs incurred by Railtrack in assessing any Network Change proposed by that operator. Those costs shall be the minimum reasonably necessary for Railtrack to carry out that assessment.

3.6 *Provision of estimate of costs by Railtrack*

Railtrack shall, upon request from a Train Operator from time to time, provide the Train Operator with written estimates of the costs of assessing a proposal for Network Change submitted by that operator (as referred to in Condition G3.5) including estimated costings of the work to be carried out and shall:

- (a) be entitled to require reasonable assurances of payment in respect of any material work to be carried out for the purposes of that assessment before commencing such work; and
- (b) upon request from the Train Operator from time to time provide the Train Operator or its agents with such information as may be reasonably necessary to enable the Train Operator to assess the reasonableness of any estimate.

3.7 *Accuracy of estimates*

Railtrack shall ensure that any estimates given by it are, so far as reasonably practicable, accurate on the basis of the information reasonably available to it.

3.8 *Obligation to incur no further costs*

Railtrack shall, if requested by a Train Operator at any time, incur no further costs (except any costs that cannot reasonably be avoided) in respect of any proposal for Network Change made by that Train Operator.

3.9 *Relationship with Vehicle Change*

If the implementation of a Network Change proposed by a Train Operator also requires the implementation of a Vehicle Change in respect of the trains operated by that Train Operator, the sponsor of the Network Change shall follow the procedures and satisfy the requirements of both this Part G and Part F and the requirement for a Vehicle Change shall not preclude the right of the sponsor to follow the procedure in this Part G for a Network Change or vice versa.

CONDITION G4 - RESPONSE BY RAILTRACK TO NETWORK CHANGE PROPOSAL

4.1 *Obligation to give notice of response*

Railtrack shall give notice to the sponsor of a Network Change if:

- (a) it considers that one or more of the following conditions has been satisfied:
 - (i) the implementation of the change would necessarily result in Railtrack breaching any access contract (other than an access contract to which the Train Operator who has made the relevant proposal is a party);
 - (ii) the sponsor of that change has failed in a material respect to comply with its obligations under Condition G3.1 provided that Railtrack shall first have given the sponsor a reasonable opportunity to remedy that failure; or
 - (iii) the implementation of that change would result in a material adverse effect on the maintenance or operation of the Network or the operation of any train on the Network which in any such case cannot adequately be compensated under this Condition G4; or
- (b) any Train Operator shall have given notice to Railtrack that it considers that any of the conditions specified in paragraph (a) above has been satisfied;
- (c) it considers that it should be entitled to compensation from the sponsor for the consequences of the implementation of the change; or
- (d) any other operator of railway assets shall have given notice to Railtrack that it considers that it should be entitled to compensation from the sponsor for the consequences of the implementation of the change.

Any notice of the kind referred to in paragraph (a) or (b) above shall include the reasons for the opinion in question. Any notice of the kind mentioned in paragraph (c) or (d) above shall include a statement of the amount of compensation required and the means by which the compensation should be paid, including any security or other assurances of payment which the sponsor should provide. Any such statement shall contain such detail as is reasonable to enable the sponsor to assess the merits of the statement.

4.2 *Amount of compensation*

Subject to Condition G4.3, the amount of the compensation referred to in Condition G4.1 shall be an amount equal to the amount of the costs, direct losses and expenses (including loss of revenue) which can reasonably be expected to be incurred by Railtrack or the operator in question as a consequence of the implementation of the proposed change other than any such costs, losses or expenses which are attributable to the sponsor of the change improving its ability to compete with other operators of railway assets.

4.3 *Benefits to be taken into account*

There shall be taken into account in determining the amount of compensation referred to in Condition G4.1:

- (a) the benefit (if any) to be obtained or likely in the future to be obtained by Railtrack or any other Train Operator as a result of the proposed Network Change; and
- (b) the ability or likely future ability of Railtrack or any such other Train Operator to recoup any costs, losses and expenses from third parties including passengers and customers.

4.4 *Rights in relation to implementation of Network Change*

If:

- (a) Railtrack shall have given notice to the sponsor of a Network Change pursuant to Condition G4.1(a) or (b) and the sponsor shall have failed to refer the matter for determination pursuant to the Access Dispute Resolution Rules; or
- (b) Railtrack shall have given notice to the sponsor pursuant to Condition G4.1(c) or (d) and the sponsor shall have failed either:
 - (i) to comply with the terms upon which the compensation in question shall be payable, having been given a reasonable opportunity to remedy that failure; or

- (ii) to refer the matter for determination pursuant to the Access Dispute Resolution Rules within 14 days of the date of the notice in question,

the proposed Network Change shall not be implemented. In any other case, and subject to the other provisions of these Access Conditions, the sponsor of the Network Change shall be entitled to have it implemented by Railtrack.

CONDITION G5 - CHANGES IMPOSED BY COMPETENT AUTHORITIES

5.1 *Obligations following imposition of changes*

Where Railtrack is required (other than at its own request or instigation) to implement a Network Change as a result of any Change of Law or any Direction of any Competent Authority other than the Regulator:

- (a) Railtrack shall, except to the extent that the relevant Change of Law or Direction otherwise requires, comply with Conditions G1.1 and G1.2 (other than the final sentence) in respect of that Network Change;
- (b) each Train Operator shall make such alterations (if any) to its railway vehicles and its Services as are reasonably necessary to accommodate that Network Change and shall, except to the extent that the relevant Change of Law or Direction otherwise requires, comply with Conditions F1.2, F1.3 and F1.4 (other than the final sentence); and
- (c) each Access Party shall bear its own costs or losses arising out of the implementation of the Network Change or the consequences thereof.

5.2 *Compliance with Railway Group Standards*

The obligation to comply with the requirements of this Part G shall be without prejudice to the obligations of the Access Parties to comply with the Railway Group Standards.

CONDITION G6 - APPEAL PROCEDURE

6.1 *Right of appeal to Network and Vehicle Change Committee*

If any Access Party is dissatisfied as to any matter concerning the operation of the procedure in this Part G, the contents of any notice given under Condition G2.1 or G4.1 (and, in particular, the amount of any compensation referred to in that Condition) or any estimate referred to in Condition G1.5 or G3.6 that Access Party may refer the matter to the Network and Vehicle Change Committee for determination.

6.2 Right of appeal to the Regulator

If either Access Party is dissatisfied with any decision of the Network and Vehicle Change Committee in relation to any matter referred to it under Condition G6.1 that Access Party may refer the matter to the Regulator for determination.

6.3 Information to be sent in relation to the appeal

Without prejudice to Condition G6.5, where an Access Party refers a matter to the Network and Vehicle Change Committee or the Regulator pursuant to Condition G6.1 or G6.2, that Access Party shall at the same time:

- (a) provide a statement in reasonable detail as to the matter in dispute and his reasons for making the reference; and
- (b) send a copy of the reference and the statement referred to in Condition G6.3(a) to the other party or parties to the dispute.

6.4 Obligation to provide evidence

Without prejudice to Condition G6.5, the Access Parties shall, as soon as reasonably practicable after the relevant date of reference, use their respective reasonable endeavours to procure that the Network and Vehicle Change Committee and the Regulator are, respectively, furnished with sufficient evidence so as properly to consider any matters referred to them under Condition G6.1 or G6.2.

6.5 Power of appeal bodies

In relation to a reference to it or him made pursuant to Condition G6.1 or G6.2, the Network and Vehicle Change Committee or the Regulator (as the case may be) (each an “appeal body”) shall, in determining the matter in question, have the power:

- 6.5.1 to give directions as to the procedure to be followed in the appeal, including in relation to the making of any written and oral submissions and the extent to which any evidence or other submissions made by one party to the appeal shall be disclosed to the other; except to the extent specified in sub-paragraphs (a) and (b) of paragraph A5.3.5 of the Access Dispute Resolution Rules, directions given by the Network and Vehicle Change Committee pursuant to this Condition G6.5.1 shall not be inconsistent with paragraphs A3.6.2, A5.1, A5.2 or A5.4 to A5.11 inclusive of those Rules;

6.5.2 in the case of the Regulator, to make any interim order as to the conduct or the positions of the parties pending final determination of the matter by the Regulator;

6.5.3 in determining the matter in question:

- (a) in the case of either appeal body:
 - (i) to direct the parties to the dispute to comply with directions which specify the result to be achieved but not the means by which it shall be achieved (“general directions”); or
 - (ii) to direct the parties to accept any submissions made by any party as to the relevant Network Change; and
- (b) in the case of the Regulator, to specify the matters which any Access Party should have determined in giving any notice pursuant to Condition G2.1 or G4.1,

any such directions under paragraph (a) or (b) being, in the case of the Network and Vehicle Change Committee, only by final determination, but in the case of the Regulator, either by interim order or final determination;

6.5.4 having given general directions, on the application of any party to the dispute within 7 days of the determination of the matter in question (or such longer period as the appeal body shall allow), to make such further orders as it shall consider appropriate in order to provide the parties with guidance as to the interpretation and application of such general directions; and

6.5.5 to make such orders as it shall think fit in relation to the proportions of the costs of the proceedings in question (assessed in such manner as the relevant appeal body shall determine) which shall be borne by either or both of the parties.

6.6 *Obligation to comply with determinations*

The Access Parties shall, subject to and pending any reference to the Regulator, abide by any determination of the Network and Vehicle Change Committee in relation to any dispute referred to it under this Condition G6, and shall abide by any interim order or final determination of the Regulator in relation to any such dispute referred to him.

6.7 Additional powers and immunities of the Regulator

Where any Access Party shall have made a reference to the Regulator under Condition G6, the Regulator shall:

- 6.7.1 be entitled to decline to act on the reference if, having consulted the parties concerned and considered the determination of the Network and Vehicle Change Committee, he shall determine that the reference should not proceed, including on the grounds that:
 - (a) the matter in question is not of sufficient importance to the industry;
 - (b) the reference to him is frivolous or vexatious; or
 - (c) the conduct of the party making the reference ought properly to preclude its being proceeded with;
- 6.7.2 not be liable in damages or otherwise for any act or omission to act on his part (including negligence) in relation to the reference.

Part H - Operational Disruption

Explanatory Note

- A. *Part H provides procedures and plans for minimising the effects of operational disruption. Operational disruption is categorised as either a Disruptive Event or a case of minor disruption. The dividing line is materiality and different regimes apply to each category of disruption.*
- B. *A Disruptive Event materially prevents or materially disrupts the operation of trains on any part of the Network and in those circumstances Railtrack is required to decide the most appropriate action after the occurrence of a Disruptive Event, taking into account certain principles, Codes of Practice and Contingency Plans and with a view to minimising the inconvenience of passengers but having due regard to the interests of operators of non-passenger trains. If a Disruptive Event only affects one Train Operator, Railtrack is required to take such action as the Train Operator reasonably requires to restore the operation of trains over the affected part of the Network.*
- C. *There are provisions for the development and implementation of Contingency Plans and Codes of Practice, for minimising the effects of an extended period of disruption and for any consequential amendment to the Working Timetable including a consultation process with the Train Operators affected by a Disruptive Event and those likely to be affected.*
- D. *A Train Operator is required to comply with Railtrack's instructions in the event of a failure of one of its trains provided such request does not contravene any Railway Group Standard. Any Train Operator may be commissioned to assist a failed train of another Train Operator.*
- E. *In adverse weather conditions or where the track is obstructed, a Train Operator may be requested by Railtrack to provide Railtrack with any of its equipment and with reasonable assistance.*
- F. *Railtrack is required after the end of a Disruptive Event or extended period of disruption to restore the Working Timetable as soon as is reasonably practicable and if Railtrack has reasonable grounds to believe that it is not reasonably practicable so to do, Railtrack is required to give notice to the Train Operators affected or likely to be affected and to repeat the procedures for determining a Disruptive Event and implementing an amendment to the Working Timetable.*
- G. *Part H also deals with train regulation, which is in effect the means whereby operations are restored to normal following cases of minor disruption. Railtrack is obliged to establish and comply with a train regulation statement in respect of each discrete part of the Network which is a statement specifying the procedures to be followed in such circumstances taking into account certain specified objectives.*

- H. *The train regulation statement will be issued annually by Railtrack at the first Passenger Change Date occurring in each calendar year and will be preceded by a notification and consultation process with Train Operators affected or likely to be affected by any minor disruption commencing 240 days prior to such Passenger Change Date. During such period, if a Train Operator disagrees with the train regulation statement, it has a right of appeal to the Timetabling sub-Committee of the Access Disputes Resolution Committee (established under the Access Dispute Resolution Rules). If either Railtrack or the Train Operator is dissatisfied with the decision of that Committee, it may appeal to the Regulator or refer the matter to arbitration depending on the matter in dispute. Both appeals are heard on the merits of the matter in dispute and the relevant appeal body may make such orders as it thinks fit in relation to the proportions of the costs of the appeal to be borne by either or both of the parties.*
- I. *This Explanatory Note does not form part of the Access Conditions.*

CONDITION H1 - DISRUPTIVE EVENTS AND ESTABLISHMENT OF COMMUNICATIONS

1.1 *Definition*

A Disruptive Event is any event or circumstance which materially prevents or materially disrupts the operation of trains on any part of the Network in accordance with the Working Timetable.

1.2 *Notification by Train Operators*

Each Train Operator shall notify Railtrack of the occurrence of a Disruptive Event as soon as reasonably practicable after it becomes aware of it.

1.3 *Notification by Railtrack*

Railtrack shall notify a Train Operator of the occurrence of a Disruptive Event which is likely to affect the operation of trains by that operator, as soon as reasonably practicable after it becomes aware of it.

1.4 *Notification of expected Disruptive Events*

The Access Parties shall use their reasonable endeavours to provide one another of as much notice as is reasonably practicable of any Disruptive Event which they believe is likely to occur.

1.5 *Information to be provided in notices of Disruptive Events*

Each notice given pursuant to Conditions H1.2, H1.3 and H1.4 shall, as far as reasonably practicable, include a specification of the nature and extent of the Disruptive Event in question and its likely duration, in an amount of detail as shall be reasonably required so as to enable the person receiving the notice to inform his staff, passengers and other associates of the disruption in question and minimise the inconvenience and disruption which is likely to be caused to them.

1.6 *Designation of Railtrack Control Centres*

Railtrack shall designate and notify to each Train Operator the location and contact details of the Railtrack Control Centre in relation to its Routes.

1.7 *Train Operator's Control Points*

Each Train Operator shall liaise with Railtrack in relation to the identity and location of its Control Point and the setting up of communication arrangements sufficient to ensure proper contact with the relevant Railtrack Control Centre. Any such communication shall, in the case of the Train Operator, be through its Control Point and, in the case of Railtrack, be through the relevant Railtrack Control Centre.

1.8 *Conflict with Railway Group Standards*

If there is any conflict between this Part H and the provisions of any Railway Group Standard, the provisions of the relevant Railway Group Standard shall, to the extent of any inconsistency, prevail.

1.9 *Relationship with performance regimes*

The provisions of this Condition H shall have effect without prejudice to any regime established between Railtrack and a Train Operator in or pursuant to their Access Agreement in relation to any incentives and payments associated with the performance of their respective obligations under that agreement.

CONDITION H2 - ACTION FOLLOWING A DISRUPTIVE EVENT

2.1 *Determination by Railtrack*

Railtrack shall, as soon as reasonably practicable following the occurrence of a Disruptive Event:

- (a) determine the most appropriate action to be taken to restore the operation of trains on the Network in accordance with the Working Timetable and, in making its determination, shall take account (in the order of priority in which they are listed where there is any inconsistency) of the following:
 - (i) any Contingency Plan which applies to the Disruptive Event in question;
 - (ii) any Code of Practice which applies to the Disruptive Event in question; and
 - (iii) the Contingency Objective; and

- (b) consult as fully and regularly as reasonably practicable with each Train Operator affected or likely to be affected by the Disruptive Event as to the action which Railtrack proposes to take in connection with that event.

2.2 *Disruptive Events affecting only one operator of trains*

If the action to be taken to deal with a Disruptive Event is not likely to affect the operation of trains of more than one Train Operator, that Train Operator shall be entitled to require Railtrack to take such actions as the Train Operator shall reasonably specify in relation to the restoration of the operation of the affected part of the Network so as to permit the operation of trains on that part in accordance with the Working Timetable.

CONDITION H3 - CONTINGENCY OBJECTIVE

3.1 *Definition*

The Contingency Objective is the minimisation of the inconvenience of passengers following the occurrence of a Disruptive Event, having due regard to the interests of operators of non-passenger trains.

3.2 *Relevant considerations*

In signalling and otherwise controlling the train movements over or along any track, Railtrack shall use all reasonable endeavours to achieve the Contingency Objective. In doing so, Railtrack shall have due regard to the need to strike a fair and reasonable balance between the interests of both passengers and freight customers in relation to:

- (a) the maximisation of the number of passengers carried by available railway vehicles (provided that, so far as reasonably practicable, a balance shall be maintained between the level of overcrowding of railway vehicles and the time and distance involved in the relevant railway passenger services);
- (b) the minimisation of journey times;
- (c) the completion of through journeys;
- (d) the need to keep passengers moving towards their destinations by such means as are appropriate (including bus links and the diversion of passengers on to alternative routes);
- (e) the need to keep time sensitive goods moving towards their destinations by such means as are appropriate (including by diversion and, if appropriate, change of mode of transport);

- (f) the minimisation of costs to each Train Operator affected by the Disruptive Event in question; and
- (g) safety and security.

CONDITION H4 - CODE OF PRACTICE

4.1 *Development and establishment*

Each Train Operator shall, as soon as reasonably practicable following the date on which its Access Agreement comes into effect, participate, in conjunction with Railtrack, in the development and establishment of a Code of Practice complying with Condition H4.2.

4.2 *Contents*

Each Code of Practice shall:

- (a) conform with the Contingency Objective;
- (b) establish in general terms the roles and responsibilities of Railtrack and operators of trains in responding to a Disruptive Event; and
- (c) in particular, include provisions dealing with the following matters:
 - (i) communications between Railtrack and operators of trains following a Disruptive Event;
 - (ii) the identity of any relevant diversionary routes;
 - (iii) arrangements as to the utilisation of railway vehicles and requirements as to any relevant route and traction knowledge of Train Crews;
 - (iv) arrangements as to the provision of alternative bus services or alternative means of transporting time sensitive goods;
 - (v) the involvement of persons engaged to repair, renew or maintain the Network; and
 - (vi) the names and contact numbers of personnel to be contacted in the event of protracted disruption.

CONDITION H5 - DEVELOPMENT AND ESTABLISHMENT OF CONTINGENCY PLANS

5.1 *Development and establishment*

The Access Parties shall, as soon as reasonably practicable following the date of signature of their Access Agreement, use all reasonable endeavours to procure, with the agreement of other operators of trains, the development and establishment of appropriate Contingency Plans in relation to particular types of Disruptive Event which may affect the Routes which they have permission to use.

5.2 *Conformity with Contingency Objective*

Each Contingency Plan shall conform with the Contingency Objective.

5.3 *Information*

Railtrack shall ensure that each Train Operator is kept informed both of the Plan Routes which are relevant to it and of the identity of the other operators of trains to whom those Plan Routes are also relevant, together with any changes to those routes or those other operators.

5.4 *Copies*

Railtrack shall, following agreement of a Contingency Plan with all relevant operators of trains, promptly send a copy of it to each Train Operator affected by the plan.

CONDITION H6 - APPLICATION OF CONTINGENCY PLANS etc.

6.1 *Implementation*

Subject to any determination by Railtrack to the contrary pursuant to Condition H2.1, the Access Parties shall, on the occurrence of a Disruptive Event for which a Contingency Plan has been established, proceed to implement that plan so far as reasonably practicable.

6.2 *Train Crew knowledge*

Each Train Operator shall ensure that its Train Crews have an adequate route and traction knowledge of any diversion set out in an applicable Contingency Plan to the extent that the Contingency Plan in question so provides.

6.3 *Adaptation of plan*

Each of the Access Parties shall use all reasonable endeavours to adapt a Contingency Plan to the specific circumstances arising out of the Disruptive Event.

6.4 *Application of Code of Practice*

Subject to any determination by Railtrack to the contrary pursuant to Condition H2.1, where no Contingency Plan exists or adequately deals with a particular Disruptive Event, Railtrack shall apply the applicable Code of Practice (if any) in such a manner as it considers to be reasonable and appropriate in the circumstances.

6.5 *Contingency Objective*

Subject to any determination by Railtrack to the contrary pursuant to Condition H2.1, where no Contingency Plan exists or adequately deals with a particular Disruptive Event and no Code of Practice exists, Railtrack shall use all reasonable endeavours to secure the Contingency Objective in such a manner as it considers to be reasonable and appropriate in the circumstances.

CONDITION H7 - EXTENDED DISRUPTION - EMERGENCY TIMETABLING PROCEDURE

7.1 *Definition*

An Extended Disruption is a Disruptive Event which is likely to be of sufficient duration as to make it practicable to adopt a revised timetable.

7.2 *Agreed amendment of Working Timetable*

Railtrack and any Train Operator which is affected by an Extended Disruption shall use all reasonable endeavours to agree an amendment of the Working Timetable so as to minimise the effects of an Extended Disruption. If such an amended Working Timetable shall have been agreed, the provisions of Condition H7.3 shall have effect accordingly.

7.3 *Railtrack to establish amended Working Timetable*

Subject to Condition H7.2, where an amended Working Timetable shall have been agreed, in the case of an Extended Disruption, Railtrack shall promptly produce a revised Working Timetable:

- (a) complying, to the extent reasonably practicable, with the procedures set out in Part D and having due regard, in particular, to the Decision Criteria (as defined in Part D); and
- (b) consulting, to the extent reasonably practicable, with each Train Operator affected or likely to be affected by the Extended Disruption

and shall keep the operation of the revised timetable under review, modifying it, where it reasonably considers necessary and after due consultation with Train Operators affected or likely to be affected by the Extended Disruption as far as reasonably practicable, to comply with the Decision Criteria.

7.4 *Rights of appeal*

The procedures set out in Condition D5 shall apply mutatis mutandis to any changes or proposed changes to the Working Timetable pursuant to this Condition H7.

CONDITION H8 - CLEARANCE OF TRACK BLOCKAGES

8.1 *Failure of Train Operator's Train*

8.1.1 *Notification of Train Failure*

If a Train Failure occurs in respect of a train operated by a Train Operator, it shall promptly notify Railtrack of the location of the Failed Train and any other details reasonably required by Railtrack in respect of the Failed Train.

8.1.2 *Railtrack's obligation to consult operators*

On becoming aware that a Train Failure has occurred in respect of a train operated by a Train Operator, Railtrack shall promptly:

- (a) consult with the operator of the Failed Train in order to ascertain the reason for the Train Failure and to obtain such other information as may be necessary in order to effect a safe and expeditious removal of the Failed Train; and
- (b) consult with other operators of trains whose trains are or are likely to be in the vicinity of the Failed Train in order to assess the capability of those trains or the locomotives coupled to them to move the Failed Train.

8.1.3 *Movement of failed train by its operator*

If, after consultation in accordance with Condition H8.1.2, Railtrack reasonably believes that the Train Failure in question can be remedied by action taken by or on behalf of the Train Operator's Train Crew at the site of the Train Failure, it may permit the Train Operator to take such action as is necessary to move the Failed

Train. Such permission may be subject to such time limits as Railtrack shall reasonably specify to the Train Operator having due regard to the effect of the Train Failure on trains on the same or adjoining sections of track.

8.1.4 *Consultation where assistance required*

If, after consultation in accordance with Condition H8.1.2 and, if relevant, the expiry of any time limit specified by Railtrack pursuant to Condition H8.1.3, Railtrack reasonably believes that the Failed Train can only be moved with the assistance of another train or locomotive or other equipment, Railtrack shall consult with the Train Operator operating the Failed Train as to the capabilities of any trains or locomotives which are available to assist the Failed Train or the nature of other assistance.

8.1.5 *Compliance with Railtrack's instructions*

The Train Operator shall, subject to Railtrack having consulted with it in accordance with Conditions H8.1.2 and H8.1.4, comply with any reasonable instructions of Railtrack for the purpose of ensuring, with any such assistance as is referred to in Condition H8.1.4, the prompt removal of the Failed Train to an Appropriate Location.

8.2 *Assistance to a Failed Train*

8.2.1 *Use of following train*

If, after consultation in accordance with Condition H8.1, Railtrack reasonably believes that the train, or the locomotive coupled to a train, immediately following a Failed Train is able to move the Failed Train by pushing or pulling it, Railtrack may commission the operator of such train or locomotive to use it to push or pull the Failed Train under the guidance and control of the operator of the Failed Train to such Appropriate Location as Railtrack shall notify to that operator.

8.2.2 *Commissioning of other trains*

If a Failed Train cannot, in the opinion of Railtrack, be moved by the train or locomotive immediately following the Failed Train, Railtrack may commission any Train Operator in control of a train or locomotive in the vicinity of the Failed Train to move the Failed Train to such Appropriate Location as Railtrack shall notify to it. Railtrack may only commission the Train Operator's train or locomotive if, having had due regard to all relevant factors (including the factors set out in Condition H8.2.3), it reasonably believes the Train Operator's train or locomotive is the most appropriate means to move the Failed Train.

8.2.3 *Relevant factors*

The factors referred to in Condition H8.2.2 are, in relation to the relevant locomotive or train:

- (a) its fuel reserves;
- (b) the current use of the train or, in the case of a locomotive, the train to which it is coupled and, if relevant, the goods carried on the train;
- (c) the route knowledge of its Train Crew; and
- (d) the length of any delay to any assisting train or train to which an assisting locomotive is coupled (taking account of the time necessary to return an assisting locomotive or to provide a suitable replacement locomotive).

8.2.4 *Consent to commissioning required*

Railtrack may commission the train or locomotive of a Train Operator under this Condition H8 only with the consent of that Train Operator (which consent may not be unreasonably withheld or delayed).

8.2.5 *Compliance with directions*

Where it provides an assisting train or locomotive, a Train Operator shall comply with any directions given by Railtrack to move that Failed Train to such Appropriate Location as has been notified to him and, subject to such directions, that operator's Train Crew shall, during the course of moving the Failed Train, act under the guidance and control of the operator of the Failed Train. Nothing in this Condition H8.2.5 shall oblige any Train Operator to contravene any Railway Group Standard.

8.2.6 *Movement to Appropriate Location*

Railtrack shall use all reasonable endeavours to ensure that a Failed Train is moved to the Appropriate Location notified to the Train Operator in accordance with this Condition H8.2. A Train Operator commissioned to move a Failed Train under this Condition H8.2 shall be obliged to move such Failed Train only to an Appropriate Location notified to the Train Operator in accordance with this Condition H8.2.

8.2.7 *Timeous release of assisting train*

Railtrack shall use all reasonable endeavours to release the assisting train or locomotive to the assisting Train Operator within a period of 3 hours from the time at which such train or locomotive was commissioned by Railtrack in accordance with this Condition H8.2.

8.2.8 *Assistance in reaching intended destination*

Railtrack shall use all reasonable means to assist a Train Operator whose train or locomotive has been commissioned to move a Failed Train, to reach its intended destination, as soon as reasonably practicable.

8.3 ***Compensation for moving Failed Trains***

8.3.1 *Obligation to reimburse Railtrack*

Except as provided for in Condition H8.3.3, if one of a Train Operator's trains is subject to Train Failure due to a mechanical defect or other cause attributable to the Train Operator and such train is moved in accordance with Conditions H8.1 and H8.2, the Train Operator shall pay Railtrack the sum of the amounts payable under Condition H8.3.2.

8.3.2 *Right to payment for assisting Failed Train*

Except as provided for in Condition H8.3.3, if a Train Operator is commissioned to use one of its trains or locomotives to assist a Failed Train in accordance with Condition H8.2.2, Railtrack shall pay to the Train Operator:

- (a) £2,000; and
- (b) £200 for every hour which the locomotive is assisting the Failed Train over and above 3 hours.

8.3.3 *Alternative financial arrangements*

The provisions of Conditions H8.3.1 and H8.3.2 shall apply subject to any alternative financial arrangements which may be agreed between Train Operators who are to pay and receive amounts under those conditions, provided such alternative arrangements have first been notified to and approved by Railtrack (such approval not to be unreasonably withheld or delayed).

8.3.4 *Liability of assisting Train Operator for payments to Railtrack*

Without prejudice to any obligation arising as a result of its failure to perform any obligation or its negligence, no Train Operator shall be liable to pay to Railtrack any amount (whether in respect of permission to use track, signalling or other equipment or the provision of electricity or any service or otherwise) which it would, but for this Condition H8.3.4, have become liable to pay as a result of assisting a Failed Train.

CONDITION H9 - ADVERSE WEATHER CONDITIONS AND OBSTRUCTIONS

9.1 *Provision of equipment and assistance*

Subject to Condition H9.2, if a Train Operator holds any equipment which, in the reasonable opinion of Railtrack, may assist it in dealing with disruption to the operation of trains on the Network caused by either or both adverse weather conditions and obstructions of the track, it shall, where reasonably requested to do so by Railtrack, make that equipment available and otherwise provide reasonable assistance to Railtrack in remedying that disruption where requested to do so.

9.2 *Payment*

Any equipment or assistance referred to in Condition H9.1 shall only be made available or provided to, or used in the assistance of, Railtrack on the payment of such fees as shall be agreed between the parties from time to time.

CONDITION H10 - RESTORATION OF WORKING TIMETABLE

10.1 *Obligation to restore normal operation*

Subject to Condition H10.2, as soon as reasonably practicable after the end of a Disruptive Event or Extended Disruption, Railtrack shall:

- (a) procure that the operation of the Network shall be restored so as to permit the operation of trains in accordance with the Working Timetable; and
- (b) give to each Train Operator affected by the disruption in question as much notice of such restoration as is reasonably practicable.

10.2 *Continuation of emergency timetable*

As soon as reasonably practicable after Railtrack has reasonable grounds for believing that it is not likely to be reasonably practicable for it to procure that the operation of the Network shall be restored so as to permit the operation of trains in accordance with the Working Timetable after the end of a Disruptive Event or Extended Disruption, Railtrack shall:

- (a) give to each Train Operator affected or likely to be affected by the disruption in question notice of its opinion together with its reasons;
- (b) take into account any representations or objections which any of them shall make in relation to the matter; and

- (c) having regard to the fact that the amended timetable established pursuant to Condition H2 or H7 is likely to be in operation for a period which is longer than the period of operation expected when it was established, reconsider that timetable and re-comply with the procedures specified in Condition H2 or H7 (as the case may be).

The timetable established after compliance by Railtrack with this Condition H10.2 shall become the Working Timetable for the part or parts of the Network in question.

CONDITION H11 - TRAIN REGULATION

11.1 *Train regulation objective*

The train regulation objective is the striking of a fair and reasonable balance between:

- (a) minimising overall delay to train movements (including Ancillary Movements);
- (b) minimising overall delay to passengers travelling or intending to travel by railway and the movement of time-sensitive goods, both in respect of the aggregate delay to any one of them and the aggregate numbers of passengers and goods delayed;
- (c) maintaining connections between railway passenger services;
- (d) avoiding undue discrimination between any person and any other person;
- (e) protecting the commercial interests of Railtrack and each affected train operator; and
- (f) the interests of safety and security.

11.2 *Railtrack's obligation to establish and comply with train regulation statements*

Railtrack shall establish and thereafter comply with a train regulation statement in respect of each discrete part of the Network in accordance with the provisions of this Condition H11.

11.3 *Contents of train regulation statements*

Each train regulation statement:

- (i) shall contain:
 - (a) a specification of the cases of minor disruption in which it shall apply; and
 - (b) the procedures which Railtrack shall follow in cases of minor disruption when signalling and otherwise controlling train movements over or along any track comprised in the part or parts of the Network to which it applies; and
- (ii) may contain provisions for its own amendment provided that in all cases due regard shall be had to the train regulation objective.

11.4 *Consultation of affected train operators prior to notice of proposed train regulation statement*

- 11.4.1 Not later than 240 days before the Passenger Change Date first occurring in each calendar year, Railtrack shall give notice to each affected train operator inviting it to make representations to it in relation to the manner in which train regulation should be carried out in cases of minor disruption in the year beginning on such Passenger Change Date in respect of each part of the network in respect of which such train operators have access rights.
- 11.4.2 Each affected train operator so consulted shall use all reasonable endeavours to provide to Railtrack such representations as it shall wish to make in respect of such train regulation within 30 days after receipt of the first consultation notice.

11.5 *Notice of proposed train regulation statement*

Not later than 60 days after giving the first consultation notice, Railtrack shall give notice to each affected train operator of its proposed applicable train regulation statement. Each such notice shall include:

- (a) the text of the proposed train regulation statement;
- (b) the part or parts of the Network to which it shall be intended to apply;
- (c) a statement of Railtrack's reasons for the proposed train regulation statement; and
- (d) such other information as it shall be reasonable for Railtrack to provide in order properly to inform affected train operators of the proposed train regulation statement and its likely effect on their operations.

11.6 Consultation with affected train operators

As soon as reasonably practicable after the date upon which Railtrack shall have given the first consultation notice, Railtrack shall consult each affected train operator in relation to the proposed train regulation statement, and shall invite the submission to it of representations or objections in respect of it.

11.7 Establishment of train regulation statement

Railtrack shall:

- (a) take into account all representations or objections received from affected train operators pursuant to Condition H11.6;
- (b) make such modifications to the proposed train regulation statement as it shall reasonably consider appropriate so as to ensure, so far as reasonably practicable, that the proposed train regulation statement complies with the train regulation objective; and
- (c) not later than 120 days after the date of the first consultation notice, establish the applicable train regulation statement by sending a copy of it to each affected train operator.

11.8 Duration of train regulation statement

A train regulation statement established pursuant to this Condition H11 shall have effect for the period of 12 months beginning with the first Passenger Change Date first occurring in each calendar year.

11.9 Right of appeal against train regulation statements

If any affected train operator shall be dissatisfied with a train regulation statement established by Railtrack pursuant to Condition H11.7, he shall be entitled:

- (a) in the case of an allegation that the statement in question does not achieve the train regulation objective, to refer the matter for determination to the Timetabling Committee and, if he is dissatisfied with that determination, to the Regulator; and
- (b) in any other case, to refer the matter for determination to the Timetabling Committee and, if he is dissatisfied with that determination, to arbitration pursuant to the Access Dispute Resolution Rules.

11.10 Appeal procedure

11.10.1 If there shall have been a reference pursuant to Condition H11.9:

- (a) Railtrack shall provide the appellant with the name and address of every affected train operator within 7 days of the making of the reference; and
- (b) the appellant shall:
 - (i) include with it a statement in reasonable detail as to the matter in question and his reasons for making the reference; and
 - (ii) within 14 days of making the reference, send a copy of the reference and the statement referred to in sub-paragraph (i) above to Railtrack and every affected train operator of which he has notice pursuant to paragraph (a) above.

11.10.2 Each of Railtrack, the appellant and any relevant third party shall, as soon as reasonably practicable after the date of the reference, use their respective reasonable endeavours to procure that the appeal body is furnished with sufficient information and evidence so as to enable it properly to consider any matter referred to it.

11.10.3 In relation to a reference made to it pursuant to Condition H11.9, the appeal body shall, in determining the matter in question, have the power:

- (a) to give directions as the procedure to be followed in the appeal, including in relation to the making of any written or oral submissions and the extent to which any evidence or other submissions made by one party to the appeal shall be disclosed to the other; except to the extent specified in sub-paragraphs (a) and (b) of paragraph A5.3.5 of the Access Dispute Resolution Rules, directions given by the Timetabling Committee pursuant to this Condition H11.10.3 shall not be inconsistent with paragraphs A3.6.2, A5.1, A5.2 or A5.4 to A5.11 inclusive of those Rules;
- (b) to require any other affected train operator to make submissions or provide evidence, whether orally or in writing or both;
- (c) to make any interim order as to the conduct or the positions of the parties pending final determination of the matter;
- (d) in the case of an appeal of the kind referred to in Condition H11.9(a), in determining the matter to direct Railtrack to amend its train regulation statement in a manner specified in its determination; and
- (e) to make such orders as it shall think fit in relation to the proportions of the costs of the proceedings in question (assessed in such manner as the appeal body shall determine) which shall be borne by either or both of the parties.

- 11.10.4 Each party to a dispute which has been the subject of a reference pursuant to Condition H11.9 shall comply with any interim order of the kind referred to in Condition H11.10.3(c). A determination made following a reference pursuant to Condition H11.9 shall be final and binding on Railtrack and all affected train operators, whether or not any of them shall have been required to provide evidence or make submissions pursuant to Condition H11.10.2 or H11.10.3.
- 11.10.5 Where any reference shall have been made to him pursuant to Condition H11.9, the Regulator shall:
- (a) be entitled to decline to act on the reference if, having consulted the parties concerned and such other affected train operators as he shall consider appropriate and considered the determination of the Timetabling Committee, he shall determine that the reference should not proceed, including on the grounds that:
 - (i) the matter in question is not of sufficient importance to the industry;
 - (ii) the reference to him is frivolous or vexatious; or
 - (iii) the conduct of the party making the reference ought properly to preclude its being proceeded with; and
 - (b) not be liable in damages or otherwise for any act or omission to act on his part (including negligence) in relation to the reference.

Access Dispute Resolution Rules

Explanatory note

(This note does not form part of the Rules)

General

1. *The Access Dispute Resolution Rules are a set of rules for the resolution of disputes arising usually from access contracts. The rules are designed to provide a speedy, efficient and economical method of resolving disputes in the railway industry in matters of access without recourse to the courts.*
2. *The rules provide a menu of options for the resolution of disputes. The options are the Access Dispute Resolution Committee itself, any of its specialist sub-committees, mediation, expert determination and arbitration.*
3. *It is not the rules which prescribe which method of dispute resolution should be used by parties to a dispute. Rather, it is the commercial contract between the parties (usually a track, station or depot access agreement) which determines which, if any, of the options in the rules will be used in a particular case. The parties may choose not to use the rules at all for some classes of dispute, although in substantially all access agreements the rules have been adopted. In certain types of case, the Track Access Conditions, Station Access Conditions and Depot Access Conditions prescribe that the rules must be used. These are cases where the dispute may have a bearing on the interests of third parties or where reference may be made to the Regulator for a final determination.*
4. *Whilst annexed to the Track Access Conditions, they are in fact used for the resolution of disputes arising out of station and depot access contracts as well. The Access Dispute Resolution Rules are separate from the parallel (but in some respects materially different) Railway Industry Disputes Resolution Rules. The latter rules are used for non-access disputes, including disputes arising out of rolling stock leases and other unregulated contracts (in the Access Dispute Resolution Rules, the parallel rules are referred to as the "Non-Access Dispute Resolution Rules"). The two sets of rules should not be confused.*
5. *In cases where a dispute is inextricably connected with another matter which falls to be dealt with by the Non-Access Dispute Resolution Rules, then the dispute may be handled under those Rules.*
6. *The rules may be changed by the Class Representative Committee or the Regulator under Part C of the Track Access Conditions. All changes require the approval of the Regulator.*

Access Dispute Resolution Committee

7. *Part A of the rules concerns the establishment of the Access Dispute Resolution Committee and its sub-committees.*

Composition of Committee

- 8. The Access Dispute Resolution Committee consists of a Chairman, a Committee Secretary and eight elected members. Of the eight elected members, one is appointed by the Committee as Deputy Chairman. To ease the demands on the Chairman, provision is also made for the appointment by the Committee of one or more independent Vice-Chairmen who share the duties and responsibilities of the Chairman.*
- 9. The elected members are appointed by the same constituencies as elect the members of the Class Representative Committee under Part C of the Track Access Conditions. Two members are appointed by Railtrack, one by each of the three bands of the Franchised Passenger Class, one by each of the two bands of the Non-Passenger Class and the eighth by the Non-Franchised Passenger Class. Appointment is made by election.*
- 10. The elected members may appoint and remove alternates who act in their places.*
- 11. Elected members retire by rotation.*
- 12. The Access Dispute Resolution Committee is funded by a levy payable by parties which have agreed to resolve their disputes using the rules. The levy is directly proportionate to the licence fees payable by those parties.*

Chairman

- 13. The Chairman of the Committee holds a special position. He is not a member of the Committee, but he chairs it. He is appointed by unanimous resolution of the Committee. He may be removed by the Committee. To be eligible for appointment, he must have suitable experience of the railway industry and may not, whilst in office, be employed by or otherwise be connected with a party to an access agreement in a way which may compromise his impartiality.*
- 14. The Chairman has important powers to make procedural and substantive rulings in cases before the Committee. He also plays an important part in determining questions of the confidentiality of the decisions of the Committee and its sub-committees, of arbitrators and experts dealing with disputes, and in questions concerning the disclosure of information by Railtrack to train operators under Part 9 of Schedule 7 of track access agreements (which concern the structure of track access charges payable to Railtrack).*

Deputy Chairman

- 15. The Deputy Chairman is one of the elected members of the Committee. He is not empowered to make substantive rulings in cases where he is employed by or otherwise connected with one of the parties to the dispute in a way which may compromise his impartiality.*

Disputes secretary

- 16. The Committee appoints a Disputes Secretary with the approval of the Regulator. The Disputes Secretary maintains a register of persons who are suitably qualified to act as mediators, arbitrators and experts to determine disputes.*
- 17. The register must be provided to any industry party which requests it.*

Meetings of the Committee

- 18. The quorum of the Committee is the Chairman and five elected members. The Deputy Chairman or any of the independent Vice-Chairmen may act in the place of the Chairman. Alternates may act in the place of elected members.*

Sub-committees

- 19. The rules empower the Committee to establish specialist sub-committees.*
- 20. Three specialist sub-committees are established by the rules themselves. They are the Technical Sub-Committee (which deals with technical disputes); the Timetabling Sub-Committee (which deals with timetabling and train regulation disputes under Conditions D5 and H11.9(a) of the Track Access Conditions) and the Network and Vehicle Change Sub-Committee (which deals with disputes under Conditions F5 and G6 of the Track Access Conditions).*
- 21. The Chairman of the Access Dispute Resolution Committee is the Chairman of the Timetabling and Network and Vehicle Change Sub-Committees. His place may be taken by one of the independent Vice-Chairmen.*
- 22. Sub-committees may make their own rules of procedure. However, in the case of disputes which may be referred ultimately to the Regulator for determination, rules of procedure may not be inconsistent with certain entrenched rules.*
- 23. Questions of the jurisdiction of sub-committees are determined by the Committee by majority vote.*

Procedure of the Committee and its sub-committees

- 24. The Committee is entitled to make its own rules of procedure. It may also make rules of procedure for a sub-committee.*
- 25. Certain detailed rules of procedure of the Committee are already established in the rules themselves.*
- 26. Parties to a dispute which is heard by the Committee are entitled to determine their own representation. One or more of the representatives of a party may be legally qualified. Other advisers are also allowed.*

27. *In disputes which are not appealable to the Regulator, the Chairman of the Committee has a discretion to disallow legal representation before the Committee. Before making such a ruling, the Chairman is obliged to consult the parties, the elected members and the independent Vice-Chairmen.*
28. *The Chairman is entitled to appoint a clerk of the Committee, assessors (in technical, legal or other matters) or to obtain other legal advice. The clerk to the Committee may, but need not, be a lawyer.*
29. *The Committee determines disputes referred to it unanimously. In doing so, its members fulfil an arbitral, not a partisan, role. If unanimity is not achieved, the Chairman's powers in relation to the next steps depend on the nature of the dispute. If the dispute is one which is appealable to the Regulator, the Chairman must either adjourn the hearing to a later meeting of the Committee or make a ruling himself. If the dispute is not one which is appealable to the Regulator, the Chairman has a discretion: to make a ruling, adjourn the hearing or declare the matter unresolved.*
30. *The Committee has the power to make awards of costs against a party to a dispute. In cases which are not appealable to the Regulator, there is a presumption that no such order will be made, but that presumption is rebuttable where the Committee is satisfied that the matter should not have come before the Committee in the first place or the conduct of the party against which the order is made has been such as to justify an order for costs being made against it.*
31. *After the Committee has finished with a dispute (whether by agreed determination, a Chairman's ruling or a declaration that the matter is unresolved), the right of a party which is dissatisfied with the outcome depends on the terms of the commercial contract under which the dispute was referred to the Committee in the first place. In cases which are appealable to the Regulator, the Track Access Conditions specify what is to happen next. In other cases, the contract should give the answer. In most track and station access agreements, it is provided that the matter will go next to arbitration. In some cases, the contract provides that the Committee itself (or the relevant sub-committee) will determine the next step.*

Mediation

32. *Mediation is a private dispute resolution process involving a neutral mediator who meets the parties and tries to enable them to resolve their dispute by agreement.*
33. *Simple rules of procedure are specified in Part B of the rules.*
34. *Part B also contains rules as to the confidentiality of the mediation and of documents used in the mediation.*

Arbitration

35. *Arbitration is a formal process which resembles proceedings in a court in many ways. However it is not subject to the same delays and rules as court proceedings, and it is not public.*
36. *The parties appoint an arbitrator by agreement. If they fail to agree, the Disputes Secretary appoints the arbitrator. An arbitration fee not exceeding £500 is payable.*
37. *The arbitrator has a complete discretion as to the rules of procedure to be followed in the arbitration, but the presumption is that the comprehensive set of rules of procedure in paragraph C3 will apply unless disapplied by the arbitrator in a particular case.*
38. *The rules of procedure in paragraph C3 are designed to focus as sharply as possible the issues of fact and law (if any) which separate the parties. The procedure provides for this to be done on paper before the matter reaches an oral hearing. It is achieved by the use of the procedure of "adjustment of pleadings" under which each averment (an assertion of fact or of law) of a party is answered in writing by the other party. When averments have been answered, the first party may in turn answer what the other party has said. The process is iterative and time-limited.*
39. *Once the issues have been so focused, a single document incorporating the averments and answers of each party is prepared. This enables the arbitrator and the parties to see clearly exactly what has to be proved and what the issues are. Extraneous material and matters which can be agreed or disposed of in advance are thus filtered out before any oral hearing of the matter. (It may be that the adjustment process causes the matter to be settled without a hearing). The outcome should minimise the amount of time used preparing for, and consumed by, an oral hearing. The process is designed to keep the number of witnesses and the facts to which they are required to speak to the irreducible minimum. The same applies to any points of law.*
40. *The arbitrator has powers to make substantially the same kinds of order as a court. These include orders for the payment of money, orders to take or not to take specified action, the determination of the meaning of an agreement and the award of costs.*
41. *The decision of the arbitrator (called the "award") is provided to the parties, the Chairman of the Access Dispute Resolution Committee and the Disputes Secretary. There is a presumption that the award will be published to the industry to enable "case law" to be built up. However, if either party believes that publication should not take place, it must give notice of that fact to the Chairman of the Committee within 7 days of receiving the award. The Chairman then follows a procedure of consultation of the parties concerned and decides whether publication should take place by balancing the interests of the party in question in the confidentiality of the award on the one hand and the interests of the industry in its publication on the other hand.*

Expert determination

42. *Expert determination is provided for in Part D. It is an alternative to arbitration. It resembles arbitration in many ways but the decision of the expert is final and not challengeable in the same ways as an award of an arbitrator. The procedure is very much the same.*

Determinations by the Regulator

43. *Part E makes certain provision for matters to be determined by the Regulator.*
44. *There are two ways in which the Regulator may come to determine a dispute. The first is where a contract (usually an access agreement) which the Regulator has approved provides for the Regulator to perform this role. The second is where the Regulator has given his consent in a particular case. Instances of the latter kind are expected to be rare.*
45. *The Track Access Conditions provide for certain appeals to be made to the Regulator for final determination. These are in certain cases of timetable, network change, vehicle change and train regulation disputes. These appeal mechanisms have been designed so as to minimise the numbers of appeals to the Regulator.*

In so consulting, the Committee shall provide a copy of the proposed rules or revisions to the Chairman and each of the independent Vice-Chairmen.

Where the Access Conditions in question provide for the procedure to be followed in the determination of any matter referred to the Committee or any sub-committee, those provisions shall prevail and the Committee shall have no power to make inconsistent rules of procedure.

A5.3.5 *Relationship with Access Dispute Resolution Rules*

Subject to paragraph A5.3.4, rules of procedure made pursuant to this paragraph A5.3 may not be inconsistent with any provision of Part A of these rules, except that:

- (a) a sub-committee may decide to meet with such frequency as it shall determine necessary for the proper discharge of its functions; and
- (b) rules of procedure may specify time limits which are different from those specified in this Part A provided they do not deny any party to a dispute the right:
 - (i) properly to make his case;
 - (ii) to receive proper notice of the case he has to answer; and
 - (iii) to a fair hearing.

A5.4 *Commencement of proceedings*

A person wishing to refer a dispute to the Committee shall serve a written notice of reference on the Committee Secretary and on every other party to the dispute. The notice shall:

A5.6 *Circulation of papers*

The Committee Secretary shall circulate to members, so as to be received at least 4 days before a meeting of the Committee, a list of the issues to be tabled at that meeting, together with appropriate summaries and background papers relating to those issues. Late circulation of papers to members by the Committee Secretary shall not prevent or invalidate discussion of the disputes concerned.

A5.7 *Notification to parties to dispute*

The Committee Secretary shall notify an Industry Party, which is a party to a dispute to be considered at a meeting of the Committee, of the time, date and place of the meeting. Such notification shall be sent so as to be received at least 7 days before the meeting. If a party does not receive such notification at least 7 days before the meeting and the information submitted by each other party to the dispute by the time specified above (other than through its own fault), it shall be entitled to require the Committee to postpone its consideration of the dispute until a date which is not earlier than 7 days after its receipt of the notification in question. The Committee shall be entitled to proceed to consider any dispute referred to it unless:

- (a) any party to the dispute shall, before the beginning of the meeting, have exercised any right to have consideration of the dispute postponed; or
- (b) the Chairman, on the application of any party to the dispute, determines that the Committee's consideration of the dispute should be postponed on the grounds that the party which has made the application has received insufficient notice in any respect.

If the Committee's consideration of the dispute is not so postponed, no objection shall be made in relation to the failure of any party timeously to receive any notification, information or documents.

A5.8 *Time extensions*

The Chairman on cause shown may extend any period of time fixed by or pursuant to these rules whether or not that period of time has expired. He shall notify the members of the Committee, the Committee Secretary and the parties to the dispute of any such extension of time.

A5.9 *Representation before the Committee*

A5.9.1 *Representatives*

Subject to paragraph A5.9.5, each party to a dispute shall be entitled to be represented by such persons as it considers appropriate at that part of the meeting of the Committee which considers a dispute to which it is a party. If a member of the Committee is an officer or employee of a party to the dispute, that party may be represented by that member, whether or not it is also represented by any other person. A party intending to be represented shall notify the Committee Secretary and the other parties to the dispute of the name and address of each of its representatives. A person shall not be prevented from representing a party because he is or may be a witness in the proceedings. Nothing shall prevent a party being represented by different persons at different times.

A5.9.2 *Right to be heard*

No such direction may be given unless the Chairman has first:

The dispute shall be determined by the Committee only if all members of the Committee agree on the determination of the dispute. The Chairman may at any time call for a vote of the members to ascertain whether unanimity has been achieved. A determination shall be treated as having been unanimously agreed if no member present votes against it.

A5.11.2 *Failure to agree determination of dispute*

If the determination of a dispute shall not have been agreed pursuant to paragraph A5.11.1 at any meeting of the Committee:

- (a) in the case of a reference to the Committee under Conditions D5, F5, G6 or H11.9(a) of the Track Access Conditions, the Chairman shall either:

In the case of references made to the Committee other than under Conditions D5, F5, G6 or H11.9(a) of the Track Access Conditions, there shall be a presumption that no such order shall be made. Such presumption shall be rebutted only where the Committee is satisfied that either:

- (a) the case of any party to the dispute shall have been so lacking in merit that the reference should not have been made; or
- (b) the conduct of any such party before or during the conduct of the reference was such as to justify an award of costs being made against it.

If the agreement under which a dispute arises provides that the dispute shall be referred for determination to such body or person as the Committee shall specify, the Committee shall do so by a decision reached pursuant to paragraph A7. If the Committee fails so to reach a decision, the Chairman shall decide the matter, and his decision shall be final and binding on the parties to the dispute.

A9 Liability of Officers

None of the Chairman, the Deputy Chairman, the Independent Vice-Chairman, the Committee Secretary, the clerk to the Committee, or the Disputes Secretary shall be liable to any party for any act or omission (including negligence) in connection with any Committee proceedings or any dispute determined by the Committee or the Chairman under these rules unless the act or omission is established to have been in bad faith.

- (i) is required to be submitted to mediation pursuant to the Non-Access Dispute Resolution Rules;
- (ii) is so connected with a dispute (whether involving the same parties or not) which is to be (or has been) submitted to mediation pursuant to the Non-Access Dispute Resolution Rules that it is expedient for the two disputes to be submitted to mediation in the same proceedings; or
- (iii) the parties have agreed that it will be submitted to mediation pursuant to the Non-Access Dispute Resolution Rules;

the dispute shall be submitted to mediation under the Non-Access Dispute Resolution Rules.

BI.3 If there is a disagreement as to whether a dispute falls within paragraph BI.2(i) or (ii), each party to the disagreement shall submit its arguments in writing to the Committee Secretary and to the other party, so as to be received within five days of its receipt of the notification of a wish to submit to mediation referred to under paragraph B2. The Committee Secretary shall rule on the disagreement within seven days of receiving the submissions. If either party refuses to accept the Committee Secretary's ruling, the issue shall be determined by the Chairman of the Committee established pursuant to paragraph A2 of the Non-Access Dispute Resolution Rules.

B2 *Beginning a mediation*

A party wishing to refer a dispute to mediation shall so inform the Disputes Secretary and every other party to the dispute of which it is aware. The Disputes Secretary shall promptly approach all parties to the dispute and discuss with them the identity of a suitable mediator. Unless within 5 days of his initial approach the parties agree on the identity of a mediator, the Disputes Secretary shall appoint one from the register.

B3 *Procedure*

- B3.1 Immediately on his appointment, the mediator shall contact the parties and arrange to meet them. He may require them to provide him with a brief summary of the dispute and their contentions in relation to it. The mediator shall, at his discretion, be entitled to send a copy of such summary to the other party to the dispute.
- B3.2 Two representatives of each party shall attend each meeting with the mediator, at least one of whom shall be a senior manager with decision-making authority in relation to the dispute. No other persons may attend without the mediator's agreement.

- B3.4 The parties shall explain their respective positions to the mediator. He may see each on his own if he sees fit. The mediator shall not be entitled to disclose matters told to him in confidence without the permission of the party in question. He shall encourage the parties to resolve the dispute by agreement and may also discuss informally with any party his own views as to the merits of the dispute.
- B3.5 Within seven days of the final meeting, if the parties have not resolved the dispute by agreement the mediator may advise the parties of his views as to the likely outcome of the dispute if it were to be referred to arbitration and/or what he considers would be a fair settlement of the dispute. No party shall be bound to adopt the views expressed, or accept the advice provided, by the mediator.

B4 *Confidentiality*

- B4.1 The mediation is and shall be kept confidential.
- B4.2 The parties, their representatives and advisers, the mediator and the Disputes Secretary shall keep confidential all documents, submissions, statements and other information disclosed in the mediation, including any agreement for the settlement of the dispute, except when and insofar as disclosure is necessary:

 - (b) to comply with an obligation to disclose owed to any financial associate of the party making the disclosure.
- B4.3 Its use in the mediation shall not affect the extent to which any document, submission, statement or other information disclosed in the mediation is admissible or subject to discovery or production (or, in Scotland, recoverable by commission and diligence under section 1 of the Administration of Justice (Scotland) Act 1972 or otherwise) in any subsequent arbitration, legal or other proceedings involving the parties.
- B4.4 New documents generated in the course and for the purposes of the mediation shall be treated as being on the same basis as without prejudice negotiations in an action in the courts.

B5 *Costs*

Unless the parties otherwise agree, each party shall bear its own costs of the mediation. The parties shall share equally the mediator's fees and expenses, the costs of his appointment and all other administrative costs of the procedure.

B6 *Termination of the mediation*

The mediation shall terminate upon service by one party to the mediation on the other and on the mediator of a notice of withdrawal from the mediation.

B7 *Communications, exclusion of liability, jurisdiction and governing law*

Paragraphs C7, C8 and C9 shall apply to mediations as if references to the arbitrator and arbitration were references to the mediator and mediation respectively.

B8 ***Mediator barred from further proceedings***

The mediator shall not be entitled to act in any capacity in relation to the subject matter of the mediation in which he acted as mediator in any subsequent arbitration, legal or other similar proceedings.

C ARBITRATION

C1.1 *Disputes to be decided by arbitration*

- (b) is otherwise so connected with a dispute (whether involving the same parties or not) which is to be (or has been) referred to arbitration under the Non-Access Dispute Resolution Rules that it is expedient for the two to be resolved in the same proceedings;

the dispute shall be arbitrated under the Non-Access Dispute Resolution Rules.

C1.3 *Disputes*

If there is a disagreement as to whether a dispute falls within paragraph C1.2(a) or (b), each party to the disagreement shall submit its arguments in writing to the Committee Secretary and to the other party, so as to be received either before

the notice of reference is served or within seven days of its service. The Committee Secretary shall rule on the disagreement within seven days of receiving the submissions. If either party refuses to accept the Committee Secretary's ruling, the issue shall be determined by the Chairman of the Committee established pursuant to paragraph A2 of the Non-Access Dispute Resolution Rules.

C2 *Beginning an arbitration and appointing the arbitrator*

C2.1 *Notice of arbitration*

A person wishing to refer a dispute to arbitration shall serve a written notice of arbitration on the Disputes Secretary and shall serve a copy of the notice of arbitration on every other party to the dispute. The notice shall summarise the basis of the claim and list the other parties concerned. It may suggest one or more appropriate arbitrators, whether from the register or otherwise.

C2.2 *Appointment of arbitrator*

The Disputes Secretary shall promptly approach all parties to the dispute and discuss with them the identity of an arbitrator to decide it. Subject to any agreement of the parties to the contrary, if the parties fail to agree on an arbitrator within 7 days of the Disputes Secretary's initial approach, he shall appoint an arbitrator from the register. Upon the appointment of an arbitrator, the Disputes Secretary shall send to all the parties to the dispute a notice of the appointment of the arbitrator.

C2.3 *Change of arbitrator*

C2.3.1 If any arbitrator acting or appointed to act under these rules resigns, withdraws, dies or refuses to act, the Disputes Secretary shall, upon application by the arbitrator or any party to the arbitration, on proof satisfactory to the Disputes Secretary, declare the office of arbitrator vacant.

C2.3.2 If the arbitrator or any party to the arbitration considers that the arbitrator is unable by reason of mental or physical infirmity to perform the duties of his office or is disqualified for any reason from performing the duties of his office, or has delayed unreasonably in the conduct of the arbitration or in the making of any award, the Disputes Secretary may, at the request of the arbitrator or any party to the arbitration, having heard the arbitrator and the parties if they or any of them wish to be heard, declare the office of arbitrator vacant.

C2.3.3 Where the office of arbitrator shall have been declared to be vacant pursuant to this paragraph C2.3, paragraph C2.2 shall apply to the appointment of a replacement arbitrator.

C3 *Procedure*

C3.1 *General*

The arbitrator shall conduct the arbitration in such manner as he considers most suitable for the fair resolution of the dispute. The parties may agree that an arbitration shall be conducted on the basis of written representations only. In such a case, nothing in this paragraph C3 shall prevent the arbitrator from requiring one or more oral hearings if he considers it appropriate for the just and expeditious determination of the proceedings. The arbitrator shall have the power at any time to make or amend the procedure to be followed by the parties in the arbitration. Unless the arbitrator rules otherwise, the following timetable and procedure shall apply:

- (i) Within 14 days of the notice of appointment of the arbitrator, the claimant shall serve on the arbitrator and the other party a written statement of its claim. The statement of claim shall specify all relevant facts and matters and contentions of law (if any, and naming the principal authorities) on which the claimant relies (or admits or denies) and the relief and remedies sought.
- (ii) Within 14 days of service by the claimant of the statement of its claim, the other party shall serve on the arbitrator and the claimant a written statement of its defence. The statement of defence shall specify the defence and all relevant facts and matters and contentions of law (if any, naming the principal authorities) on which the respondent relies (or admits or denies). The statement of defence may set out any counterclaim which the respondent wishes to make.
- (iii) The statements served pursuant to sub-paragraphs (i) and (ii) above shall be accompanied by copies of any documents referred to in them or upon which the party serving the statement wishes to rely. That party shall, if so requested, make the originals of such documents available for inspection by the arbitrator or the other party.
- (iv) After service by the respondent of its statement of defence (in Scotland, answers), the arbitrator may allow the parties a period (the "adjustment period") within which to adjust the written pleadings so that each material averment of the parties shall be answered (whether by admission, denial, explanation or otherwise).
- (v) On the expiry of the adjustment period, the pleadings shall be finalised and within 7 days thereafter the claimant shall reproduce the pleadings, as adjusted, into a single document (in Scotland, the closed record) and send 2 copies to each of the arbitrator and the other parties to the arbitration.
- (vi) Within 14 days after the pleadings have been so finalised, each party shall serve upon the arbitrator and the other party signed statements of any factual witnesses upon whose evidence it wishes to rely, together with any copies of documents referred to in them not already in the possession of the

other party. That party shall, if requested to do so, make the originals of such documents available for inspection by the arbitrator or the other party.

- (vii) If he considers it appropriate for the just and expeditious determination of the proceedings, the arbitrator shall be entitled to appoint one or more advisers (in Scotland, assessors) or experts on any matter (including matters of law) to report to him on any specific issue. The costs of any such person shall be subject to the provisions of paragraph C5.2. Where the arbitrator receives a report from any such person, he shall disclose the report to the parties and afford them such opportunity to comment on it as he considers appropriate.
- (viii) Within 7 days after the pleadings have been finalised, the Disputes Secretary shall agree with the arbitrator and the parties a hearing date and the estimated length of the hearing. The hearing date shall be no later than 28 days after the finalisation of the pleadings.
- (ix) In relation to the production of documents:
 - (a) the arbitrator may, on the application of a party, require the production of such specific identified documents as are within the possession, custody or control of the other party or any third party which the arbitrator considers relevant; the parties to the proceedings shall be given the opportunity to inspect and to comment upon any document so produced;
 - (b) if any document is not supplied to the arbitrator and the other party within such time as the arbitrator shall prescribe, the arbitrator may:
 - (aa) proceed with the arbitration on the basis of the documents already before him;
 - (bb) apply to the Court for an order to produce the documents; or
 - (cc) strike out (in Scotland, dismiss) the part of the claim or defence to which the document relates,and in making his award the arbitrator shall be entitled to make such allowance as he may think fit for the failure to supply the document;
 - (c) no party shall be obliged to produce any document which would be privileged from production in any proceedings in an action in the courts;
 - (d) an application by a party to the arbitrator pursuant to sub-paragraph (a) above shall be made not later than 21 days before the date fixed for the hearing; a party in receipt of a request from the arbitrator to produce a document shall comply with such a request within 7 days.
- (x) At least 5 days before the hearing each party shall serve on the other and on the arbitrator its written submissions.
- (xi) At the hearing:

- (a) there shall be no oral opening submissions, but the arbitrator may ask the parties questions arising out of their written submissions or pleadings;
 - (b) subject sub-paragraph (c) below, the testimony of a witness may be presented in written form, either as a signed statement or as an affidavit duly sworn, provided paragraph C3.1(vi) has been complied with. Any party may apply to the arbitrator for an order that any witness whose written statement or affidavit is to be relied upon by a party should attend for oral examination at a hearing and the arbitrator shall make such order unless, having heard the parties, he is satisfied that such oral examination is not likely to assist him in making his award. If a witness is ordered to attend and fails to do so, the arbitrator may:
 - (aa) place such weight on the written statement or affidavit as he thinks fit;
 - (bb) exclude it altogether; or
 - (cc) apply to the Court for an order for the citation or attendance of witnesses;
 - (c) there shall be no examination-in-chief of factual or expert witnesses who give oral evidence. The parties may cross-examine witnesses on oath or affirmation to the extent permitted by the arbitrator;
 - (d) the parties may make oral closing submissions, not exceeding 20 minutes each;
 - (e) the parties may be legally represented; and
 - (f) the arbitrator shall be entitled to receive such evidence as he shall consider relevant, whether or not such evidence would have been admissible in a court of law.
- (xii) The arbitrator shall deliver to the parties a reasoned award within 14 days of the end of the hearing.

C3.2 *Proposed amendments*

Immediately after his appointment, the arbitrator shall require each party to inform him of any amendments to the procedure or the time limits set out in paragraph C3.1 which it considers appropriate (whether because more than two parties will be involved or otherwise). Each party shall promptly send any proposed amendments to the arbitrator and the other party. Before responding, the arbitrator may require the parties to meet him.

C3.3 *Supplemental*

- C3.3.1 The arbitrator shall have power to strike out (in Scotland, dismiss) part or all of any claim or defence made in the proceedings on any one or more of the following grounds:
- (a) wilful breach of these rules;
 - (b) deliberate non-compliance by a party with any order of the arbitrator; or
 - (c) inordinate or inexcusable delay on the part of any party, where such act or omission has, in the opinion of the arbitrator, given rise to a substantial risk that a fair determination of the dispute will not be possible, or which is such as to cause or to have caused serious prejudice to the other party.
- C3.3.2 The arbitrator shall have power to strike out (in Scotland, dismiss) part or all of any claim or defence made in the proceedings if he is satisfied that the claim or defence or any part of it is scandalous, frivolous or vexatious.
- C3.3.3 If either party fails to serve a pleading within the period allowed under these rules or by order of the arbitrator, and fails to remedy his default within 14 days after despatch to him by the arbitrator or any other party to the dispute of notice of that default, the arbitrator shall be entitled to rule that he shall be treated as having abandoned his claim or defence (as the case may be) and, having made such a ruling, the arbitrator shall be entitled to proceed with the reference on an *ex parte* basis.
- C3.3.4 Any party who becomes aware that any provision or requirement of these rules has not been complied with and who fails to state an objection to that failure within a reasonable time shall be deemed to have waived the right to object.

C4 *Awards*

C4.1 *Final and binding*

Without prejudice to the provisions of the Arbitration Act 1979 or, for arbitrations taking place in Scotland, the Administration of Justice (Scotland) Act 1972 and the provisions of any agreement between the parties to the dispute and the relevant Access Conditions, awards shall be final and binding on the parties.

C4.2 *Power to make orders*

In addition to his other powers under these rules, the arbitrator may make such orders in his award as he considers necessary to resolve the dispute, including orders that:

- (ii) for enforcing the arbitration award; or
- (iii) in support of a plea of estoppel (or, for arbitrations taking place in Scotland, of *res judicata*) in any subsequent proceedings.

C6.3 *Confidentiality of arbitration awards*

C6.3.1 *Copies to Industry Parties and Franchising Director*

Subject as provided in this paragraph C6, a copy of every award of an arbitrator pursuant to this Part C shall be sent by the Disputes Secretary to each Industry Party and the Franchising Director. No such copy shall be sent until the expiry of 21 days after the receipt by the Disputes Secretary of the copy of the award in question, unless the Chairman shall order otherwise.

C6.3.2 *Discretion to order confidentiality*

The Chairman shall be entitled to direct that an award or any part of it shall be kept confidential, to the extent stated and subject to such conditions (if any) as shall be specified in the direction, on the grounds that:

- (a) publication would or might seriously and prejudicially affect the interests of any of the parties to the dispute or any other person; and
- (b) such prejudice outweighs or is likely to outweigh the interests of the industry in the publication of the award.

Any such direction shall be in writing and shall be given to the parties to the dispute and the Disputes Secretary.

C6.3.3 *Exceptions to confidentiality directions*

A direction given pursuant to paragraph C6.3.2 shall not apply to disclosure which is:

Within 7 days of its receipt of the award (or such longer period as the Chairman shall allow), each party to the dispute shall give notice to the Chairman and the other parties to the dispute:

- (a) as to whether it considers that the Chairman should exercise his discretion to exclude from publication any part of the award which relates to its affairs; and
- (b) if confidentiality is sought, its justification for considering that the grounds referred to in that paragraph exist.

C6.3.5 *Hearing on confidentiality representations*

The Chairman shall be entitled to hear the parties on the question of confidentiality under this paragraph C6.3.

C6.3.6 *Written reasons for decision*

If any representations shall have been made to him pursuant to paragraph C6.3.4, unless the parties to the dispute otherwise agree the Chairman shall provide the parties to the dispute with his reasons for making his determination. Such reasons shall be given in writing.

C9 *Jurisdiction and governing law*

Arbitrations shall take place in England and be subject to English law, except where the Access Agreement in respect of which the dispute has arisen confers permission to use railway assets situated entirely in Scotland or the Access Agreement in question is governed by Scots law, in which case the arbitration shall take place in Scotland and be subject to Scots law. In either case the arbitrator may order otherwise. For the purposes of this paragraph C9, where a single Access Agreement confers permission to use track in both Scotland and England, the railway assets in question shall be treated as being situated partly in Scotland and partly in England.

C10 *Interlocutory relief granted by the Court*

In an appropriate case, a party to a dispute which has been or may be submitted to arbitration may apply to the Court for interlocutory relief (whether negative or positive), notwithstanding that the relief sought may overlap with the relief which is, or may be, claimed in the arbitration.

D EXPERT DETERMINATION

D1 *General*

Any dispute which the parties have agreed should be referred to expert determination under these Rules shall be determined by an expert agreed between the parties or appointed by the Disputes Secretary.

D2 *Application of Part C*

Part C shall apply to any such disputes, and to paragraph D1, as if references to the arbitrator and the arbitration were references to the expert and the expert determination respectively, save that in paragraph C3.1, unless otherwise ordered by the expert:

- (a) sub-paragraphs (iv), (v), (vi), (vii), (viii), (x) and (xii) shall not apply;
- (b) any notice served under sub-paragraph (ix)(d) shall be served within 35 days of the appointment of the expert;
- (c) the expert shall deliver his determination, and (unless the parties have agreed that he should not give them) the reasons for it within 56 days of his appointment; and
- (d) the expert's determination shall be final and binding save where it is so clearly erroneous on its face that it would be unconscionable for it to stand.

E DETERMINATION BY THE REGULATOR

E1 *Commencement of proceedings*

The determination of any dispute:

- (a) in relation to which it is specified, in any agreement in respect of which the Regulator shall have issued directions under section 17 or 18 of the Railways Act 1993, or in any agreement which he shall have designated for the purposes of these Rules, that the Regulator shall have jurisdiction; or
- (b) which all parties to the dispute have agreed should be referred to determination by the Regulator and the Regulator has agreed to determine,

shall be begun by the person wishing to refer the dispute to the Regulator serving on the Regulator and on every other party to the dispute a written statement of its case.

E2 *Procedure*

The Regulator shall be entitled to determine any dispute referred to him pursuant to the preceding clause in such manner as he considers most suitable for the just resolution of the issues before him. He shall have the power at any time to make or amend the practice and procedure to be followed by the parties referring the dispute to him and shall have the power (if he considers it appropriate) to require the parties to adopt the procedure set down in paragraph C3 for use in arbitrations, subject to whatever amendments he considers appropriate. The Regulator's determination shall be final and binding on the parties.

E3 *Determinations by the Regulator*

In the case of a reference made to him pursuant to Conditions D5, F5, G6 or H11.9(a) of the Track Access Conditions, the Regulator shall be entitled to determine that any senior member of the staff of the Regulator who is authorised generally or specially in that behalf by the Regulator may either:

- (a) consider and determine the matter in question; or
- (b) report to the Regulator as to the determination of the matter after such procedure as the Regulator shall specify.

A determination made pursuant to this paragraph E3 shall be a determination of the Regulator.

F AMENDMENT

These Rules may be amended in accordance with the provisions of Part C of the Track Access Conditions.

G REGULATOR'S APPROVAL

No amendment of these Rules shall have effect unless approved by the Regulator.
